Draft Provincial Budget for 1894-95

H.E. has not initialed the draft - but asks a question regarding the new Station Hospital at Fort St. George.

We have no information on this subject in the P.W.D.

From the file immediately below this note it will be seen that all that Provincial Funds were supposed to provide were the following

Detention Hospital at Madras	Rs 70,440
Initial expenses of introducing the new arrangements	5536
Total Rs	75,976

and this amount was duly surrendered to the Financial Dept in G.O. 1052 W d/11 April 93.

The Military sick were, so far as I remember, to be accommodated in Military buildings at Poonamallee.

(The papers were returned to the Financial Dept with Memo No: 1466 C d/28 March 93).

Nothing later than

Reply

The Commander-in-Chief has submitted revised proposals in regard to accommodation for sick of garrisons Fort St. George - These proposals are now under consideration in Military Department.

S 31.1

W.

The accompanying list as corrected shows the grants as decided by the Committee.

An additional grant of Rs 1,25,000 has since been sanctioned by the Financial Department vide G. O. No: 194 W d/22nd January 1894. This sum may be distributed among th new works in the printed list for which no grants were assig by the P. W. Budget Committe

It will be necessary to make some provision in the budget for 1894-95 under Tools and Plant for the supply of tents to P. W. Officers, the entire cost of which comes to about Rs 70,

The proposal in the recent note

ord

in question have been forwarded to the Collector. The Revenue Department was requested in para 4 of G. O. No 2615 W d/13th October 1893 to instruct the Collector to arrange for the early transmission of the estimates. ~~Orders are requested whether under these circumstances grants proposed for the works may be allowed to stand and item No 65 struck out.~~

R. S.
21 Dec

The past expenditure on these two works was omitted from the printed list as C's Register on which the entries are based was incorrectly prepared. The expenditure had not been brought forward in the Register.

R. S.

H 4
21/12

Note for W

Under the circumstances it is proposed to strike out the provision for these works in the budget for 1894-95 in order to provide for item No 249 which the Revenue Secretary states to be most urgently required.

They can be provided for later on if additional funds become available.

21.12

P.W.D

Note for W H E

× Sub Magistrate's Office - Anjengo
◦ Do - Tangasseri

[illegible]

With reference to item in the [illegible] budget for 189 Nos 53 and 54, it has been ascertained ~~from C's office~~ that expenditure to the extent of Rs 473 and Rs 3,003 respectively has been incurred to the end of 1892-93 in the collection of materials under the authority conveyed in G.O. No 1652 W dated 18th June 1891. The works ~~do~~ have not ~~not seem to have~~ been actual commenced, and the gran for the current year have n been touched.

~~It will be observed from the progress report of the IV Circle for August 1893 vide No 3209 C dated 27th September 1893, that the~~ estimates for the buildings in are available vide G.O. 1492 W dated 5th June 1893 and G.O. 1178 W dated 28th April 1893. The Secretary to Government Revenue Department, who is to attend the budget Committee, may perhaps decide whether the works are urgent or not.

R S
16 Dec.

Strike off the following amounts to make up the Rs 15,000 wanted

Item No	22	3,000
	23	2,000
	[illegible]	3,000
	30	2,267
	31	2,000
	35	2,000
		15,267

Enter in red ink along side of each item the amount now proposed to be allotted, [illegible]

[illegible]

at Madras. As it will take several years to complete the building, if such small allotments are provided, and as the Consulting Architect applies for a grant of Rs 150,000 it is suggested that a provision of Rs 100,000 may be made for the work. These modifications will increase the allotment to works in progress to Rs 6,71,321 and leave a balance of Rs 3,03,679 available for distribution among new works, the demands for which amount to Rs 12,08,190 (Rs 5,85,642 for works for which estimates have been sanctioned and Rs 6,22,548 for those for which estimates have not sanctioned)

Vide Statement

Allotments should perhaps ide for the following tor which funds have been promised:-

7 Statement A

(a) Item 8. Improvements to the sub-jail at Koraput. The Financial Department has ordered that provision for this work should be made in the P.W. Budget for 1894-95 vide G.O. No 968 (Finl) dated 30th September 1893 (G.O. No 2700 W dt 24th October 1893)

(b) Item 44. Deputy Tahsildar's office with out-houses at Ambur. The Collector of North Arcot recommended that the work should be proceeded with as rapidly as possible and the Suptg. Engineer IV Circle was asked to report the amount that could be spent in the current official year vide G.O. No 2606 W dated 13th October 1893. A gra Rs 3,000 has since been provided for sche this

this work. The allotment required for 1894-95 will therefore be Rs 13,550 only.

(c) Item 64. Constructing an office for the Head Assistant Collector at Ramnad. The Collector of Madura recommended that this work should be put in hand immediately and an allotment was promised to be made as soon as funds become available vide G.O. No. 2983 W dated 17th November 1893. Draft order providing Rs 3000 for this work has been sent to His Excellency. The balance of the estimate viz Rs 14,800 may therefore be provided in 1894-95.

(d) Item 170. Constructing a building for the Government Girls' School at Madura. The necessary provision of funds for

Ze

Ze

[illegible] [illegible] it [illegible]
give way to other
works for which
estimates are ready

for this work was ordered to be made in the budget for 1894-95. G.O. 2189 W dated 25th August 1893.

11. Allotments proposed for the following works may be deferred with reference to the remarks against them.

(a) Item 68. Quarters for the Bandsmen of H. E. the Governor. Allotment for this work may be held in abeyance, pending decision as to whether accommodation for the men can be provided at St. Thomas Mount vide L. O. File No. 2.

(b) Item 103. Enlarging St. Mark's Church, Bangalore. vide G.O. No. 2681 W dated 27th September 189 Attention is invited to the remarks of the Hon'ble Sir Henry Stokes on the note for orders att d to this G.O.

12. In G.O. No 525 W dated 28th February 1893, the Heads of Departments were directed to budget for all original works costing over Rs 500 and Suptg: Engineers for minor works costing Rs 500 and less and for repairs. Suptg Engineers II, III and V Circles have brought forward a few works not included in the lists submitted by Heads of Departments and they have been shown in the printed list. The order of urgency in which works have been arranged by the Heads of Departments is shown in the printed list by serial numbers within brackets against the items. Under "Administration", "Medical", and "Forest" Heads of Departments have arranged the works by Districts and this arrangement has been preserved in the printed list. The Board of Revenue have not included any works under Customs – those brought forward in the printed list are taken from the Consulting Architect's Budget.

The works printed for [illegible] in para 10 amount altogether to Rs 38,910 – This leaves Rs 264,769 for distribution –

The numbers shown on the enclosed slips work up to [illegible] stated sum, but I am not sure how they work out as regards distribution to Divisions and whether there are any other works at all urgent, which are not included – Items about Nos 246 and 249 – If they are not at all urgent some of the [illegible] to [illegible] entertained need be omitted to provide for them

for execution when fund

are

anicut [illegible] now destitute of both land [illegible] cattle. When they are reduced to such a poor state of life as this, they have been reduced to work establishment to their great misfortune.

(5) Had this reduction been effected when the railway work was commenced in the Godavari District, the memorialist would have at least earned viz from 4 to 6 annas a day (for only day time & not for night work) Seeing that local rates of wages of daily labourers in force are greater than what he gets viz Rs ~~a day (ie) Rs~~ for a month both for day and night work and finding that the ancient lascars in the Kristna District draw Rs 6, 7 & 8 per mensem, the Govt's poor memorialist contemplated of sending a memorial to the Govt for raising [illegible] salary to the corresponding grade of local rates but believing that ~~the~~ scale of rates established once for all will not be revised without his undergoing much trouble he did not submit the memorial. He now are

deeply

the doubts of Governmen [illegible], in the case of work done by them to Dowlaishweram Head-Lock.

(3) Both the above facts stated in (a) and (b) under para 2, will, they believe, convince the Government in so far that they have undertaken the above works even at the risk of their lives. Such has been the hard labor with which they have been entrusted and such is the ultimate benefit they derived of it viz the reduction of their posts into posts chargeable to work which carry no pensions with them.

(4) — Fully anticipating that they will enjoy the golden rule of the British Govt. and get pensions in their old age some of the lascars who have had landed property have disposed it of, lest they may be transferred to some other places far off their native land; they also disposed of their cattle which most of them had being unable to look after them while attending to the onerous duties of their public service both day and night. If they intend to return to their former profession, vi[illegible], cultivating their land they

---

anicut lascars were ordered to enter into the hole and to fill it up from its very bottom. They did the work very satisfactorily and won the favor of the Superintending, the Executive & the Asst. Engrs. of the time to whom the Govt. may make reference and obtain the truth of the matter as they form the eyewitnesses of the fact.

(b) During the time of the construction of Bobberlanka Head-Sluice in 1879-80, Dowlaishweram Hd. Lock in 1886-87, Bobberlanka in 1889-90, and Vizeshweram Hd. Lock in 1891-92, daily laborers did not offer themselves to dive into the wells sunk for pile driving work. Though it was a very difficult task especially diving into wells and sinking them yet the anicut lascars were considered as so many giants that can undertake the work & accordingly it was got done by them. N. B. Dewinton Esqr. will bear testimony to the hazardous work played by anicut lascars when the Bobberlanka Hd. Sluice were washed away in the year 1878. A reference to J. H. Somers Eere Esqr. the present Exec. Engr. in the Rushkulia Dn. will clear the temporary servant chargeable to work; nothing can be done but confiscating the wages of the laborer viz as 3 or 4 or whatever he gets for that day)

(3) To row boats measuring distances in the river & taking soundings after field work of river chart survey is over (none but experienced lascars can be employed in measuring distances over water)

(2) Besides the duties enumerated from (a) to (g) under para 1, which form the ordinary daily work of anicut lascars the following extraordinary works have been undertaken by them.

(a) During the working season of May 1889 a big hole was found beneath the Maddur anicut. Officers and Subordinates attempted to penetrate into it and inspect the bottom of it but did not succeed not because the hole was not sufficiently large to hold men, but because it was too dark and heat was very immense, there was not good air to breathe in; light was created by reflection of large glasses into the hole; no daily laborer ventured to enter into the hole. At this time, the

tools, the river embankments and lankas (infested with cobras) during the times of flood and in the rainy season. What daily laborers or temporary men can be entrusted with the above works of responsibility and what reliance can officers and subordinates keep on them and what will be the punishment in case of neglect of duty on their (daily laborers) part? The memorialist would bring to the special notice of the Govt, the differences between servants who are bound services reckonable towards pension and others who have no such binding.

(f) To accompany the Delta superintendent attached to the Hd Works Sub Dn for river survey work in surveying lankas and sand-shoals four miles below and four miles above the four branches of the anicut bearing scientific instruments in the scorching sun over them and burning sand beneath their feet (if a levelling box is slipped down the head of a lascar for his either getting too much fatigued by sun stroke or, by accident then therewith end the lascar's services and for fear of this he is more careful towards the instrument than to his own life, but please consider the case of a daily laborer or dispensed with as per G. O. No 840 dated 28·3·93. Evidently the rule originated in the aforesaid G. O of March 1893 has affected the services of Govt's poor servants of 20 years standing in the department. The object of the Govt in doing so, is perhaps to preserve economy without undergoing expenses for affording pensions to those that survived after completing 30 years service overcoming innumerable hardships & accidents to lives (irrespective of natural and domestic life struggles) in the due performance of the duties of anicut lascars who are required:—

(a) Sometimes to swim with express letters over two branches of the river Godavari at nights during flood time in cases of emergency.

(b) To convey tappals regularly by means of a small nava or row boat even when the river is in its highest flood and all traffic by Rahadari boats or dhonies is altogether stopped for fear of getting them drowned.

(c) To put anicut planks, for preserving water for second crop cultivation, over the anicut crest when 1' to 2' of water is passing over it and when it is too slippery to pass, owing to the growth of moss, over it (some slide or sl

of foot makes a man fall down and smash his head into pieces by carrying him along the whirling current below the anicut; none but experienced men who have been accustomed can put anicut planks to prevent water being wasted)

(d) To work with the gearings of under sluices in some parts of the year both day and night according to the state of water in the ~~water~~ river (sometimes in working the gearings during the high freshes putting some anicut planks over the parapet walls of the undersluices there is every chance of men being slipped into the water above undersluices by accident ~~the~~ not knowing the position of the anicut planks placed beneath their feet owing to there being 3' or 4' of water over the parapet walls; none but experienced lascars can either raise or lower shutters of the undersluices at Dowlaishweram, Bobbarllanka & Vizeshweram)

(e) To carry large apron stones from one place to another and to do such other difficult works during the whole scorching day of the working (summer) season notwithstandi watching at night materials (lime & Surki) tools, the river embankments and lankas (infested with cobras) during the times of flood and in the rainy season. What daily laborers or temporary men can be entrusted with the above works of responsibility and what reliance can officers and subordinates keep on them and what will be the punishment in case of neglect of duty on their (daily laborers) part? The memorialist would bring to the special notice of the Govt. the differences between servants who are bound services reckonable towards pension and others who have no such binding.

(A) To accompany the Delta superintendent attached to the H^d Works Sub D^n for river survey work in surveying lankas and sand-shoals four miles below and four miles above the four branches of the anicut bearing scientific instruments in the scorching sun over them and burning sand beneath their feet (if a levelling box is slipped down the head of a lascar for his either getting too much fatigued by sun-stroke or, by accident then therewith end the lascar's services and for fear of this he is more careful towards the intrument than to his own life, but to please consider the case of a daily laborer or sl

Service [illegible]

old age some of the lascars who have had landed property have disposed it of, lest they may be transferred to some other places far off their native land; they also disposed of their cattle which most of them had being unable to look after them while attending to the onerous duties of their public service both day and night. If they intend to return to their former profession, viz cultivating their land they are now destitute of both land & cattle. When they are reduced to such a poor state of life as this, they have been reduced to work establishment to their great misfortune.

(5) Had this reduction been effected when the rail-way work was commenced in the Godavari District, the memorialist would have at least earned viz from 4 to 6 ann-as a day (for only day time & not for night work) seeing that local rates of wages of daily laborers in force are greater than what he gets viz Rs   a day (ie) Rs   for a month both for day and night work and finding that the anicut lascars in the Kistna District draw Rs 6, 7 & 8 per mensem, the Government's poor memorialist contemplated of sending a memorial to the Govt. for raising his Salary to the corresponding grade of local rates but believing that the scale of rates established once for all will not be revised without his undergoing much trouble he did not submit the memorial. He now very deeply regrets for the necessity of his having had to present this memorial to keep him even in the same state he has been in, for the last 20 years. He most submissively requests the Government to contrast the differences between laborers whose wages are charged to works by day and servants who are bound (in fact fettered) by service binding.

(6) The Government may then question why the several advantages opened to daily laborers may not now be enjoyed by the permanent anicut lascars as they have now been reduced to work establishment; for this they have to reply that their loyal adherence to the department for the last 20 years selling up their land and cattle receiving small salaries viz Rs 5 & 6 per mensem, for both day and night work, would not keep them justified receiving three months notices in spite of their hard labors in connection with river business, even at the risk of their lives as enumerated in the foregoing paras.

(7) Even to think of the economy of Government alluded to in the sentence above (a) under para 1, in which Government's servants have some interest they believe it is no economy when Government undertakes to pay temporary men both for day & night work for it amounts to more than the principal of the amount to be afforded for pensions as well as interest on it.

(8) All the reverence to Government's service if any is due to its bestowing pension to its loyal servants in their dotage & without it, it is all the same with whom-so-ever the appointment rests.

(9) In conclusion the Governments humble and poor servant living on such a small pay of Rs 5 per mensem who spent almost the prime of his life in the discharge of public duties begs to know if he should be betrayed & unprotected by the Government in his old age.

To

The Secretary to the Government
of Madras Public works Department.

Humble memorial of Palli Sathigadu ancient lascar of the Godaveri Eastern Division on whom notice has been served under G. O. No. 840 dated 28-3-93, stating that ~~their~~ his services will be dispensed with at the expiration of three months from the date of notice.

Most Honored Sir,

With due deference and profound submission, the memorialist prays the Government that the following few lines may be taken into its kind consideration.

The first thing that the memorialist would bring to the notice of the Government is, that no new rule has ever been enforced in the British Government with retrospective effect, except that the rule has been brought into operation from the date of its origin. In the case of Governments humble memorialist, his services being under twenty years are ordered to be dispensed with as per G.O. No 840 dated 28-3-93. Evidently the rule originated in the aforesaid G.O. of March 1893 has affected the services of Government's poor servants of 20 years standing in the department. The object of the Government in doing so, is perhaps to preserve economy without undergoing expenses for affording pensions to those that survived after completing 30 years service overcoming innumerable hardships & accidents to lives, (irrespective of natural and domestic life struggles) in the due performance of the duties of anicut lascars who are required:—

(a) Sometimes to swim with express letters one or two branches of the river Godavari at nights during flood time in cases of emergency.

(b) To convey tappals regularly by means of a small nava or a rowboat, even when the river is in its highest flood and all traffic by Rahadari boats or dhonies is altogether stopped for fear of getting them drowned.

(c) To put anicut planks, for preserving water for second crop cultivation, over the anicut crest when 1' to 2' of water is passing over it and when it is too slippery to pass, owing to the growth of moss, over it (one slide or slip of foot makes a man fall down and smash his head into pieces by carrying him along the whirling current below the anicut; none but experienced men who have been accustomed can put anicut planks to prevent water being wasted.)

(d) To work with the gearings of undersluices in some parts of the year both day and night according to the state of waters in the river (sometimes in working the gearings during the high freshes putting some anicut planks over the parapet walls of the under-sluices there is every chance of men being slipped into the water above undersluices by accident not knowing the position of the anicut planks beneath their feet owing to there being 3' or 4' of water over the parapet walls; none but experienced lascars can either raise or lower shutters of the undersluices at Dowlaishweram, Bobberlanka & Vizeswaram.)

(e) To carry large apron stones from one place to another and to do such other difficult works during the whole scorching day of the working (summer) season notwithstanding watching at nights materials (lime & surki) tools, the river embankments and lankas (infested with cobras) during the times of flood and in the rainy season. What daily laborers or temporary men can be entrusted with the above works of responsibility and what reliance can officers and subordinates keep on them and what will be the punishment in case of neglect of duty on their (daily laborer's) part? The memorialist would bring to the special notice of the Government, the differences between servants who are bound by service reckonable towards pension and others who have no such binding.

(f) To accompany the Delta Superintendent attached to the Head works Sub Division for river survey work in surveying lankas and sand-shoals four miles below and four miles above the four branches of the anicut bearing scientific instruments in the scorching sun over them and burning sand beneath their feet (if a levelling box is slipped down the head of a lascar for his either getting too much fatigued by sun-stroke

or

or, by accident throw therewith end the lascar's services and for fear of this he is more careful towards the instrument than to his own life, but please consider the case of a daily labourer or a temporary servant chargeable to work; nothing can be done but confiscating the wages of the laborer viz as 3 or 4 or whatever he gets for that day.)

(9) To row boats measuring distances in the river & taking soundings after field work of river-chart survey is over. (None but experienced lascars can be employed in measuring distances over water.)

2 Besides the duties enumerated from (a) to (9) under para 1, which form the ordinary daily work of anicut lascars the following extraordinary works have been undertaken by them.

(a) During the working season of May 1889 a big hole was found beneath the Baddur anicut. Officers and Subordinates attempted to penetrate into it and inspect the bottom of it but did not succeed not because the hole was not sufficiently large to hold men, but because it was too dark and heat was very immense, there was not good air to breathe in; light was created by reflection of large glasses into the hole; no daily laborer ventured to enter into the hole. At this time, the anicut lascars were ordered to enter into the hole and to fill it up from its very bottom. They did the work very satisfactorily and won the favor of the Superintending, the Executive & the Assistant Engineers
