PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Proceedings of the Board of Revenue, Land Revenue, dated 24th November 1894, No. 6475 Mis. on the following letter from the Collector of Coimbatore, dated 16th November 1894, Ref. on No. 1976 Mis.

I have the honor to report that the Taluk Katcheri at Karur is an old building totally unfit for the purpose for which it is now used. It is reported that it was built in 1860 for a choultry and is now in very bad repairs. It is reported to be in very bad order and not to give accommodation for the establishment, and is deficient both as to light and ventilation. It is stated that 30 per cent of the rafters and 75 per cent of the reepers are rotten.

2. The outer roof of the Treasury has partially collapsed and it is stated that it leaks terribly. To execute further repairs will be very expensive and the Executive Engineer considers that the sooner a new building is erected the better.

3. A new standard building is most necessary. A ground plan of the existing building and a tracing of the proposed site for a new Katcheri are also submitted herewith.

3. The
