It would perhaps be well
to take this opportunity
of reconsidering L.N. 1786
of 23 Jan 89. It has already
practically fallen into
abeyance. The Revenue
Survey Dept. does most
of the enlargements, & it
might easily do the
remainder. If this be
decided, we might pension
two more of the men of the
Drawing office, who are
entitled to pension. viz

leaving only Cothendopany
Mudra. He does enlargements
of the Chief Engineer's office,
& helps the Technical Section
occasionally.

He is the most useful
of all the Drawing Establish-
ment, and might perhaps
be given a slight increase
of pay from the savings
that will accrue.

The men are now being
employed in E. I. office,

If the reductions have
effect from the end of
February, the three months
wages prescribed by rules
can be given to the men -

arrangements of plans for
topography will also have to
be decided, as provided
in the accompanying draft

as the draft order being

It would seem, therefore,

Sir,

I beg to report that of late I find my health and sight failing. In fact, for sometime past, I have not been able to see with my right eye, and working with only one, the strain on it is very great. Under these circumstances, I find I cannot, without difficulty, continue to carry out my duties in office, and am afraid further work will result in my losing my sight altogether. I beg therefore that you will be pleased to allow me to retire on the pension which my twenty six years service under Government

Submitted - entitles me to.

There not being sufficient work for Mr. Jackson, and as he is physically unable to do much, he might be allowed to retire on Compensation Pension; his appointment being abolished.

I beg to remain

these circumstances it is now possible to reduce the establishment from 4 draughtsmen on Rs 320 to 1 draughtsman on Rs. 30, and this reduction will have effect from the 1st March 1895.

2. The 1 draughtsman retained will be brought on the general establishment of the Chief Engineer and Secretary to Govt. P.W. Department, and will be employed exclusively for the work of the P. W. Department. Lithographic work of other Departments will be forwarded direct to the Revenue Survey Office for execution.

3. The Chief Engineer will at once give the requisite notice to the 3 draughtsmen whose services are to be dispensed with, and will take the requisite steps for claiming on their behalf the compensation pension admissible to them under rule

4. The following statement shows the financial effect of these orders:-
