No. 1627 T.C.

Submitted to the Chief Engineer, Public Works Department, with reference to his memorandum No. 298 C. of 23rd January 1894, through the Examiner of Public Works Accounts.

2. A statement of requirements for temporary establishment for 1894–95 will be submitted in March 1894 agreeably to Chief Engineer's No. 943 C. of 1st March 1893.

3. The numbers of lascars shown under "Present scale" are those which existed when the Chief Engineer's circular No. 4270 C. of the 27th September 1892 and G.O. No. 840 W. of 28th March 1893 were received, the difference between these and those shown in the budget or those originally sanctioned being due to several of the posts having been already transferred to "Works" on the occurrence of vacancies under G.O. No. 1616 W. of 15th June 1887. The number shown under "Proposed scale" are those which now actually exist and which should continue to be charged to "Establishment, permanent," under the Government Order above quoted and G.O. No. 1303 W. of the 15th May 1893, the difference between the "Present and proposed scales" in the above statement being due to several of the lascars having lately retired or charged to "Works" as ordered in the G.O. No. 840 W. of 28th March 1893.
