GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Account.

Read—the following papers :—

From C. VINCENT, Esq., Officiating Deputy Secretary to the Government of India, Public Works Department (Civil Works—Miscellaneous), to the Secretary to the Government of Madras, Public Works Department, dated Calcutta, 11th December 1893, No. 380 M.

With reference to the annual return of expenditure on stores in the Madras Public Works Department for the year 1892–93, submitted under your No. 3068 W., dated the 28th November 1893, I am directed to invite attention to Standing Order No. 87, dated the 1st November 1892, being the note to paragraph 23 of appendix O to volume I of the sixth edition of the Public Works Department Code, and to request that the Government of India may be informed of the effect of the instructions in Finance Department Resolution No. 2650, dated the 25th June 1891 (pages 564 *et seq.* of the above-mentioned appendix), relaxing, as a tentative measure, the existing orders prohibiting the local purchase of articles of iron and steel manufacture made up from imported raw materials.

No. 4381 C.

Referred to the Superintending Engineer, V Circle, for early submission of the required information.

18th December 1893.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

Telegram from the Govt. of India, Public Works Department, No. 70 M., dated 16th Feb. 1894.

From J. C. LARMINIE, Esq., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Vriddhachalam, 1st March 1894, No. 73 W.

With reference to your endorsements, Nos. 4381 C. and 720 C., dated 18th December 1893 and 17th February 1894, returned herewith, I have the honour to state that, on receipt of the earlier endorsement, I called upon the General Superintendent, Public Works Stores, in my No. 405 P.W.S., dated 24th December 1893, and forwarding your endorsement, to submit the information therein called for.

2. The General Superintendent thereupon seems to have sent a copy of your endorsement and of my requisition to all Superintending Engineers, the Superintendent of Works, Periyár Project, and the Consulting Architect to Government with the following endorsement :—

No. X 2 8.

Forwarded to the . . . for submission of the report called for by the Chief Engineer.

Madras,
28th December 1893.

(Signed) L. L. WICKHAM,
General Supdt., Public Works Stores.

3. On receipt of a similar endorsement by me, I addressed him memorandum No. 4 P.W.S., dated 9th January 1894, giving him instructions as to the nature of the information to be furnished in report called for. Subsequently, on further references from him, I wrote him memoranda No. 11 P.W.S. and No. 21 P.W.S., dated 17th and 24th January 1894 (*vide* copies enclosed).

4. In part III of the statement of expenditure on stores for 1892–93, articles of Indian manufacture are shown to have been obtained from Government factories to the value of Rs. 7,981 (Rs. 4,791 in Public Works Stores and Rs. 3,190 in Periyár No. I Division) and from private dealers to the value of Rs. 4,928 (Rs. 133 in Public Works Stores, Rs. 594–15–0 in Kistna Eastern, and Rs. 4,200 in Periyár No. I Division).

5. On receipt of my instructions above alluded to, the General Superintendent, Public Works Stores, should have ascertained from the Kistna Eastern and the Periyár No. I Divisions what articles, if any, of iron and steel manufacture made up from imported raw materials are included in the purchases shown in part III of the statement of expenditure on stores and should have obtained information as to the extent to which the object of the orders relaxing the prohibition of local purchase of such articles as per paragraph 3, page 567 of Code, volume I, has been attained, adding similar information as regards Public Works Stores purchases. This, however, he has not done.

6. I enclose, in original, the General Superintendent's letter No. 110 S., dated 22nd February 1894, and the replies from the Superintending Engineers, II, III and VI Circles, and the Superintendent of Works, No. I Periyár Division, therein alluded to. These officers would probably have furnished information such as is required had the General Superintendent specifically asked for it; he has not even, however, given it in connection with his Public Works Stores purchase shown in part III of the statement of expenditure on stores.

7. I am writing to the Superintendent of Works, No. I Periyár Division, to the Executive Engineer, Kistna Eastern Division, and to the General Superintendent, Public Works Stores, for the required information, which will be forwarded to you when received.

8. It would perhaps be as well if all officers concerned be instructed by a circular from your office, to include in the annual statement of expenditure on stores furnished by them to the General Superintendent the information required by the note to paragraph 23 of appendix O to Code, volume I.

ORDER—dated 13th March 1894, No. 704 W., Public Works.

The information promised in paragraph 7 of the Superintending Engineer's letter above recorded should be obtained and submitted with the least possible delay. It is highly unsatisfactory that the General Superintendent, Public Works Stores, has been unable to furnish the report required by the Government of India.

2. The attention of all officers of the Public Works Department will now be drawn to Standing Order No. 87 of 1892 adding a note to paragraph 23, page 538, appendix O, volume I, Public Works Code. In forwarding to the General Superintendent, Public Works Stores, the annual return prescribed in paragraph 23 above quoted, Superintending Engineers will append thereto a statement giving the following information:—

(1) What articles, if any, of iron and steel made up in India of imported materials have been purchased during the year.
(2) What savings, if any, have accrued to Government, in the case of each purchase, as compared with the cost of similar articles of European manufacture, if obtained from England.
(3) Whether by such purchases delay that would have occurred if the articles had been obtained from England was avoided, and, if so, to what extent.

3. A list of articles which may be made up in India from imported raw materials is given at page 571, appendix O, Public Works Code.

4. Under paragraph 24, page 538, appendix O, the annual return prescribed in paragraph 23 is due with the Government of India by the 31st August in each year, and it should therefore be submitted to this Government by the General Superintendent, Public Works Stores, by the 15th August at latest. Superintending Engineers will accordingly submit the circle returns so as to reach the General Superintendent by the 31st July at latest. For several years past the consolidated return for the Presidency has been forwarded to the Government of India long after due date, and the Government desires that such delay should not occur in future.

To

The General Supdt. P.W. Stores

With reference to the General Supdt's No. X 28 d/28th December 1893 herewith enclosed he is requested to state the circumstances under which it was addressed to the undersigned.

The information required for the report called for by the Chief Engineer can be furnished only by the General Supdt viz (1) what articles, if any, of iron and steel, made up in India from imported materials have been purchased since receipt of Government of India Resolution No. 2650 of 25th June 1891, (2) what savings if any, have accrued to Government, in the case of each purchase as compared with the cost of similar articles of European manufacture, if obtained from England - and (3) whether by such purchases, delay, that would have occurred if the articles were obtained from England, were avoided, and if so, to what extent &c &c (For List of articles which may be made up in India from imported raw materials, see Code Vol I page 571). The General Supdt is requested to submit a report on the points above mentioned, as soon as possible. The Government of India Resolution above alluded to will be found in Code Vol I Page 564 &c. The G.O. communicating the Resolution in question was sent to the General Supdt with this office No. 306 P.W.W. d/8th September 1891

-Sd- J. C. Larminie
Supdg. Engineer V Circle

2.

No. 11 P.W.S. of 17th January 1894

The General Supdt will see from the orders sent to him with this office No. 405 P.W.S. d/24th December 1893 that the required report is called for in reference to the statements of Expenditure on Stores submitted by the General Supdt annually which he compiles from the Returns sent to him by the several Supdg. Engineers and the Officer in charge of Periyar Works - The General Supdt's statement that he has no records is therefore not correct, and he is requested to lose no more time in submitting the report, which he will see is required for the whole Presidency, not fifth circle only.

-Sd- J. C. Larminie 704/7
Supdg. Engineer V Circle

Letter No. 963 d/20th January 1894 from the General Supdt P.W. Stores.

Enclosure 1. No. 21 P.W.S. d/24th January 1893

There seems no occasion for any reference to Government. The annual statement of Expenditure for 1892-93 furnished to the General Supdt as this office No. 216 P.W.S. d/21st July 1893 contains all necessary information. It will be seen that Part III of that Statement is "nil" and hence no purchases have been made in this circle of articles of Iron and Steel manufactured in India, the same remark applies also to the statement for 1891-92 sent to the General Supdt as this office No. 288 P.W.S. d/1st July 1892. It should be noted that the required report should embrace the period from date of receipt of G.O. No. 2268 W. dy 21st August 1891 up to end of 1892-93 - See Code Standing order No. 87 dy 1st November 1892 being note to para 23 Appendix O. Code Vol I page 538.

From the Executive Engineer, [illegible] Eastern Division, to the Supdg Engineer, 2nd Circle dated 3rd February 1894, No. 5286.

704/8

With reference to your Endt. No. 528 Gl dated 9th January 1894 requesting to be informed of the effect of the orders of Government of India relaxing certain restrictions placed upon the purchase in India of articles made of raw materials imported from England, I have the honor to state that, as far as this Division is Concerned, the stores of less importance & those found necessary from time to time for works undertaken by the workshops are obtained from the respectable firms of Madras, Bombay, and Calcutta to meet the urgency, & sanction of Government for such purchases is obtained. The more important stores whose requirement can be foreseen are included in the Home Indent. I am, therefore, of opinion that the limit up to which the relaxation is sanctioned may be extended.

Sir,

Enclosures.

In reply to your No X 2 S dated 28th December 1893, I have the honor to state that it would produce great delay and inconvenience if Bridges and roofs of small span, and simple ironwork, had all to be indented for upon the Secretary of State, and that the tentative relaxation of the strict application of this rule in all cases, is, I consider only in the interests of efficiency and economy.

2. In this circle however from force of circumstances, nearly all ironwork is procured from the P. W. Workshops, and not from private firms.

Sir,

One List with
20 Enclosures.

With reference to your No. 56 P.W.S. dated 18th December 1894, (herewith returned) I have the honor to report that all the information in this Office subsequent to your No. 405 P.W.S. dated 24th December 1893 was forwarded to you in Annual return of purchase of Stores with my No. 75 S. dated 11th November 1893. On receiving your No. 405 P.W.S. dated 26th December 1893, I requested all Superintending Engineers to give me the information required in your No. 405 P.W.S. in order that I might compile a Statement showing the effect of the Orders of the Finance Department Resolution No. 2650 dated 25th June 1891 as required by the Government of India No. 380 M dated 11th December 1893. Up to date I received answers from Supdt. Engineers 2nd, 3rd, 6th Circles and Jeypore.

2. The Supdt. Engineer 4th Circle asked what information was required and this I forwarded to

to your Office on the 21st January 1894, and a reminder on the 16th February - awaiting an answer to this I have kept the matter in abeyance as I should then have some definite instruction to go on. From your endorsement on my reminder No. 108 S. dated 16th February 1894, just received. It would seem that it is only the information received from the Compilation subsequent to your No. 405 P. W. S. of the Annual Return is required and this has already been included in the Annual Return for 1892—93.

3. The Return from the Superintending Engineers from which the Annual Return was made is herewith sent; as well as other papers connected with the matter, to save delay and further correspondence.

4. From these papers you will see that Government have in their possession all the facts available in this Office. I have sent no telegrams to the Supdt. Engineer 1st Circle and the Consulting Architect as it would seem to be useless from your endorsement on my No. 108 S. dated 16th Feby 1894.

I have the honor to be,

Sir,

Your most obedient Servant,

4. In part III of the Statement of Expenditure on Stores for 1892-93, articles of Indian manufacture are shown to have been obtained from Government Factories to the value of Rs 7981, (Rs 4791 in P.W. Stores and Rs 3190 in Periyaur No 1 Division) and from private dealers to the value of Rs 4928 (Rs 133 in P.W. Stores ~~and~~ Rs 694-16-. in Kistna Eastern and Rs 4200 in Periyaur No 1 Division)

5. On receipt of my instructions above alluded to the General Superintendent P.W. Stores should have ascertained from the Kistna Eastern and the Periyaur No 1 Divisions what articles if any – of iron and steel manufacture made up from imported

raw materials are included in the purchases shown in part III of the Statement of Expenditure on Stores and should have obtained information as to the extent to which, the object of the orders relaxing the prohibition of local purchase of such articles as per para 3 page 667 of Code Vol I has been attained adding similar information as regard P.W. Stores purchases - This however he has not done -

6. I enclose in original the General Superintendent's letter No 110 S dated 22nd February 1894 and the replies from the Supg Engineers - 2nd, 3rd and 6th Circles and the Superintendent of Works No 1 Periyaur Division therein alluded to - These Officers would probably have furnished information such as is required had the General Supdt. specifically asked for it; he has not ever however given it in connection with his P.W. Stores purchase shown in Part III of the Statement of Expenditure on Stores

704/18

7. I am writing to the Supdt. Works No 1 Periyaur Division, to the Executive Engineer Kistna Eastern Division and to the Genl. Supdt. P.W. Stores for the required information, which will be forwarded to you when received.

8. It would perhaps be as well if all Officers concerned be instructed by a Circular from your Office to include in the annual Statement of Expenditure on Stores furnished by them to the Genl. Supdt. - the information required by the note to para 23 - of Appendix A to Code Vol. I. -

I have the honor to be
Sir,
Your most. Obdt. Servt.
J. C. [illegible]

9th Mar.

The information promised in para 7 of the Suptg: Engineer's letter above recorded should be obtained and submitted with the least possible delay. It is highly unsatisfactory that the General Superintendent P.W. Stores has been unable to furnish the report required by the Government of India.

2. The attention of all officers of the P.W. Department will now be drawn to S. O. No. 87 of 1892 adding a note

(43—1,000—23-2-94.)

to para 23, page 538, Appendix C. Vol. I P.W. code. In forwarding to the General Superintendent P.W. stores, the annual return prescribed in para 23 above quoted, Supts. Engineers will append thereto a statement giving the following information.

(1) What articles if any, of iron and steel, made up in India of imported materials have been purchased during the year.

(2) What savings, if any, have accrued to Government in the case of each purchase, as compared with the cost of similar articles of European manufacture, if obtained from England.

(3) Whether by such purchases, delay that would have occurred if the articles had been obtained from England, was avoided, and if so to what extent.

3. A list of articles which may be made up in India from imported raw materials is given at page 571 Appendix C, P.W. Code.

4. Under para 24 page 538, Appendix C, the annual return prescribed in para 23 is due with the Government of India by the 31st August in each year, and it should therefore be submitted to this Government by the General Superintendent P.W. stores by the 15th August at latest

Supt'g Engineers will accordingly submit the Circle returns so as to reach the General Superintendent by the 31st July at latest. For several years past the consolidated return for the Presidency has been forwarded to the Government of India long after due date and the Government desires that such delay should ~~not be repeated~~ not recur in future.
