Statement showing the true percentage which the charges for Establish-
ment bear to the actual expenditure on Works and Repairs in connection with
Irrigation Works in Madras for the year 1892-93.

To W.

As there appears to be no spe-
cial reason for anticipating any large
increase or decrease in suspense, as far
as I have reason to know, the submission
of Part VI with Provincial Civil Works
Budget for 1894-95 appears to be unne-
cessary under Code XV. II2.

Copy of a letter No. 3495, dated 21st November 1893 from the Executive Engineer, Bangalore Division to the Chief Engineer, Madras Command.

With reference to your No 7837 dated 16th November 1893 I have the honor to inform you that the present slate roof of St. Andrews Kirk was, so far as I can ascertain, put on when the building was first erected in 1864-66. The slates were brought out from Scotland and cannot be replaced locally.

3. Some few years back an attempt was made to replace the worst slates by iron plates, the result, however, has not been a success, complaints as regards leakage being incessant during the rains.

4. The slates originally fixed are those known as "counters" slates 20" x 10" nailed to boards laid on the rafters.
