Resolution—dated 11th January 1894, Mis. No. 133.

The registration of road traffic at Pottangi and Rayagada stations in the Vizagapatam district for three years will be completed on 31st March 1894, and it will then be possible to open two other stations in their stead from 1st April next. The traffic on the road from Vizianagram to Párvatípur has already been registered at Párvatípur and Ramabhadrapuram stations for one year in 1890-91. The Board considers that this may now be taken up again and registered for two years more. Statistics for this road will be useful in connection with any proposal to connect the East Coast Railway with the Central Provinces.

2. The Chief Engineer will be requested to favour the Board with his remarks on the above proposal. Funds will not allow of more than two new stations being taken up this year in addition to those now in operation.
