OFFICE NOTE No. 1901 D/13

To

W.

With reference to G.O. No. 98
dated 29th April 1895, I beg to explain
as follows:-

2. The recovery from the Municipal Corporation, referred to under XXXII Civil Works, in para 3 of G.O. No. 256, dated 19th March 1895, was an item that was adjusted in the Civil Accounts, but not in the P.W. Accounts. The Accountant General, Madras, who was addressed on the subject, states that the amount was erroneously deducted from charges in the March preliminary account and readjusted in the final accounts.
3. Of the items referred to in para 4 of the Financial Department G.O., the delay in the adjustment of the charges (Rs. 38,000) under "Buildings & Roads" was unavoidable. This adjustment represents the difference between the 6 per cent charges for establishment on account of indirect revenue for major irrigation works, as budgeted for, & the actuals as communicated by the Board.

Revenue. The figures of indirect re-
venue for the Cauvery Delta System were
received from the Board of Revenue on the
11th November 1894, when the necessary ad-
justments were carried out and the final
figures advised to the Accountant Gene-
ral, Madras, on the 8th. idem.

Unless the Board of Revenue can
furnish me with the figures of indirect
venue at a very much earlier date than
they have hitherto been able to do, simi-
lar delays cannot be avoided.

There was no delay in the adjust-
ment of the charge of Rs. II,000 under
Miscellaneous Railways. This amount re-
presents charges incurred under Railway
surveys during the year, and the figures
under this head were advised to the Ac-
countant General, Madras, in my No. 2689
dated 30th. June 1894.

EXECUTIVE ENGINEER'S OFFICE,
COIMBATORE DIVISION,
COIMBATORE, 17 May 1895.

FROM

H. B. deWinton Esq

EXECUTIVE ENGINEER,

COIMBATORE DIVISION.

TO

THE SUPERINTENDING ENGINEER,

FOURTH CIRCLE, COIMBATORE.

SIR,

Enclosures.

I have the honor to request
that you will obtain the sanction of
Government under para 1159 of the
Civil Service Regulations to the exemption
of Mr. A. R. deChazal, Assistant
Engineer, from the 10 days' rule so long
as he is contouring and surveying
for the Muthukolam Project, so that he
may draw his daily allowance —
throughout the period (a month to 6
weeks) that he will be there.

2 It is necessary for him to
keep up camp equipage the whole
time; the place is unhealthy and
expensive, all supplies having to be
obtained

P. W. D.
