GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—again the following paper:—

G.O., dated 27th May 1892, No. 584, Financial.

ABSTRACT.—Passing orders on letter from the Government of India bringing to notice certain complaints made regarding the omission to supply the British Museum with certain books published in India, and summarizing the orders which at present regulate the transmission of books and publications intended for that institution with a view to prevent the recurrence of such omissions in future.

ORDER—dated 2nd January 1895, No. 5, Financial.

In the proceedings read again above (paragraphs 4 to 6), the Financial Department was constituted the central agency for the selection and despatch to England of official publications and publications exempted from registration under Act XXV of 1867. It was also made the forwarding office in respect of all books and publications for despatch to England.

In practice, however, each department of the Secretariat has, since the date of that order, been despatching the publications with which it is concerned direct to the India Office. This procedure is, on the whole, the more convenient. At the same time it is necessary that some check should exist by means of which the Financial Department may ensure that the rules are being strictly adhered to.

Accordingly, the Superintendent of the Government Press will invariably inform the Financial Department in future before a publication issues from the Press. The intimation—which should be made, if possible, a fortnight before the issue of the publication—should be submitted through the department of the Secretariat concerned, which will, in transmitting it, state the number of copies of the work intended to be sent to the India Office. These intimations will be treated as urgent.

This procedure will be observed in the case of all Government publications including annual departmental administration reports.

2. The Superintendent will pay special attention to the instructions in the second sentence of paragraph 2 of G.O., dated 6th September 1883, No. 1746, Public.

Examiner, P.W. Accounts, Madras.

Note - The expenditure in October was shown as Rs 1,80,759 - In November it falls to Rs 176537 - but there is no explanation of this. The probable expenditure of the year based on the average will be Rs 21,00,953 which will leave a saving of Rs 59117 on the grant; but there are generally Rs necessary adjustments at the end of the year that should not be lost to resume these amounts now - The figures for December may be awaited, as directed by W on the previous return:
