He anticipates the additions to the existing block of buildings for living purposes at about Rs 12. This work will be carried out departmentally during the ensuing summer vacation. Mr. Hall also recommends that a boarding house should be erected at a cost of Rs 2.350. There is at present living accommodation for 38 Sanatan students in the College premises and the proposed building is intended to provide boarding accommodation for the same number. He wishes to work the hostel on the lines of the Christian College Students Home. They request that permission may be given for the Public Works Department to prepare the necessary plans and estimates. The work will be begun when funds become available. There is no pressing need for boarding accommodation for the other classes of Brahmans as they are comparatively few in number and make their own arrangements for boarding.

Order:- 3^d May 1895, No. 350.

The estimate for repairing the old police huts at Saidapet is approved and will be transferred to the Public Works Dept.

Second block.

No. of rooms	Size of rooms	No. of students accommodated	Monthly rent Collected.	Total outlay on building
1	10 x 14	3	1-2-0	An old building worth about Rs 1000.
5	10 x 8	10	5-0-0	
2	8 x 8	4	1-8-0	

Excluding the two months mid-summer vacation the ~~two~~ rooms are occupied for ten months in the year and the annual rent collected amounts to about Rs 200. Considering the size of the rooms and the number of students accommodated therein, it may seem that the rooms are slightly overcrowded. But as these houses were built as an experimental measure by Mr. Grigg, it was not possible to make better provision.

3. The students furnish the rooms themselves, their furniture generally consisting of a bed, a table and a chair. The sweeping and lighting are done by one of the peons attached to the College.

4. Mr. Hall strongly recommends the Extension of the Students' Home in order to provide accommodation for Sudra and Christian Students. I support his recommendation.
