

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper :—

From J. D. REES, Esq., C.I.E., Resident in Travancore and Cochin, to the Chief Secretary to Government, dated Cochin, 13th May 1895, Ref. on C. No. 1478.

With reference to G.O., dated 25th March 1895, No. 201, Political, I have the honour to submit for the orders of Government an application from the Dewan of Travancore for the permanent transfer to the Durbar of the services of a competent Engineer belonging to the Madras establishment. I agree with the Dewan in considering that outside the British service it is difficult to get an officer of tried professional ability and of experience in project works. Government will therefore be conferring a boon on the State if it can comply with the Dewan's request which has my support as it had that of the late Mr. Grigg. The pay and prospects offered are, I think, sufficient to attract a good officer and there can be no doubt that such an one is wanted now, and will be even more urgently required, if, as seems not improbable, Mr. Jacob in no long time retires.

ENCLOSURE.

From the Dewan of Travancore, to the British Resident in Travancore and Cochin, dated Trivandram, 6th May 1895, No. 1627 P.W.

I have the honour to acknowledge your office letter, Ref. on C. No. 1078, dated the 2nd ultimo, intimating that it is not possible to lend to this State the services of a suitable Engineer from the Madras Public Works Department.

2. Outside the British service, I do not think many officers can be had with tried professional ability and experience in project works. His Highness' Government are therefore obliged to seek the help of the Madras Government in this matter and will esteem it a favour if the services of a competent Engineer be transferred permanently to the Public Works Department of this State. I trust that this could be done with less difficulty or inconvenience than the loan sought for. His Highness' Government are prepared to allow the officer a salary according to qualifications up to Rs. 900 per mensem and would, in the event of his giving satisfaction, appoint him as Chief Engineer on Mr. Jacob's retirement, on Rs. 1,000 per mensem rising to Rs. 1,200 after five years. The past service of the officer will be taken into account towards his pension and he will have the benefit of the British pension and leave rules. He will also be granted the travelling allowance of an Executive Engineer in the British service so long as he holds that rank in this State, and that of a Superintending Engineer when he becomes the Chief Engineer.

No. 1154, Political.

Referred to the Public Works Department.

OOTACAMUND,
