G/0.1486

dt. 19-6-1895

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from G. STOKES, Esq., Collector of Salem, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 31st March 1895, No. 1243 :—

I have the honour to submit, herewith, the programme of famine relief works for 1895–96, prepared in the forms prescribed in B. P., No. 411, dated 7th June 1892, as modified in B. P., Nos. 502 and 360, dated 16th July 1892 and 6th September 1894, respectively.

2. Provision is made in the programme as follows :—

	Rs.
1. Irrigation works	3,67,910
2. Forest fencing works	28,880
3. Road works, (*a*) breaking and stacking metal and storing gravel along the sides of the existing roads	23,21,950
4. Road works, (*b*) new roads	6,75,750
5. Miscellaneous works (improvements of water-supply, village-site, &c.)	28,945
6. Works to be carried out by the aid of State loans	65,000
Total approximate estimated cost ...	34,88,435

3. The works are calculated to afford employment for a period of three months to 465,123 persons, or 24 per cent. of the total population of the district according to the census of 1891. The proportion of the population for whom provision is made in each taluk for three months is more than 20 per cent.

I would repeat my remarks in my last year's letter * that the amount of road work shown is for breaking and stacking material on the road side only ; that it is, however, a most completely wasteful and foolish policy to collect material, and not, at the same time, to spread it and thoroughly finish the road ; and that if this course is laid down and carried out, the amount of work available on the roads may be increased by 75 per cent.

* Dated 7th June 1894, Reference on No. 1083–B and G.

4. It is necessary to have estimates ready to provide labour for 5 per cent. (98,100) for three months. This amounts, at the rate of Rs. 7–8–0 for three months per cooly, to Rs. 7,35,750. Estimates are only ready for Rs. 4,79,350, leaving a deficiency in the whole district of Rs. 2,56,400, of which the following are the talukwar details :—

Taluk.	Amount of estimates that ought to be ready in order to provide employment for 5 per cent. of population for three months.	Amount of estimates ready.	Amount for which estimates have yet to be got ready.	Remarks.
1	2	3	4	5
	RS.	RS.	RS.	
Salem	1,56,375	3,50,315	..	Rs. 1,93,940 in excess of minimum requirements.
Atúr	68,625	3,100	65,525	
Námakkal	1,12,500	4,300	1,08,200	
Tiruchengódu	92,375	11,085	82,290	
Hosúr	58,500	9,355	49,145	
Dharmapuri	66,750	3,630	63,120	
Krishnagiri	57,000	61,440	..	Rs. 4,440 in excess of minimum requirements.
Tiruppattúr	70,875	9,445	61,430	
Uttangarai	51,750	26,680	25,070	
Total ..	7,35,750	4,79,350	2,56,400	

In regard to the simple irrigation works in the Atúr taluk which can be carried out with the ordinary staff, the Tahsildar says that estimates will be ready in a fortnight after notice. He and the other Tahsildars have been directed to have estimates prepared as early as possible for all irrigation works, as well as drinking-water supply and other works mentioned in their programmes.

5. The irrigation works entered in the statement received from the Executive Engineer and the road works entered in the Local Fund Engineer's statement * are classed under "professional agency" works in the statement A herewith submitted.

* Received through the President, District Board.

6. In this programme ample provision is made for minor irrigation works in all the taluks.

7. The District Forest-officer, who submitted the list of forest fencing works, says that the works have been sanctioned by the Conservator of Forests.

8. In regard to the five additional irrigation projects mentioned at the end of statement A, the Board has, in paragraph 3 of its order, dated 2nd July 1894, No. 265 (R. S., L. R. and Agri.), stated that the Chief Engineer for Irrigation reports that none of them can be made available as relief works within a reasonable time, and that only two of the five works—Krishnagiri reservoir (Rs. 30,00,000) and Gudamalai project (Rs. 3,50,000)—are likely to be remunerative and that these two cannot be investigated without a special project division.

RESOLUTION—dated 4th May 1895, No. 110.

The abstract of the programme of famine relief works for 1895–96 received from the Collector of Salem will be submitted for the information of Government.

2. The general character of the programme has been carefully summarised by the Collector in his letter read above and calls for no remarks from the Board.

3. The total number of irrigation works under the Public Works Department is given in column 3 of form B as 12, but in columns 8 and 10 of the same form the number is shown as 13. The discrepancy should be explained.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
„ Collector of Salem.

Exd. T. K. Narayana Aiyangar.

APPENDIX.

Famine Relief Works for 1895-96.—Reviewing the programme of—received from the Collector of Salem.

PROCEEDINGS OF THE BOARD OF REVENUE

(Revenue Settlement, Land Records and Agriculture).

Read—the following letter from G. STOKES, Esq., Collector of Salem, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 31st March 1895, No. 1243 :—

I have the honour to submit, herewith, the programme of famine relief works for 1895-96, prepared in the forms prescribed in B. P., No. 411, dated 7th June 1892, as modified in B. P., Nos. 502 and 360, dated 16th July 1892 and 6th September 1894, respectively.

2. Provision is made in the programme as follows :—

	Rs.
1. Irrigation works	3,67,910
2. Forest fencing works	28,880
3. Road works, (*a*) breaking and stacking metal and storing gravel along the sides of the existing roads	23,21,950
4. Road works, (*b*) new roads	6,75,750
5. Miscellaneous works (improvements of water-supply, village-site, &c.)	28,945
6. Works to be carried out by the aid of State loans	65,000
Total approximate estimated cost ...	34,88,435

3. The works are calculated to afford employment for a period of three months to 465,123 persons, or 24 per cent. of the total population of the district according to the census of 1891. The proportion of the population for whom provision is made in each taluk for three months is more than 20 per cent.

I would repeat my remarks in my last year's letter * that the amount of road work shown is for breaking and stacking material on the road side only; that it is, however, a most completely wasteful and foolish policy to collect material, and not, at the same time, to spread it and thoroughly finish the road; and that if this course is laid down and carried out, the amount of work available on the roads may be increased by 75 per cent.

* Dated 7th June 1894, Reference on No. 1083-B and G.

4. It is necessary to have estimates ready to provide labour for 5 per cent. (98,100) for three months. This amounts, at the rate of Rs. 7-8-0 for three months per cooly, to Rs. 7,35,750. Estimates are only ready for Rs. 4,79,350, leaving a deficiency in the whole district of Rs. 2,56,400, of which the following are the talukwar details :—

Taluk.	Amount of estimates that ought to be ready in order to provide employment for 5 per cent. of population for three months.	Amount of estimates ready.	Amount for which estimates have yet to be got ready.	Remarks.
1	2	3	4	5
	Rs.	Rs.	Rs.	
Salem	1,56,375	3,50,315	..	Rs. 1,93,940 in excess of minimum requirements.
Atúr	68,625	3,100	65,525	
Námakkal	1,12,500	4,300	1,08,200	
Tiruchengódu	93,375	11,085	82,290	
Hosúr	58,500	9,355	49,145	
Dharmapuri	66,750	3,630	63,120	
Krishnagiri	57,000	61,440	..	Rs. 4,440 in excess of minimum requirements.
Tiruppattúr	70,875	9,445	61,430	
Uttangarai	51,750	26,680	25,070	
Total ..	7,35,750	4,79,350	2,56,400	

In regard to the simple irrigation works in the Atúr taluk which can be carried out with the ordinary staff, the Tahsildar says that estimates will be ready in a fortnight after notice. He and the other Tahsildars have been directed to have estimates prepared as early as possible for all irrigation works, as well as drinking-water supply and other works mentioned in their programmes.

5. The irrigation works entered in the statement received from the Executive Engineer and the road works entered in the Local Fund Engineer's statement * are classed under "professional agency" works in the statement A herewith submitted.

* Received through the President, District Board.

6. In this programme ample provision is made for minor irrigation works in all the taluks.

7. The District Forest-officer, who submitted the list of forest fencing works, says that the works have been sanctioned by the Conservator of Forests.

8. In regard to the five additional irrigation projects mentioned at the end of statement A, the Board has, in paragraph 3 of its order, dated 2nd July 1894, No. 265 (R. S., L. R. and Agri.), stated that the Chief Engineer for Irrigation reports that none of them can be made available as relief works within a reasonable time, and that only two of the five works—Krishnagiri reservoir (Rs. 30,00,000) and Gudamalai project (Rs. 3,50,000)—are likely to be remunerative and that these two cannot be investigated without a special project division.

RESOLUTION—dated 4th May 1895, No. 110.

The abstract of the programme of famine relief works for 1895–96 received from the Collector of Salem will be submitted for the information of Government.

2. The general character of the programme has been carefully summarised by the Collector in his letter read above and calls for no remarks from the Board.

3. The total number of irrigation works under the Public Works Department is given in column 3 of form B as 12, but in columns 8 and 10 of the same form the number is shown as 13. The discrepancy should be explained.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
„ Collector of Salem.

Exd. T. K. Narayana Aiyangar.
