Proceedings of the Court of Wards, dated 9th May 1895, Mis. No. 876.

Read—endorsement of Government, Revenue Department, dated 26th April 1895, No. 1674.

Resolution—dated 9th May 1895, Mis. No. 876.

The question now referred to the Court by Government was recently raised by the Collector of Vizagapatam, and the Court ordered that the Superintending Engineer should be asked to arrange for advice being given by the Executive Engineer, if this could be done without detriment to the Public service. It was understood that under section 130-1 of chapter I of the Government of India Public Works Code this advice would be given *gratis*.

2. From the papers now forwarded by Government it appears that the scrutiny of estimates will be conducted in the office of the Superintending Engineer and that for this purpose extra establishment must be entertained. In these circumstances the Court is prepared to accede to the application of the rules laid down in G.O. No. 1137 W., dated 29th April 1889.

Enclosures.

DOWLAISHWERAM, 12th April 1895.

SIR,

I have the honour to inform you that
Estimates for works in Estates under the control of the
Court of Wards are being sent to me by Collectors for
Scrutiny

2. This procedure is quite new and on receipt of
one of these estimates from the Collector Godavari, I
requested to know the authority under which I could be
asked to scrutinise the Estimate, also whether the Court
of Wards was prepared to pay the percentage charged for
the scrutiny of Local Fund Estimates

3. In reply I was referred to the P.W. Code Vol. I
Chap. I article 120. where it is laid down that Estates
under the management of the Court of Wards are entitled
to the gratuitous services of Officers of the Public Works
Department

Department when these can be given without detriment to the Public Service. The Local Government has however to decide whether this condition is fulfilled, also to what officer application for assistance should be made.

4. There are in this circle 9 Estates

Gajjam Division.

1. Surangi.

2. Pedakimidi

Vizagapatam Division

3. Chidikada.

4. Siripuram.

5. Chipurupalli

6. Appikonda

7. Belgam

8. Kumpam.

Godavari Eastern Division.

9. Pithapuram.

under the management

of the Court of Wards

as entered in the

margin. Although

I have no means of

forming an idea of

the number of estimates

which are likely to be

sent for scrutiny, it

is I think a fair

presumption that

the work to be undertaken would require the appointment of an extra Draftsman especially when it is remembered that the Estimates are nearly certain to be sent up in a very imperfect shape.

5.

If the scrutiny was undertaken by

Executive Engineers the only Division in which

the

the present Establishment would have to be increased is the Vizagapatam Division.

6. It would I think be the best arrangement for all the Estimates to be sent to the Superintending Engineer. This will entail a very considerable amount of extra work in my office, and I think there should be a percentage charge as in the case of Local Fund Estimates.

I have the honor to be,
Sir,

Your most obt. servt.

Remarks by the Honorable Mr. J. Grose on draft
order regarding the rules for the scrutiny of L. & S. Estimates.

Read the following:-

FOR ORDERS. with reference to the
Hon. Mr. Grose's suggestion
that the scope of the
order be limited to the
Circle, or a further reference
made to the Court of Wards.

The hon. Mr. Grose should see
this first. I should be glad to
know whether he accepts the
view of the C. E. toh. appears
to me to be sound.

W

I accept the view of the
C.E. If the Court goes as
proposed for private properties
for the same it is my right that

2. The matter is not of
much practical importance
because at present the
majority of cases affected
by the order occur in this
circle, but as a matter
of principle I think the
rule should be universal;
there is no reason why
private properties should
obtain without payment
assistance which public
bodies such as district

Boards, have to pay for.

3. It may be said in general terms that work of this kind can rarely if ever be done, by the limited establishments of the P. W. Dept., without extra assistance, or detrimental to their regular duties.

 application or as applying only
 to the Northern Division on the
 equal ground that the work
 must be undertaken in the

 assumes that if it can be

 think that a proviso to this
 effect ^{shd} may be inserted in the

 asked whether they are
