GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

Proceedings of the Board of Revenue (Land Revenue), dated 20th May 1895,
Mis. No. 2541.

Read—the following letter from K. C. MANAVEDAN RAJA, Esq., Collector
of Nellore, to the Secretary to the Commissioners of Land Revenue, dated
1st May 1895, No. 1141/Acc.

In forwarding herewith, in original, letter from the Superintending Engineer, II
Circle, dated 28th April 1895, No. 76 N.L., with plans and estimate countersigned
by me for constructing a new treasury building at Nellore at a cost of Rs. 13,300, I
have the honour to request that the Board will be pleased to forward the same to
Government for sanction.

Resolution—dated 20th May 1895, Mis No. 2541.

Submitted for the sanction of Government with reference to G.O., dated 4th
May 1894, No. 1779, Revenue.

(True Copy and Extract.)

(Signed) R. C. C. CARR,
Acting Secretary.

Mis. No. 2394, Revenue.

Approved and transferred to the Public Works Department.

Ootacamund,
14th June 1895.

(Signed) G. S. FORBES,
Acting Secretary to Government.

Note by the Chief Engineer, Public Works Department.

The foundations are proposed to be laid partly with concrete and partly with
laterite masonry, but the undersigned considers that they should be of concrete
throughout to ground level and be made two feet broader than the masonry imme-
diately above. By this arrangement a saving of Rs. 380 will be effected.

4th July 1895.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

ORDER—dated 11th July 1895, No. 1702 W., Public Works.

The estimate, amounting to Rs. 12,920, as altered by the Chief Engineer, Public
Works Department, for constructing a new treasury building at Nellore is sanctioned,
and the amount is appropriated from the Provincial reserve.

2. Attention is drawn to the Chief Engineer's note recorded above.

3. This sanction has been registered as Provincial No. 42 W. of 1895-96, and classified as Civil Buildings, Original works.

(True Extract.)

Executive Engineer's Office
Mellor Division
8th June 1893.

From

C. A. D. Marjotihank's Esquire,
Executive Engineer of Mellor.

To

The Collector

Sir

Mellor.

With reference to your No 2085 dated
17th May 1893 I have the honor to inform
you that I have directed the Head Quarter
Sub Division Officer to make a large scale
survey of the open ground near your
Catchery in order to ascertain exactly
the extent of ground at our disposal for
a suitable site for the Treasury room
alluded to the design will depend on
this.

2. I request you will be good enough
to inform me whether I am correct in
assuming that the following provision
includes all that is necessary in connection
with the proposed Treasury.

(1) The new Treasury to consist of 2
rooms. The Treasury room proper. A room
for the Cash Keeper and his establishment
of 8 persons.

3
Final No 4579

Ref No 2591 of 1893

Nellore, Collector's Office
Dated 15th September 1893.

From

C. D. Madhavan Esquire,

Collector of

I

The Executive Engineer,
Nellore.

Sir,

With reference to your letter No 181 dated 8th June 1893 I have the honor to state that the following provision is necessary in connection with the proposed Treasury building -

(a) The new Treasury to consist of 2 rooms - the strong room for storage of the bulk of money and stamps under Double Locks and the other for the Cash Keeper and his establishment containing 14 men in all.

(b) The dimensions of the strong room should be at least double of what they are now in order to accommodate.

- 1 Treasurer
- 4 Thropps
- 3 Accountants
- 4 Gollabs
- 1 Attender 18x20'
- 1 Mashtaji

14

- 1 wooden chest to hold silver worth Rs 10,00,000
- 2 " chests each to hold silver worth Rs 5,00,000
- 2 " chests each to hold Copper worth Rs 10,000
- 1 " chest for Court's sealed packets of jewels etc

4
Total 445800

(2) The Treasury room to be at least 50 ft.
larger superficially. The Cash Keepers room
to be at least as large.

(3) The Cashiers room to be provided with
a bank Counter where money can be paid
out.

(4) A Verandah all round the building

I personally Consulted the Treasury
Deputy Collector about the requirements
to be provided for on the 6th, but I may
have forgotten to note everything; hence
my reference to you.

I have the honor to be
Sir

Yours most obedient Servant

(Signed) C. H. D. Majori Banks

Executive Engineer

3 wooden almirahs for Court Fee, Court Copy
and Non-judicial Stamps.
3 " " for ordinary, Serdar postals
and telegraph Stamps.

and to provide sufficient room for inspecting
Officers to sit inside and make inspection.

(C) In the Cash Keepers room, all permittees
(there sometimes exceeding Rs 10,00,000 at a
time) are packed up and all Stamp boxes
and Cash chests received from outside
are opened. Thus I think that the
dimensions of this room should be one
and half times its present dimensions.

(d) The floor inside the Treasury and
that in the front Verandah should be
paved with strong stone slabs.

2 - As I heard that the Treasury building
at Cuddapah was so constructed as to
provide all the above accommodation,
I obtained plans thereof which are
herewith sent for your inspection and
return.

3 - I request that you will make
such a design as to include all that is

42x20

These plans
should be
obtained, as
probably with
some modifications
they will suit
the present case
W.C.P.

is required, taking into account
the site available near the Cutchery.

I have the honor to be
sir

27/3

Certificate

This is to Certify that I Consider the
Muzur Treasury, Nellore, is sufficiently strong
to be used for storing treasure if it is vigilantly
guarded. The strong room is not open to ready
inspection except on one side, nor is it large
enough to allow of inspecting officers to move
about freely during inspection.

A new Treasury is I think wanted and
an application was made last year by the
Collector for plans and estimates but as the
precious sanction of Government is needed
for the preparation of such plans and
estimates, no steps have been taken towards
their preparation.

(Signed) C. H. D. Marjoribanks

5. Ex. Engnr's Certificate of 9-3-94.

Noted Correspondence with
the District Engineer relating
to the insufficiency of the
present Treasury building
and the necessity for a new
Treasury, retaining the old
one for keeping Stationery.

I have the honor to request that the Board
will be pleased to obtain the orders of
Government for the preparation of survey
plans &c. in the Department of Public
Works.

The present Treasury was originally
a record-room. It is divided into two
compartments by a set of rails about 7
feet high which do not reach the roof,
the space above them being about 8 feet.

Pls. 2
3507/84
3788/85
4299/85

1894
REVENUE DEPARTMENT.
Enclosure No. 6
To Current No. 2591

Money has been wasted in making these rails close and of strong iron, while they are quite useless and might as well have been made of jungle wood.

The smaller of the 2 compartments is what is called the Vault or strong room, where the treasure and stamps under Double Locks are secured.

It is very small and, as the Engineer has stated, in his Certificate dated 9th March 1894, is not large enough to allow of inspecting Officers to move about freely during inspection. The inconvenience is specially found now when large balances are being concentrated as the "Currency Charter". The other compartment is occupied by the Treasurer and his Establishment, the Treasury Officer sitting in another building unconnected with the Treasury.

3. The large sum of Rupees 42,775 was recently spent in building a block for the Collector's Office and I cannot

cannot conceive why a Treasury was ^{included} not in it. The building it now will of course cost more, but it is imperatively required.

I have the honor to be
Sir

Your most obedient servant

NOTE BY TECHNICAL SECTION.

Name of Work Constructing a new Treasury building at Bellary.

Amount of Estimate, Rs. 13,300

PARTICULARS OF ESTIMATE.

Main Building	<u>Treasury</u>	Rs.	<u>12,450</u>
	<u>Counter</u>	"	<u>250</u>
Subsidiary Buildings		"	
	<u>Running & rebuilding</u>	<u>am.</u>	<u>600</u>
	<u>2 paved walk</u>		
Contingencies	<u>2 1/2% (322)</u>	"	<u>..</u>
Petty Supervision		"	<u>..</u>
Land compensation		"	<u>..</u>

Total Rupees ... 13,300

PARTICULARS OF CONSTRUCTION.

Surface soil gravel mixed with earth.
Sub soil rocky 5 feet below.
Foundations are proposed to be laid 5 feet deep, the lower 2 feet to be laid with concrete & the upper 3 feet in two footings of 18" each built with latenti in chunnam.
Basement is to be raised 2 feet & built of latenti in chunnam.
Walls of the Treasury & Office are to be raised 18 feet & that of the veranda 10 feet & built with latenti in chunnam with flat & segmental arch, with iron rods.

The interior of the building is to be plastered with 2 coats of chunnam & the exterior painted.

Flooring is to be of 2" Cuddalore slabs laid over 4" of concrete & painted.

Roofing is to be tiled with bricks on edge. It is complete & supported on teak beams & joists.

Doors and Windows are to be of the description of those noted in the estimate & painted with 2 coats of Cansons oak paint.

Roof timbers are to be of teakwood & painted with 2 coats of zinc white paint.

Scantlings are correct.

Rates a few of the rates are in excess of the Divisional schedule, but details have been submitted for them.

The plinth area of the main building is 5456 square feet, and the cost per square foot will be Rs. 2-9-0.

The plans and estimates have been countersigned by the Collector of the District and approved in the Revenue Dept. Department.

REMARKS.

This estimate has been framed with reference to G.O. No. 1244 W dated 19th May 1894 & provide for constructing a new Treasury building at Bellary.

The accommodation proposed for the Treasury room is stated to be double the area of the existing room, viz. (35' x 20') = 700 sq ft against 360 sq ft, & that for the clerks to 50 sq ft greater, (63' x 20') = 1260 sq ft against 840 sq ft. Provision has been made for an arched verandah 10 feet wide around the building, in order to shelter the police guard in bad weather, also for a wooden counter, running the breadth of the room, across the door a space of 9'0" x 20' for the

the shop to make payments & to keep out the public for the Treasury room at a lump sum of Rs 250.

The compound wall to the east of the proposed building is to be dismantled & rebuilt for a lump sum of Rs 600.

The foundations are proposed to be laid partly with concrete & partly brick masonry, if concrete be substituted for masonry level the saving will be Rs 380. with width of concrete, two feet wider than the masonry above.
