GOVERNMENT OF MADRAS.

REVENUE DEPARTMENT.

READ—the following Resolution from the Government of India, in the Department of Revenue and Agriculture, dated Simla, the 23rd May 1895, No. 15 —52–6 :—

Read—the following papers :—

Despatch to Her Majesty's Secretary of State for India, No. 7, General, dated 30th January 1895.

Despatch from Her Majesty's Secretary of State for India, No. 28, Revenue, dated 14th March 1895.

Financial Department Notification No. 2171-Ex., dated 11th May 1895, appointing Mr. J. E. O'Conor, C.I.E., to be Director-General of Statistics, retaining *ex-officio* his appointment of Assistant Secretary to the Government of India in the Finance and Commerce Department.

Resolution—

One of the most important of the functions assigned to the Department of Revenue and Agriculture in the despatch from the Secretary of State, No. 55, Revenue, dated 16th June 1881, was "the more complete and systematic ascertaining and rendering available of the statistics of vital, agricultural and economic facts for every part of India, in order that Government and its officers may always be in possession of an adequate knowledge of the natural condition of the country, its population and its resources."

2. During the last fourteen years the land-record system has been steadily extended and improved, and other subjects, not directly connected with the land, have received attention; so that the body of statistics connected with matters under the control of the Department of Revenue and Agriculture which annually reaches the Government of India, and through them the Secretary of State, is now fairly complete for most of the provinces of India. It has, however, long been felt that the disconnected manner in which these statistics are at present compiled and published seriously detracts from their value, and that their intelligent examination, collation and discussion is necessary in order to secure uniformity and to render them as useful as they might and should be.

3. It has therefore been decided, with the approval of the Secretary of State, to place the statistics with which the Department of Revenue and Agriculture is concerned under the control of an officer skilled in such matters, who will deal with them continuously upon a uniform plan, and will collate them and publish the results in a properly digested form. The Department of Finance and Commerce already so deals, in its Statistical Branch, with a large body of periodical returns relating to matters many of which are more or less intimately connected with the material collected by the Department of Revenue and Agriculture. This branch will now be strengthened and expended by the transfer to it of the statistical establishment hitherto entertained by the Department of Revenue and Agriculture, and will then form a statistical bureau which will deal with the material collected by the two Departments of Finance and Commerce and of Revenue and Agriculture, and eventually, it is hoped, with that collected by the Home Department also.

4. The new bureau will be presided over by an officer under the title of Director-General of Statistics. In this capacity he will be, not a member of the Secretariat staff, but an independent officer who will publish his compilations and reviews in his own name and on his own responsibility; though he will deal with the statistics belonging to each department in communication with and under the general direction and control of that department. By the notification mentioned in the preamble, Mr. J. E. O'Conor, C.I.E., Assistant Secretary to the Government of India in the

Department of Finance and Commerce, has been appointed to be the first Director-General of Statistics. He is an officer of the Enrolled List of that Department and will retain his present appointment *ex-officio*: he and his establishment will therefore be officially controlled by that Department.

5. In future the following returns should be forwarded to the Director-General of Statistics instead of to the Department of Revenue and Agriculture:—

(1) Annual returns of agricultural statistics.
(2) Annual returns of inland trade.
(3) Quarterly returns of inland trade.
(4) Quinquennial returns of crop outturns.
(5) Monthly statement of imports of wheat, cotton, linseed and indigo into the port towns of Calcutta, Bombay and Karachi.
(6) Forecasts of cultivation and of outturn of crops.
(7) Returns showing the state of cultivation of tea, coffee and cinchona; and
(8) All other tabular statements that are now furnished periodically to the Department of Revenue and Agriculture, such as statements of the financial results of irrigation operations, statement of irrigation operations in the several provinces, returns of canal traffic, and statements of additions to the open mileage of railways.

The weekly weather and crop reports will continue to be sent to the Department of Revenue and Agriculture as heretofore. But from the date of receipt of this Resolution the other returns specified above should be addressed to the Director-General of Statistics, and all correspondence regarding them should be conducted with him direct.

Order.—Ordered that a copy of the above Resolution be forwarded to all Local Governments and Administrations for information and guidance, to the Departments of the Government of India named in the margin and the Foreign Department for communication to Political officers concerned.

Ordered also that a copy be forwarded to the Commissioner in Sind and to the officers marginally named for information and guidance.
