

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following paper :—

From A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaiswaram, 4th March 1895, No. 821 Gl.

I have the honour to submit the usual proposition statement of temporary establishment required in this Circle for 1895-96 for your approval and sanction of Government.

2. The temporary establishment for which renewed sanction is now solicited has already been covered by sanctions to end of the current year as per Government orders quoted in the statement with the exception of the following.

3. *One clerk on Rs. 20 in Superintending Engineer's office.*—Formerly there were two estate clerks on Rs. 20 and Rs. 30, respectively. The clerk on Rs. 20 was dispensed with after the Parlákimedi estate was handed over to the proprietor—*vide* G.O. No. 1079 W., dated 18th April 1891. The clerk on Rs. 30 was disallowed in G.O. No. 913 W., dated 7th April 1893, as several of the large estates were handed over to the proprietors. Since these reductions the clerks have generally to come to office in the early morning, as well as on Sundays and holidays, to keep the work out of arrears. The budget estimate of estate works for 1895-96 is Rs. 19,434 and I think that the appointment proposed is very necessary.

4. *Draftsman in the Gódávri Western Division office.*—The Executive Engineer states that a draftsman on Rs. 25 is required for six months to enter on the new village maps, which are now being received from the Survey Department, the names of canals, channels, drains and other details. There will probably be nearly 5,000 sheets of maps for the delta. The village maps are constantly used by the Executive Engineer for reference, and it is very important that as much information as is at present available regarding the irrigation works should be entered on them. This work cannot be done by the present staff of draftsmen.

5. The reason for the increase of pay to sweepers in the Gódávri Western division is explained in the remark column of the statement.

6. The Executive Engineer, Rushikulya division, reports that an hospital assistant on Gulleri works is not necessary. He was of very little use as the Uriya laborers have no confidence in him and do not take medicine except from one of their own people. The Executive Engineer considers it needless to continue the services of the hospital assistant, as Sub-Engineer Mr. Venkatarreddy can administer all the medicines necessary. The establishment is therefore omitted in the statement.

7. *Clerk on Rs. 20 for Suradá Sub-division, Rushikulya division.*—The Executive Engineer states that in the Suradá scheme a monthly expenditure of Rs. 10,000 is being incurred. Practically everything is carried out by piecework, and the clerical labour involved is very great. The Sub-divisional officer has one clerk, 4th class, 3rd grade, and to assist him, one of the overseer's clerks has hitherto been deputed. This clerk will have to join his proper duties under a newly appointed overseer single handed. The Sub-divisional clerk will most certainly be unable to keep pace with the work. The assistant clerk on Rs. 20 is therefore absolutely necessary.

8. *One peon on Rs. 6 for Suradá Sub-division, Rushikulya division.*—The Sub-division office, Suradá, has only one peon. This man must be constantly with him on the work. The Executive Engineer considers it necessary, and I agree with him, that the Sub-divisional officer should be allowed another peon to cash cheques at the Treasury and to assist in the office.

From the Examiner, Public Works Accounts, dated 23rd March 1895, No. 1127 D./E.

ORDER—dated 2nd April 1895, No. 810 W., Public Works.

The temporary establishment required for the I Circle during 1895-96, as detailed in the statement submitted by the Superintending Engineer with his letter recorded above, is sanctioned with the following remarks :—

(a) An additional clerk on Rs. 20 per mensem in the Superintending Engineer's office is stated to be necessary on account of work in Wards' estates. The provision will be allowed during 1895-96 under the explanation afforded.

(b) The Górávari Western division having been split up into two divisions and separate divisional office establishments having been provided for each, the proposed draftsman on Rs. 25 per mensem will probably not now be required. On this assumption the provision is disallowed.

(c) The extra clerk on Rs. 20 and a peon on Rs. 6 per mensem for the Suradá sub-division of the Rushikulya division may stand; but before the end of the official year the necessity for this additional establishment will be carefully reviewed by the Superintending Engineer, and if it is then found possible to dispense with it the men should be given the usual notice.

2. If the hospital assistant employed on Gulleri works is not required, his services should be replaced at the disposal of the Surgeon-General with the Government of Madras.

3. This sanction has been registered as Provincial No. 2 W. of 1895-96 and classified as establishment, temporary.

READ—the following paper :—

From A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishweram, 4th May 1895, No. 93 V.Z.

With reference to paragraph 3 of G.O., No. 200 W., dated the 25th January 1895, and G.O., No. 781 W., dated the 28th March 1895, I have the honour to submit herewith for sanction two proposition statements drawn up in the prescribed forms for the executive and office establishments required for the Vizagapatam division in consequence of the changes ordered in the above Government orders.

2. It will be seen from the statements that the additional establishment asked for embraces one overseer and two clerks, V class, I grade.

3. The overseer is required to work in the Koraput section under the Vizianagram Sub-Division officer. Of the two clerks one is required for the office of the Executive Engineer, who has often represented that his present staff cannot get through their work properly; the other clerk is required for the Vizianagram Sub-Division office where the work will be very heavy on account of the transfer of the works in the Agency tracts, which will form a part of the sub-division.

4. The establishments for detached officers and overseers being of a fluctuating character, have not been included in the proposition statement, part II.

5. I beg to add that the Agent to Governor, Vizagapatam, has telegraphed on the 21st ultimo that Mr. French was ordered to leave at once, handing over charge to an Estate overseer.

ENCLOSURES.

READ—the following paper :—

From A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief
Engineer, Public Works Department, dated Dowlaishweram, 5th June 1895,
No. 180 V.Z.

In reference to my letter No. 93 V.Z., dated 4th May 1895, I have the honour
to submit, herewith, two revised proposition statements for the executive and office
establishments required for the Vizagapatam division.

2. It will be seen from the revised statement for executive staff that a ghât
superintendent (temporary) on Rs. 60 per mensem is applied for instead of the upper
subordinate asked for in the original statement already submitted. The reason for
this is that upper subordinates, when posted to the feverish parts of the Vizagapatam
district, invariably fall sick and apply for a transfer. A man who is thoroughly
acclimatised is required and the Executive Engineer and Mr. French both recommend
a Mr. Fletcher for the post of ghât superintendent. He has been employed for
several years in Jeypore and I think myself he would prove more useful than an
overseer accustomed to the plains. Mr. Fletcher would have to live at Pottinghi.

3. The increase of establishment asked for in the revised statement for office
establishment is on account of three peons. One of them is required for the Vizia-
nagram sub-division and the other two for ghât superintendent. The Sub-division
officer has a large amount of travelling in the Agency tracts and his lascars are often
down with fever, so that an extra lascar appears necessary.

4. The pay of the two temporary peons required for the ghât superintendent is put
down at Rs. 9 each, as they are to be employed in the unhealthy parts of the division —
the Agency tracts.

ENCLOSURES.

REVISED statement showing the proposed changes in the executive branch of Vizagapatam
Division, Public Works Department, I Circle.

* For ghāt superintendent.

21st JUNE 1895, No. 1522 W., PUBLIC WORKS.

ORDER—dated 21st June 1895, No. 1522 W., Public Works.

* Registered as Provincial No. 23 W. of 1895-96 and
classified as Establishment.

The proposals of the Superintending
Engineer are sanctioned.*

2. The authorized scale of upper subordinates for the Vizagapatam division will now be fixed at five permanent and two temporary. The pay of the additional temporary upper subordinate will be Rs. 60 per mensem, and in lieu of the proposed batta of one rupee a day, which is inadmissible, he will draw the rates of travelling allowance fixed by the Civil Service Regulations. He will be styled "Ghât Superintendent," will be engaged for the particular work specified, and will thus not be liable to transfer to other parts of the Presidency.

3. The statement of executive establishment submitted by the Superintending Engineer omits the temporary upper subordinate provided for Tank Execution works in the Vizagapatam division.

(True Extract.)

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

To the Superintending Engineer, I Circle.
" Examiner, Public Works Accounts.
