

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from C. H. MOUNSEY, Esq., Acting Collector of Chingleput, to the Secretary to the Commissioners of Land Revenue, dated Saidapet, 27th May 1895, Ref. on C. No. 266-Pl. :—

I have the honour to submit herewith the programme of famine relief works for 1895-96 in the forms A and C prescribed in Board's Proceedings, No. 411, dated 7th June 1892. The information necessary for the preparation of B statement has not been completely furnished by the Divisional officers, and it will be submitted as soon as the figures furnished by the Executive Engineers and Divisional officers are reconciled.

2. The programme provides labour for only 18·44 per cent. of the population, or 1·56 per cent. less than that prescribed in the Famine Code. I have asked the Divisional officers and Engineers to find more works so as to provide labour for the number prescribed in the Code and also to obtain sanction for estimates of the works.

Transferred to the Settlement Department to which the letter should have been addressed.

29th May 1895.

(Signed) R. C. C. CARR,
Acting Secretary.

RESOLUTION—dated 14th June 1895, No. 163.

The abstract of the programme of famine relief works for 1895-96, received from the Collector of Chingleput, will be submitted for the information of Government.

2. The programme contains provision for the construction of 39 new irrigation works to cost 80 lakh, and for repairs to existing works 3·25 lakh; for the construction of $20\frac{1}{2}$ miles of new roads at a cost of 2·90 lakhs, and for repairs to existing roads 8·21 lakhs; for works calculated to improve the supply of drinking water to cost 70 lakh, and for other miscellaneous works to cost 91 lakh. The last item includes a provision of Rs. 60,000 for land improvement works to be executed with the aid of State loans. The total provision amounts to Rs. 16,76,712, and the works are estimated to be sufficient to provide employment for a period of three months for 18 per cent. of the population of the district. Notwithstanding the inclusion of so great a length of new roads, the provision made is below the prescribed minimum, except in the taluk of Ponnéri; but the Collector is taking steps to amplify the programme as far as possible. Estimates are stated to be ready for works to cost Rupees 11,39,066, or 70 per cent. of the total provision.

3. *Statement A—(a).*—Columns 3 and 4 of this form should have been subdivided into "sanctioned" and "not sanctioned" as directed in paragraph 2 of B. P. No. 360, dated 6th September 1894, and the amounts of the different classes of large works should have been entered in the appropriate columns. The required information has been given by the Collector in column 2 of the form, but not clearly.

(b) The total of the approximate cost of simple irrigation works (new works and repairs) in the Saidapet taluk, as entered in the statement, is Rs. 4,354 and not Rs. 4,589. It is observed, however, that while statement A shows nineteen irrigation

works to be repaired at a cost of Rs. 3,870, statement C shows twenty such works to be repaired at a cost of Rs. 4,105. If the latter figures are correct, the total entered in statement A, namely, Rs. 4,589, is also correct. The Collector is requested to report on this point.

(c) In the Maderpak division of the Tiruvallūr taluk, a sum of Rs. 76,000 is provided for the construction of 76 miles of new roads. The situation and mileage of each road should have been separately given.

Statement C.—The total number entered in column 16 against the Tiruvallūr taluk should be 17 and not 16; again, the grand totals of columns 5 and 9 are 2,23,560 and 467 respectively and not 2,23,562 and 498. These errors have been corrected in the copy submitted to the Board. The Collector is requested to make the necessary corrections in his office copy.

4. The Board regrets to observe that, after a delay of nearly two months, the Collector has submitted only two out of the three statements prescribed and that even these have not been carefully prepared. It trusts that the Collector will take steps to see that all the statements are in future prepared with care and submitted by the prescribed date.
