No: 183/W 25 July 1895

The Suply. Engineer will
submit plans and estimates
for the proposed residence
at Palamcottah. The cost
must be limited by Rule
(1) para 17, Chapter X Vol I
P.W. Code.

2. No allotment can be
made for the proposed
building until the estimate
has been sanctioned.

3. The Govt. does not
consider the construction
of quarters at Trinopoly
to be desirable.

Letter from ^{Ly. B. Lambert Esqr} the Executive Engineer
Tinnivelly Division, No. 2097 dated 4th J
1895, to the Superintending Engineer, C. C.

I have the honor to bring to your notice
that there is no suitable house in Palamcottah available for the Executive Engineer.
2. The house the Executive Engineer
is occupied, has been let to the Local
Engineer, and there appears no chance of
being empty again for some time.

3. The house I am at present occupying
and the best available is very small,
close to the road with little or no
and was formerly occupied by Mr. H. C.
Superintendent, when he was in Palamcottah
rent is Rs 27-3-0 per mensem.

4. I feel very great inconvenience
occupying this house, my wife and
Children have no proper bed room & ac-
commodation, and there are no suitable
reception room to receive visitors.
The house is so small that many of my
papers have to be kept & stored away, and often
I cannot ask

I have to write and see any one calling officially
in a small verandah room about 7 1/2 feet x 16 feet.

In these circumstances I request that you
will kindly obtain sanction for the construction
of a residence for the Executive Engineer.
I am preparing plans and estimates, and
they are nearly ready for despatch. I have
selected a good site near the Club, and
if Government waste land, there will be
no compensation to pay.

To be able to commence the construction
and complete it at the earliest possible
date, I would ask that funds may be put at
disposal at once for the same. The building
will cost about Rs. 10,000 and could be
finished within this official year, if all
grant be given. As this is more or less
urgent case, I hope there will be no
difficulty in granting funds at the earliest
possible date.

No. 297 T.N.

Copy submitted to the Chief Engineer,
reference to this order
No. 255 L.C. dated 3rd
May 1895, for orders

2. A residence for the Executive Engineer
is also required at Trichinopoly. Being un-
able to get a house, Mr. Allen is at present
living with Mr. Smith and myself but
only do so until September.
