

Case 534.

To W

This office memo. No. 16C of 8.1.25, regarding the grant-in-aid towards the proposed Students Hostel, has been recorded by the Financial Dept. with reference to Para 3 of G.O. of 18.1.25, No. 45 Financial.

Para 3 of the latter G.O. states that the provision of $1\frac{1}{2}$ lakhs for this work will be retained in the Educational Budget pending settlement of the question as to the agency by which the work is to be executed.

The drift of the question put by the Educational Dept. which was replied to in this office by 16C of 8.1.25 was understood - If, as it now appears, the object

of the Educational Dept. was to elicit an expression of opinion from the P.W. Dept. whether a grant of public funds towards the Hostel would be

admissible under P. W.
Code rules. The answer must
apparently lie in the negative.
There is no rule in the Code
under which a grant can
be given from the P. W. Budget
towards the construction of
a building which is in-
tended principally to provide
quarters for private indi-
viduals.

The rules in Chapter VI
Vol I, paras 15 & 17 relate
to the construction of residences
for Govt. officials.

If the grant in aid
be transferred to the P. W.
Budget & made by this
Dept. the Govt. is certain
to challenge it under
para 3, Chapter II, Vol II,
& the sanction of the
G. of I. will have to be
applied for.

Even if the Comy.
Architect prepares the
plans & estimates for the
buildings, it would
apparently be better
for the Govt. grant to remain
in the Educational Budget
& to be made over direct

from thence to the Hostel
Committee, who might arrange
for the construction of the work
by their own agency. The
expenditure would then not
come into the P. W. account,
& would not be subject to
objection under P. W. rules.

For orders.

READ—the following papers:—

From the Executive Engineer, Kistna Eastern Division, to the Superintending Engineer, II. Circle, dated 10th November 1894, No. 3731.

With reference to your No. 1226 K.S., dated 31st August 1894, I have the honour to forward southern Sub-division officer's No. 2213, dated 20th October 1894, with its enclosures, including a complete report on Mr. Maiden's bungalow at Bandar Fort, and an estimate for putting it in repair.

I strongly recommend that this bungalow should be purchased as a residence for the Port officer, for, it will make a far better residence than could be built for the same money and owing to the difficulties already pointed out in finding a suitable site, it is practically impossible to build a habitable bungalow at a less cost than is now proposed, *i.e.*, Rs. 7,000.

As you have yourself inspected the bungalow and the various sites available for a new one, I need not go into further details, but I may point out that the fact of the bungalow having stood through the great cyclone of 1864 shows that it must be well founded and built.

No. 2075 K.S.

Forwarded to the Chief Engineer with a strong recommendation that Mr. Maiden's home be purchased, &c., as it is the most satisfactory way in which the Port officer can be provided with a house close to his work.

5th December 1894. (Signed) W. L. C. BADDELEY, Major, R.E.,
Superintending Engineer, II. Circle.

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II. Circle, to the Chief Engineer, Public Works Department, dated Bezwada, 5th December 1894, No. 2076 K.S.

In reference to No. 2122 W., dated 24th August 1894, I have the honour to inform you that in June last I inspected the two sites proposed by Mr. Arundel for the Port officer's residence at Masulipatam.

2. The sites are—

- (1) The terraced roof of the old arsenal now used as offices for the Port officer and Sea Customs Department.
- (2) The basement of the ruined church.

An estimate for the first amounting to Rs. 11,900 was prepared sometime ago, but rejected on the ground of being too costly—*vide* G.O. (Marine) No. 423, dated 2nd December 1893, communicated to this office with G.O. No. 145 W., dated 18th January 1894. No estimate has been prepared for a building on site No. 2, as

apart from the question of cost, no suitable residence could be designed on the ruins of the old church; I may also add that on neither of the sites could a neat home-like residence be constructed, the arsenal site being especially deficient in this respect, and considering the dismal surroundings of the Masulipatam port, I think the question of providing the Port officer with a house that can be made into a cheerful looking home is one of very considerable importance, if he and his family are to keep free from sickness.

3. In the proposals I now put forward and which I strongly recommend (vide this office endorsement No. 2075 K.S., dated 5th December 1894, on letter No. 3731 of 10th November 1894, from the Executive Engineer, Kistna Eastern division) an excellent upper-storied house with a garden can be purchased and put in thorough repair for Rs. 6,860. The house stood the storm wave of 1864, and I have no hesitation in saying that it will make a satisfactory and convenient residence. As it is situated a few yards from the church, I am unable to see what advantage the latter site could have in point of healthiness; personally I think it must be inferior. I beg to be favoured with very early orders, as otherwise the allotment made in this year's budget for providing a house for the Port officer will lapse.
