PUBLIC WORKS DEPARTMENT.

Establishment.

READ—the following papers:—

From Major W. L. C. BADDELEY, R.E., Superintending Engineer, II Circle, to the Chief Engineer, Public Works Department, dated Madras, 7th January 1895, No. 2293 K.S.

I have the honour to submit, for favour of sanction of Government, a proposition statement for revision of the establishment of the Kistna Eastern division.

2. Two clerks have been applied for by the Executive Engineer, Kistna Eastern division—

One under permanent establishment,
One under temporary for six months,

and I strongly recommend that the above establishment be sanctioned as it is very necessary for the proper performance of the office work of the division.

3. The Executive Engineer's letter No. 4360 of the 22nd ultimo showing the necessity for the additional establishment is herewith sent in original for your information and favour of return.

ENCLOSURE.

From C. A. Smith, Esq., Executive Engineer, Kistna Eastern division, to the Superintending Engineer, II Circle, dated Bezvada, 22nd December 1894, No. 4360.

I have the honour to bring to your notice that the present sanctioned strength of my office establishment is quite insufficient to keep the work up to date although all the members of the office are honestly doing their best and working for more hours in the day than the recognized office hours.

2. After the amalgamation of the Gudivada division, I applied for the services of two temporary clerks on Rs. 40 and on Rs. 30 and these were sanctioned for the current year.

3. At that time I thought that with this addition the office establishment would be sufficient, but the experience of nine months shows that the work has fallen into arrears, more especially in the maintenance of the statistical registers relating to navigation, water registers, water applications and land compensation.

(1) Navigation Returns.—Before the amalgamation of the late Gudivada division, the traffic registers of the following stations had to be dealt with:—

- (1) Head of Bunder canal.
- (2) Do. Ellore do.
- (3) Kankepad lock.
- (4) Vermiki do.
- (5) Nedimole do.
- (6) Akumurru do.
- (7) West Tammileru.

After the amalgamation the following stations have been added:—

- (1) Pamurru lock.
- (2) Cowlaram do. (Polraz canal head lock).
- (3) Vingeram do.
- (4) Tadvada do.
- (5) Kamalapuram lock.
- (6) Lakshmipuram lock.
- (7) Bantumalli canal head lock.

or fourteen stations in all from which returns of up and down traffic returns are received and have to be compiled every month.

(2) *Water Registers*—A very large number of them are necessarily received daily and in order that a complete record should exist in the division office for future reference, these ought to be sorted and recorded and the non-receipt of any individual registers brought to notice.

This may perhaps appear to be an unimportant item, but the regulation of water is becoming more important every year on account of the rapid extension of irrigation, and I may say that I frequently find it necessary to refer to the past registers and it is very inconvenient if the file is incomplete.

(3) *Water Applications*.—These are being received now in hundreds at short intervals throughout the year. They are first sent on to sub-division officers for inspection and report as to whether they may be accepted or not and on their return are being entered in a register opened in the office for the purpose in which they are classed under the respective main and branch channels concerned.

The importance of maintaining a proper record of lands allowed to be cultivated is so obvious that I need not remark on it further, and I regret to say that on account of want of clerical establishment this register cannot be properly maintained.

(4) *Compensation Registers*.—I have already reported in my No. 2054, dated 25th July 1894, on the state in which this register was handed over to me from the late Gudiváda division office and applied for a clerk for four months. In reply in your No. 1017 K.S., dated 4th August 1894, you were pleased to observe that the strength of the office had recently been increased by three temporary clerks and that if more assistance was necessary the clerk of the overseer on special duty might be taken into the office.

4. I beg to point out that of the three extra clerks sanctioned, one was for Cowlaram sub-division and only two for the division office.

5. The services of the overseer's clerk in question were utilized for a time and he completed the compensation register for about three years out of seven years which had to be done and the overseer being then transferred the services of the clerk had to be dispensed with.

6. The above works are not temporary ones, but will continue to exist until the extension of irrigation and the necessary new works connected with it are completed, and I beg to point out for your consideration whether, looking to the large increase of revenue now being annually realized, the Government may not be fairly asked to provide for the small increased expenditure I am about to recommend, which is that a permanent clerk on Rs. 20 to 30 may be sanctioned in addition to the present establishment.

7. I am very much averse to calling in overseers' clerks as a rule because doing so always throws the burden of extra office work on the overseers and keep them from their more important out-door work.

8. In addition to the above I have to point out that since the receipt of your No. 1017 K.S., dated 4th August 1894, declining to sanction a temporary clerk for the sorting of the late Gudiváda records, it has not been possible to make any progress with this work and, in addition to the records handed over in April last when the divisions were amalgamated, four bandy-loads of old records have recently been received from Gudiváda, and I therefore trust that you will now recommend an additional temporary clerk on Rs. 15 for a period of at least six months for this work only as great inconvenience is being caused by the difficulty in picking out old references.

9. Besides the above there is a considerable number of Eastern division records still unsorted and, unless all the above are brought into order once for all, the difficulty of doing so will increase the longer it is delayed.

Office-note from the Examiner of Public Works Accounts, dated 23rd January 1895, No. 223 D/E.

Your office-note No. 119 C., dated 15th January 1895.

The entries in column "Present scale" of the proposal statement have been checked and found correct excepting that the services of the following have been transferred for duty to the newly formed Kistna Northern division:—

One cashier, clerk, IV class, 3rd grade.

Three peons on Rs. 8 each sanctioned in No. 3031 W., dated 22nd November 1893.

ORDER—dated 31st January 1895, No. 234 W., Public Works.

In the circumstances explained, sanction is accorded to the entertainment in the Kistna Eastern division of a permanent clerk, IV class, 3rd grade, Rs. 20 to 30, and a temporary clerk on Rs. 15 for six months.

2. Attention is drawn to the discrepancy pointed out by the Examiner in his office-note recorded above.

3. This sanction has been registered as Provincial No. 59 W. of 1894-95 and classified as Establishment.

Rates vide remarks.

The plinth area of the main building is ~~square feet~~ and the cost per square foot will be Rs. ~~_____~~

The plans and estimates have been countersigned by the Collector of the District and approved in the Revenue Dept. Department.

REMARKS.

This estimate has been framed with reference to G.O. No. 1729 W dated 12th July 1894 & provides for additions & alterations to the Deputy Tahsildar's office at Alathur in the Palghat taluk, Malabar District.

The proposal is to construct a sub jail in rear of the office & accommodate 30 prisoners in 5 wards with a Police Guard room at centre & with verandahs 6'6" wide as per plan accompanying.

The alterations proposed, in order to accommodate parties resorting to the Court & to provide additional space for clerks, are to demolish the partition walls marked A A A & to provide a new verandah on the western side 26'6" x 6'6" with the necessary door & windows in the existing end wall, as per plan.

The platform marked B.B. is to be removed in line with the first row of pillars & the windows marked C removed & inserted at places marked D & the openings built up with plan. The iron grates doors removed at E E are to be inserted at places marked F.F. leading from the Court to the Police Guard & sub jail wards.

The following rates are in vogue of the Divisional Schedule.

Cement	Rs 15-0-0 against 12-0-0
3/4" asphaltic flooring	23-0-0 - do - 22-0-0
Karimarden woodwork	1-13-0 - do - 1-12-0

data lists are submitted & the excess are chiefly due to cartage to site work.

It is submitted that tenacing the sub jail wards will render them much safer than if tiled & ceiled as now proposed. The work may therefore be designed as per Sheet E of revised type design for 18" class taluk office circulated with G.O. No. 3085 W dated 1st Dec 94 for tiled roofs on the West Coast.

In provision has been made for flooring the removed platform B.B. but a lump sum of Rs 100 has been provided in the estimate for unforeseen works.

* This is not an unforeseen work. Provision should be made. The estimate can be amended in this office.
