GOVERNMENT OF MADRAS.

FINANCIAL DEPARTMENT.

READ—the following papers:—

From W. J. H. LE FANU, Esq., C.S., Acting Superintendent of Stationery, to the Chief Secretary to Government, dated Madras, 25th July 1895, No. 1251.

I have the honour to submit the annual report on the working of the Stationery Department during the year 1894–95 with the usual statements from A to H.

2. The transactions of the year as compared with those of the previous year are detailed below:—

	1893–94.	1894–95.
	RS.	RS.
Value of stock at the beginning of the year	3,57,760	3,83,703
,, stores received	4,89,117	5,61,059

4. *Item* (1)—*Stores from the Secretary of State for India.*—The value of stores received from the Secretary of State amounted to Rs. 2,03,420, or Rs. 23,722 more than that in the previous year. This increase is chiefly due to the fall of the exchange adopted in converting the sterling value of the stores into Indian currency. There was a marked increase in the price of the writing foolscap, cream-wove, machine-made, 14 lb., received during the year. It was charged at 6*s.* 9*d.* per ream, against 3*s.* 11¼*d.* in the previous year. This has been brought to the notice of the Director-General of Stores for India. The amount of increase under this head was Rs. 12,176 as shown in the margin.

Other articles	10	13	6
	1,354	6	6

Of these, the manifolding and blue carbonic papers, brass paper-fasteners and Chubb's locks were for the first time ordered to be issued during the year. The value of the Scripture pictures and the prayer-books was charged to the Military Department, for which they were purchased.

6. *Item No.* 4—*Europe Articles received from other Presidencies.*—This item comprised the following:—

	RS.
(1) From the Superintendent of Calcutta—	
1,000 reams of royal, hand-made paper	31,917
50,000 goose quills	1,358
150 cakes emerald green	45
30 „ vermillion	14
250 „ Indian ink	49
(2) From the Superintendent, Government Central Press, Bombay—	
25 cyclostyle rollers	145
(3) From the Mathematical Instrument Office, Calcutta—	
100 rules, carpenters'	162
100 measuring tapes, 50 feet long	659
Total ..	34,349

The royal hand-made paper was received from the Superintendent of Stationery, Calcutta, from the surplus stock he had with him. This description of paper was omitted in the Home indent, dated 9th March 1894, No. 330. The goose quills were received in return for those lent to him in previous years. The colours from Calcutta and the cyclostyle rollers from Bombay were obtained to meet urgent demands. The carpenters' rules and the measuring tapes were obtained from the Mathematical Instrument Office, Calcutta, for issue to the Minor Irrigation overseers in the districts: *vide* G.O., dated 16th February 1894, No. 132, Revenue.

7. *Items* 5 *and* 6—*Country Articles purchased locally and received from other Departments.*—The articles of Indian manufacture obtained during the year are detailed below:—

9. In each year notices are published in the *Fort St. George Gazette*, inviting tenders for the supply of the locally-manufactured articles required for the Stationery Department. From the samples of the different descriptions of paper received from the above mills the best ones are selected in consultation with the Superintendent, Government Press. Supplies are demanded according to these samples.

10. The yellow-wove writing paper is used chiefly for blank books and important statements in lieu of English machine-made papers.

11. The azure-laid and cream-wove papers were purchased from the Bengal Mills under G.O., dated 16th July 1894, No. 544, to be used in the place of corresponding English writing papers, and their suitability will be separately reported on as required in the above Government Order.

12. The white blotting paper appears to be good enough and no complaint has been received. A larger supply of it will be obtained and issued in lieu of the buff blotting now received from England, which is complained of as being very thin.

13. *Ink Powder, black.*—This is an article about which complaints were generally made by officers. During the year under review it was obtained in equal proportions from two contractors, one Amritalal Ray at Calcutta and the other at Madras. Their samples were forwarded to the Chemical Examiner for his opinion, for which he received a fee of Rs. 10 paid by each tenderer. The sample produced by the latter was considered the best and the blue-black ink powder of the former the second best. The supplies received from the local contractor were found not quite good, while the powder of the other contractor was accepted by all without any complaint. It was therefore arranged to obtain the whole quantity required for the current year from

the Calcutta contractor only. He is the contractor for the supply of blue-black ink powder to the Stationery Office at Calcutta.

14. Sealing-wax, wax-cloth, tape, cotton thread and wooden articles, such as ink-stands, rulers and paper-weights, were obtained from the Jail department, and glazed brown ink-bottles from the School of Arts, as shown in the margin *. Locks were purchased from Messrs. A. Sankaralingam Achary and Brothers, as required in G.O., dated 10th October 1894, No. 842, Financial. The remaining articles were purchased from local contractors.

15. In the item of sundries are included bale ropes valued at Rs. 70. These as well as the nails valued at Rs. 18–10–0 shown under "Europe articles purchased locally" in paragraph 5 *supra* were purchased for packing up stationery for out-stations. I would suggest that such articles need not be brought on the store account, but be treated as stationery charges under contingencies.

16. The increase under Items 5 and 6,† viz., Rs. 35,305, is due to the purchase of large quantities of printing and country papers and some sundry articles such as ink, sealing-wax, tape, &c., to meet balances due to officers on the indents of 1893–94 as explained in my letter, No. 1492, dated 15th September 1894, and to the purchase, for the first time, of azure-laid and cream-wove papers and Dindigul locks.

† Country articles purchased locally and those received from other departments.

17. *Item No.* 8—*Receipts by adjustments.*—The figures shown against this item, represent the value adjusted on account of gain arising from the re-valuation of the closing balances and excess found in stock-taking, &c. The details are given in Appendix A.

18. *Substitution of Country for Europe Articles (Statement F).*—The total value of Indian articles substituted in the year amounted to Rs. 2,46,338 against Rupees 2,18,994 and the estimated savings to Rs. 1,58,700 against Rs. 49,206 in the previous year. The marginally-noted articles were also added to the list of purchases during the year and the savings thereby were Rs. 8,901. The fall in the price of printing paper from As. 2–10 to As. 2–7 and the low rate of exchange, at which the prices of the corresponding English articles were converted into Indian currency, account for the large savings. Every endeavour is being made to substitute as many articles as can possibly and advantageously be obtained in India for those now obtained from England.

19. *Issues.*—Five-hundred and twenty-four annual and 240 supplemental indents were received and complied with during the year under review against 502 and 299 respectively in 1893–94. The increase in the former is due to 21 separate indents having been received from the Registration Department under G.O., dated 2nd November 1894, No. 2628, Judicial, instead of one consolidated indent in the previous year. Appendix G. furnishes particulars of the supplemental indents received during the year. They have been complied with on the satisfactory explanation of the officers concerned, as to the necessity for the extra demand.

21. The above table represents the value of issues made *during* the respective years, irrespective of the period for which the articles were intended to be used and the comparison is therefore defective. Statement E appended to the report, gives the details of the issues to several departments according to the periods for which the articles were indented for. The subjoined table is an abstract thereof :—

22. From the above table it will be observed that there is a decrease of Rs. 2,931 under "Imperial" against increases of Rs. 43,244 and Rs. 24,491 under "Provincial" and "Other issues," respectively, showing a net increase of Rs. 64,804.

23. The decrease under "Imperial" is chiefly due to the fall in the demands from the Mysore Residency and the Meteorological Department—

—	1893–94.	1894–95.	Decrease.
	Rs.	Rs.	Rs.
Mysore Residency	1,146	526	620

24. Under "Provincial" there is a net increase of Rs. 43,244. Increases in the departments mentioned in the margin are large and amount to Rs. 47,029. In the issues to Revenue Survey Department (Land Revenue) alone there is an increase of Rs. 20,384 and this is owing to large demands for lithographic paper and chemicals, &c., for the use of the Lithographic and Photographic Branches and to the supply of a large quantity of printing paper and other articles for the use of survey schools attached to that Department. Under G.O., dated 10th May 1893, No. 959, Judicial, this department was required to supply stationery to the District and Sub-Registrars in the Presidency, who hitherto received an allowance for their stationery. This extra supply and also the supply of printing paper for printing subsidiary index forms sanctioned in G.O., dated 10th March 1894, No. 199, Financial Department, account for the increase against the Registration Department. The largest portion of increase against general administration occurs in the issues to the Board of Revenue (Land Revenue) and to the Accountant-General—

A large quantity of printing paper was demanded by the Board for printing Village Officers' Manual and forms required for the Permit establishment (Forest). The extra demand from the Accountant-General is due to the Forest Audit having been transferred to his office, and also to the supply of bill forms to taluk officials. In the Judicial Department the increase was chiefly against the departments mentioned below. The High Court was supplied with printing paper valued Rs. 2,833 on account of statistical returns, registers and Code forms, and the District Courts demanded extra supplies owing to the general increase of work :—

25. *Sales.*—The issues under this head show an excess of Rs. 4,834 over those of the previous year. This is due to the Local Fund and Special Fund establishments of the Collectorates and the estates under the Court of Wards having had larger supply of the stationery articles in the year as shown below :—

26. *Other Issues.*—This item represents adjustments, &c., which are only nominal, not properly debitable either to Imperial or Provincial. The total value amounted to Rs. 38,526 against Rs. 18,869 in 1893–94. The details are noted below :—

The value entered against "damaged articles sent to auction" includes Rs. 5,617, being the value of old and obsolete school books, and incomplete mathematical instrument boxes, ordered to be disposed of and also Rs. 8,934, being the value of old maps sent to auction under instructions from the Assistant Surveyor-General in charge Maps, Record and Issue office, Calcutta.

G.Os., Nos. 527 and 39, dated 6th July 1894, and 17th January 1895, respectively.

27. The value of the balance of stock at the end of the year under review, amounted to Rs. 3,68,896 against Rs. 3,83,703 in the previous year. The decrease is due to the elimination of the damaged and obsolete articles above referred to.

29. The consumption of the several articles in the Collectorates was as noted below :—

—		1892–93.	1893–94.	Increase.	Decrease.
Writing paper	Reams.	2,327	2,642	315	..

Twine	lb.	1,847	2,075	228	..

It will be observed that the consumption in 1893–94 exceeded that in 1892–93 in almost all the articles. The increase under writing paper is noticeable chiefly in the Collectorates of South Arcot and Cuddapah, and that under printing paper in Coimbatore, Cuddapah, Kistna, Madura and Malabar. The Collectors of Anantapur, Kistna, Malabar, Salem, Tanjore and Tinnevelly used much larger quantities of cover papers in 1893–94 than in the previous year. The consumption under the other articles has increased chiefly in the undermentioned districts :—

The consumption in the District Courts shows a decrease under almost all articles and the variations in the Sub-Courts are very small. It may, however, be remarked that in the District Courts of North Arcot, Gódávari and Trichinopoly the consumption of all articles (except fuschine and twine in the first two and wax-cloth in the third) in 1893–94 far exceeded that in the previous year. The Subordinate Judge of Negapatam and the Chief Presidency Magistrate, Egmore, used nearly double the quantities of printing paper, and the Sub-Judges of Calicut, Cocanada, Ellore, Madura, East and West Tanjore, Tellicherry, Bellary and Salem more of black-ink powder in 1893–94.

There was an increase in the consumption of printing and cartridge papers in the Forest Department in 1893–94 and this occurred chiefly in the following District offices :—

Printing Paper.
Salem.
Nellore.
Kistna.
Tinnevelly.
Cuddapah.
Chingleput.

Country and Cartridge Papers.

32. *Public Works Department.*—The following table exhibits the consumption of the several articles in the Public Works Department :—

—	Superintending Engineers, &c.				Executive Engineers.			
	1892–93.	1893–94.	Increase.	Decrease.	1892–93.	1893–94.	Increase.	Decrease.

Twine lb.	106	96	..	10	223	172	..	51

Although the increases appear to be small it may be observed that the Superintending Engineer, II Circle, and the Executive Engineers of Gódávari Western Division, Kistna Eastern Division, Bellary and South Arcot, consumed more writing paper and the Executive Engineers of South Arcot and Trichinopoly more printing paper in 1893–94, while the officers noted in the margin consumed larger quantities of country and cartridge papers. The increased consumption of black-ink powder in the undermentioned offices is also noticeable :—

Chief Engineer for Irrigation.
Executive Engineer, Kistna Eastern Division.
,, ,, Bellary.
,, ,, Chingleput.
,, ,, South Arcot.

Wax-cloth Yards.	310	291	..	19
Tape Rolls.	615	697	82	..
Twine lb.	247	250	3	..

There is on the whole a decrease of 72 reams of writing paper in the Military department as will appear from the above statement. But from the details given in statement No. 7 it will be observed that the Pay Examiner, Quartermaster-General

and the Inspector-General of Ordnance consumed much larger quantities in 1893–94. There were increases under country and cartridge papers, black-ink powder and tape in the offices noted below:—

Country and cartridge papers.—Chief Commissariat office, Rangoon, Gun Carriage Factory.

Black-ink powper.—Pay Examiner, Chief Commissariat office, Rangoon, Inspector-General of Ordnance.

Tape.—Commissary-General, Superintendent, Army Clothing, Inspector-General of Ordnance.

34. The consumption of the several articles in the other departments as per statement No. VIII is as noted hereunder:—

—	1892–93.	1893–94.	Increase.	Decrease.
Writing paper .. .. Reams.	2,709	2,017	..	690

Twine .. .. lb.	544	608	64	..

The increase under printing paper occurs chiefly in the offices of the Inspectors-General of Registration and Prisons, Government Press and Madras Survey. It may be noted that there was a fall in the consumption of writing paper in the Registration and Survey offices. The Inspector-General of Registration consumed in 1893–94 double the quantity of cover papers used in 1892–93 and there was an increased expenditure of tape * in the Survey Department.

35. *Rubber Stamps.*—The cost of the rubber stamps and ink † supplied during the year amounted to Rs. 7,216 against Rs. 4,946 in 1893–94 as detailed in statement H of which the following is an abstract:—

A large number of stamps necessary for the working of the disposal number system of keeping records, had to be supplied to Collectors owing to the introduction of that system into the taluk offices also. The District Judge of Kistna indented for stamps for all the Munsif Courts in his district, and the Director of Public Instruction for all the Assistant and Sub-Assistant Inspectors of Schools, and several officers of the Military Department, who had not indented for any stamps in the previous year, indented for them in the year under review.

It may be noted that the number of stamps indented for exceeded that in the previous year by 344. The number of indents received from each officer ranged from 2 to 11.

36. *Quills and steel pens.*—It is gratifying to report that the number of goose quills issued during the year under report has considerably decreased and that of steel pens increased as shown below, resulting in a net saving of about Rs. 2,713. A separate report on the subject is under preparation and will shortly be submitted:—

37. *Printed forms.*—Indents for printed forms for 1894–95 were received from the twelve Collectorates noted in the margin. The Collectors of Trichinopoly, Nilgiris, North Arcot, Gódávari, Kurnool and Anantapur have not forwarded their indents although they were required to do so. I have, however, since arranged with the Superintendent, Government Press, not to comply with any district indents sent to him direct, without their being scrutinized by this office. Of the above twelve districts, Vizagapatam, Kistna and Bellary were newly taken up in the year. The indents received contained 2,525 items. These were duly scrutinized and forwarded to the Government Press for supply. The saving effected thereby is estimated at Rs. 3,246 as shown in the following statement:—

Total ..	39,117	46,683	Total ..	2,72,513	3,27,010

39. The receipts of the year amounted to Rs. 46,683 and the charges to Rs. 3,27,010, exceeding those of the previous year by Rs. 7,566 and Rs. 54,497, respectively. The receipts include Rs. 13,641 credited on account of supplies made by the Calcutta Stationery office to the State railways in this Presidency. The large purchases of articles made during the year to meet urgent demands and the balances due on the indents of 1893–94, as already explained in paragraphs 5 and 16, account for the increase under Imperial charges. Rupees 8,623, being the value paid in 1894–95 for articles brought to account in 1893–94, are included in the charges, while Rs. 3,062 paid in 1895–96 for supplies received in 1894–95 are excluded. The increase under carriage of stationery and packing and despatching charges (item No. 5) under Provincial is due to the corresponding increase in the issues of stationery during the year and to the removal of the office and stores to the old High Court buildings.

40. The cash receipts under stationery and service books sold to public offices and the charges under Imperial for local purchases as entered in the above statement will be found to differ from those quoted in paragraphs 25 and 3 of this report as shown in the margin. The differences are explained below :—

From the Acting Superintendent of Stationery, Madras, dated Madras, 9th August 1895, No. 1324.

Order—dated 24th August 1895, No. 611, Financial.

The annual report on the administration of the Stationery Department for 1894–95 was received a fortnight after the due date.

2. There was a rise of Rs. 71,942 in the value of stores received, increases occurring under all heads except two, viz., *School books obtained from Messrs. Baker & Co.* and *Articles returned by officers*. The value of stores received from the Secretary of State amounted to £9,567 against £9,359 in 1893–94. This difference is accounted for by the abnormal increase (£569) in the cost of cream-wove writing paper. The fall in exchange also contributed to raise the value in Indian currency of these stores. A large increase occurred under *Europe articles purchased locally*, but this was partly due to the issue from the Stationery office, for the first time, of articles such as manifolding papers, Chubb's locks, &c. The value of *Europe articles received from the other Presidencies* was very nearly double that in 1893–94. This item was, however, principally made up of paper and goose-quills supplied from Calcutta; the former having been obtained in consequence of an omission in the Superintendent's Home indent of March 1894, and the latter representing the return of articles lent in the previous year. The Superintendent has not explained how the omission in the Home indent occurred.

The rise of Rs. 33,506 in the value of *Country articles purchased locally* and of Rs. 1,799 in that of similar articles received from other departments was due to the purchase of writing papers from the Bengal Mills in place of corresponding papers previously obtained from England and of locks manufactured at Dindigul for supply to departments, in lieu of Chubb's locks. Sundry articles were also purchased to meet balances due on indents of 1893–94. The value of papers purchased from Indian Mills rose by Rs. 18,000. The Government awaits the report on the suitability of these papers. It is noted that the question of the quality of blotting paper and ink-powder at present supplied is engaging the attention of the Superintendent. There is great room for improvement in the quality and enquiries should be instituted as to the supply of these articles in other Presidencies.

3. The saving effected by the substitution of articles of Indian for those of European manufacture is compared in the margin * with the figures of previous years. The result is very satisfactory and the Government trusts that the endeavours of the Superintendent to obtain stationery stores, where possible, in the country will further increase the saving under this head. This subject should receive close and unremitting attention from the Superintendent.

1892–93	36,400
1893–94	49,206
1894–95	1,58,700

4. The total value of issues rose by Rs. 1,12,692. Towards this, Provincial heads contributed Rs. 89,053, sales Rs. 4,834 and adjustments, Rs. 19,657 against a fall of Rs. 852 under Imperial heads. The issues made to officers for consumption during the year showed a net increase of Rs. 64,804. The variations have been explained in paragraphs 22 to 26 of the report.

From the Acting Superintendent of Stationery, Madras, dated Madras, 9th August 1895, No. 1324.

ORDER—dated 24th August 1895, No. 611, Financial.

The annual report on the administration of the Stationery Department for 1894–95 was received a fortnight after the due date.

2. There was a rise of Rs. 71,942 in the value of stores received, increases occurring under all heads except two, viz., *School books obtained from Messrs. Baker & Co.* and *Articles returned by officers*. The value of stores received from the Secretary of State amounted to £9,567 against £9,359 in 1893–94. This difference is accounted for by the abnormal increase (£569) in the cost of cream-wove writing paper. The fall in exchange also contributed to raise the value in Indian currency of these stores. A large increase occurred under *Europe articles purchased locally*, but this was partly due to the issue from the Stationery office, for the first time, of articles such as manifolding papers, Chubb's locks, &c. The value of *Europe articles received from the other Presidencies* was very nearly double that in 1893–94. This item was, however, principally made up of paper and goose-quills supplied from Calcutta; the former having been obtained in consequence of an omission in the Superintendent's Home indent of March 1894, and the latter representing the return of articles lent in the previous year. The Superintendent has not explained how the omission in the Home indent occurred.

The rise of Rs. 33,506 in the value of *Country articles purchased locally* and of Rs. 1,799 in that of similar articles received from other departments was due to the purchase of writing papers from the Bengal Mills in place of corresponding papers previously obtained from England and of locks manufactured at Dindigul for supply to departments, in lieu of Chubb's locks. Sundry articles were also purchased to meet balances due on indents of 1893–94. The value of papers purchased from Indian Mills rose by Rs. 18,000. The Government awaits the report on the suitability of these papers. It is noted that the question of the quality of blotting paper and ink-powder at present supplied is engaging the attention of the Superintendent. There is great room for improvement in the quality and enquiries should be instituted as to the supply of these articles in other Presidencies.

3. The saving effected by the substitution of articles of Indian for those of European manufacture is compared in the margin * with the figures of previous years. The result is very satisfactory and the Government trusts that the endeavours of the Superintendent to obtain stationery stores, where possible, in the country will further increase the saving under this head. This subject should receive close and unremitting attention from the Superintendent.

1892–93	36,400
1893–94	49,206
1894–95	1,58,700

4. The total value of issues rose by Rs. 1,12,692. Towards this, Provincial heads contributed Rs. 89,053, sales Rs. 4,834 and adjustments, Rs. 19,657 against a fall of Rs. 852 under Imperial heads. The issues made to officers for consumption during the year showed a net increase of Rs. 64,804. The variations have been explained in paragraphs 22 to 26 of the report.

5. The attention of the Public Works Department and the Board of Revenue will be drawn to the remarks in paragraphs 32 and 29 and 31, respectively, of the report. The Hon'ble the Judges of the High Court will be requested to be good enough to impress upon the District Judges of North Arcot, Gódávari and Trichinopoly the necessity for strict economy in the use of stationery.

6. Supplemental indents fell from 299 to 240. It is apparent, however, from form G. appended to the report that the number is still excessive. In the case of each of the offices noted in the margin, the number of such indents exceeded two. It is observed that the first four of these offices also figured unfavourably in the previous year's report in regard to this matter.

7. Excluding sales, the issue of rubber stamps compared as follows with the two previous years:—

	1892–93.	1893–94.	1894–95.
Number of stamps	919	747	1,107
Value of stamps and ink	Rs. 8,200	4,825	7,216

The number of indents from several Collectorates were very high and it appears necessary that some check should be devised to prevent these articles being needlessly ordered. The Board of Revenue will be requested to consider how this can best be effected. A scale of supply specifying the various kinds of stamps for use in district offices would probably answer the purpose. The attention of the Hon'ble the Judges of the High Court will also be drawn to the matter in view to the institution of some such check in District, Subordinate and Munsifs' Courts.

8. The decrease in the issues of goose-quills is noted. The special report on this subject should not be longer delayed.

9. Three additional districts were supplied with printed forms during the year; and the savings resulting from this system of central supply were estimated at Rs. 3,246.

The Collectors of the districts mentioned in paragraph 37 of the report should be called upon to explain the reason of the non-submission of their indents.

10. The suggestion in paragraph 15 of the report as to the treatment of the cost of articles purchased for packing purposes is approved.

11. The working of the Stationery office continued to be satisfactory.

PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—again Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), dated 3rd July 1895, Mis. No. 3409.

ABSTRACT.—Requesting the Collector of North Arcot to submit his programme of famine relief works for 1895-96, now more than three months overdue, with an explanation for the delay.

READ—also the following letter from S. H. WYNNE, Esq., Collector of North Arcot, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated Ranipet, 2nd July 1895, Dis. No. 852-Eng. :—

I have the honour to forward herewith a list of Civil Agency works suitable for famine relief in 1895-96 with the usual
No. 360, dated 6th September 1894.
No. 2180, Mis., dated 29th April 1895.
abstract statements in forms B and C. The list and the abstract statements have been prepared in accordance with the instructions issued in the Board's Proceedings noted in the margin.

2. The programme provides for the construction of forty new irrigation works and repairs to 1,007 works at a cost of 2·17 and 6·58 lakhs, respectively. The construction of 237 new roads and the repairs to 318 existing roads included in the programme have been estimated to cost 11·61 and 4·45 lakhs, respectively; 2,233 miscellaneous works including land improvements to be carried out with the aid of State loans have also been provided for at an estimated cost of 9·27 lakhs. The total provision made for the district amounts to Rs. 34,10,887—excluding the two additional works available for famine relief works in Chittoor and Gudiyáttam taluks referred to in statement A which are roughly estimated to cost Rs. 30,000 and Rs. 3,00,000 respectively—and will be sufficient to afford labour to more than 20 per cent. of the population of the district. The provision is sufficient for all the taluks except Palmanér, Wandiwash and Arcot. In the case of Palmanér and Arcot taluks, the deficiency is small. If, however, in consequence of the insufficiency of the provision made for these taluks there be coolies in need of employment, they may find work in the adjoining taluks, viz., Gudiyáttam and Wallajah, where large provision has been made. As regards Wandiwash, there is sufficient scope to enlarge the provision inasmuch as the Executive Engineer has not made provision for all the irrigation works (Public Works Department) stated to be out of repair—*vide* statement B. The Executive Engineer will be addressed to include the remaining works also in the programme for the next year. The provision for the Arni division, though slightly increased this year, is still comparatively small. This division is a jaghire having no Government irrigation works and the works that can be included in the programme consist merely of Local Fund works.

3. I regret the delay in the submission of this programme which was unavoidable since the Head Assistant Collector's report was received but six days ago.

READ—also letter from the Collector of North Arcot, dated 7th July 1895, Dis. No. 593-Eng.

ABSTRACT.—Reporting that the programme of famine relief works for 1895-96 was despatched on the 3rd instant.

Resolution—dated 2nd August 1895, No. 242.

The abstract of the programme of famine relief works for 1895–96 received from the Collector of North Arcot will be submitted for the information of Government.

2. The details of the programme have been summarized in paragraph 2 of the Collector's letter read above. The total provision made amounts as in last year to over 34 lakhs and is estimated to be sufficient to provide employment for 21·62 per cent. of the total population. The provision, however, includes the construction of 1,322¼ miles of new road which it is not clear that the District Board could maintain if constructed. Two additional works are also entered in the detailed statement A—one in Gudiyàttam to cost 3 lakhs and the other in Chittoor to cost 0·3 lakh to be utilized for famine relief in case of necessity. As regards these works, viz., Murthona project, Gudiyàttam, 3 lakhs; Iral Berab tank repair, Chittoor, 0·3 lakh, the Chief Engineer will be requested to state whether the works could be made available in event of serious famine. In three taluks the provision is slightly less than the prescribed minimum, but the Collector states that, in case of necessity, the coolies in the Palmanér and Arcot taluks may be drafted to the adjoining taluks of Gudiyáttam and Wallajah, the provision in which is in excess of the prescribed minimum. In the third taluk the Collector states that the provision could be amplified as regards repairs to irrigation works. This should be done. The provision made this year in the Arni jaghire, though slightly larger than last year, is still extremely small. The Collector is requested to state whether some provision cannot be made in this division under land improvements as in the case of the Punganùru zemindari.

3. Excluding works to be carried out with the aid of State loans, the total expenditure provided for is Rs. 30,98,325 and detailed estimates are stated to be ready for Rs. 5,90,122, or only 19·05 per cent. thereof. No estimates appear to be ready for any of the works proposed in the zemindari divisions, except for fresh water ponds in eighteen villages of the Kàlahasti division. Of the total provision for the district, the only sanctioned works are two fresh water-works in Vellore and a new irrigation work in Wallajah. This is unsatisfactory. The Collector should note the instructions in paragraph 2 of letter from the Government of India printed with Board's Proceedings, No. 360, dated 6th September 1894, and also the remarks in the appendix to Board's Proceedings, No. 178, dated 27th June 1895.

4. From statement B it is observed that, out of 15, 45 and 37 Public Works Department irrigation works out of repair in the Gudiyáttam, Wandiwash and Wallajah taluks, provision has been made for the repair of only 5, 20 and 15 works, respectively. The Collector proposes to address the Executive Engineer in regard to the works in the Wandiwash taluk He is requested to address him in regard to the works in the other taluks also and see that, in the next programme, provision is made for the repair of all the irrigation works that are in want of it. His attention will, in this connection, be invited to the Board's remarks in paragraph 3 of its Proceedings, No. 411, dated 7th June 1892, and the rule 9 embodied in paragraph 5 thereof.

5. It is satisfactory to note that all the prescribed statements have been prepared with due care and attention; there has, however, been very great delay in their submission and the Collector ascribes it to the late receipt of the return due from the Head Assistant Collector. The explanation of this officer should be obtained and submitted for the information of the Board. Steps must also be taken to ensure the punctual submission of the programme in future years.
