Submitting report
from the General
Supto P.W. Stores & Work-
shops on the
Inspection Reports
on the accounts
of P.W. Workshop
Division. —

To E.W.

Forwarded with the following

remarks:-

2. Para 2. The limit of Rs. 20 below which estimates are not necessary may be accepted. It is not understood what Superintendent means in regard to permission being accorded "for proceeding or not with the works according to the Indents subject to the party approving of them".
3. The Estimates sent in by Indenters must of course be scrutinized, and accepted or rejected according to Superintendent's own discretion.
4. Para 3. The Superintendent's suggestion may be accepted.

12/10/95

Copy of letter from J. W. H. Ellis Esquire
General Superintendent. P. W. Workshops.
to the Superintending Engineer's Office
dated 10th October 1895. N. 120 S. E. 5.

With reference to your endorsement N. 173 P. W.
dated the 16th of July 1895, on the Inspection
Report of the Accounts of the Public Works
Workshops Division, I have the honor
to report, as follows.

2. Para 5 of the Examiner's Note.

For other Departments and outsiders:
Works up to limit of Rs 20 do not in my
opinion require Estimates. Works costing
more, must be estimated for in the
Workshops, but permission should be
accorded for proceeding or not, with the
works according to the Sudder, subject to
the final approving of the Estimates.

For Departmental Works, Estimates
are sometimes furnished by the Sudder-
ders, these should be scrutinized and
accepted, if fair. But for all such
works as have no Estimates, one should

be

be prepared in the Workshops, to be a guide
for workmen and the Office, limit as above
Vij Rs 20.

3. Para 11 of the Examiner's Note.

There are really at present, no abandoned
jobs. Some jobs may result in a failure,
and extra charges on this account; which
are usually a trifle, will be debited to jobs
and to the party. No statement of work
abandoned or re-under taken, is necessary
at present; But one can be submitted for
such months, when such transactions occur.
When failures are heavy, orders will be speci-
ally obtained on the merits of each case.

4. Para 15 of the Examiner's Note.

Permanent work orders, are not
kept up at present; Each job is treated
separately and so accounted for - according
to the Indent.

5. Para 17 of the Examiner's Note.

All surplus stores of the Workshops,
have been disposed of, and the rest
transferred to the Public Works Stores.

6. Para 22 of the Examiner's Note.

Being attended to, but differences
will occur, as calculations will be
imperfect.

7. Para 24 of the Examiner's Note.

Grinder and Scraps are so little in
quantity that a sale cannot be effected.
Tenders have been called for twice, and the
result has proved a failure. No sawdust
now accumulates, as sawkings are being
purchased as required. Packing cases
are being utilized in the shops.

No 385. W.

To the Chief Engineer P. W. Depart-
ment for information with refer-
ence to G. O. No. 1609 & dated 1st
July 1895.
