No. 3292

Office of the Consulting Architect to Govt.,
Chepauk, Madras,
20th November 1895.

From

Henry Irwin, Esq., C.I.E.,

Consulting Architect

to the Government of Madras,

To

The Chief Engineer

Public Works Department

Sir,

With reference to G.O. No. 2851 u
dated the 8th Instank, I have the honor to state
that the fencing would have to be obtained from
England and I do not think that any expenditure
there can be incurred this year in the work.

I have the honor to be,

Sir,

Your most obedient Servant,

Henry Irwin

Consulting Architect to Govt.

4. I beg to enquire whether I may
accept the report of the Surgeon 3rd.
District and allow the accountant to re-
turn to duty, or whether I should send
the previous medical certificates to
the Surgeon and ask him to arrange for
a Board with a view to ascertaining whe-
ther the accountant is really physical-
ly fit for further effective service.

EXAMINER, P. W. ACCOUNTS,

Madras, 22 November 1895.

OFFICE NOTE No. 4122 B

To

W.

In this office No. 2076 A. of 12th. June 1895, it was stated that it was desirable that M.R. Ry. S.V. Balliah Naidu Accountant should appear before a Medical Board when the furlough then to be granted to him expired, and in G.O. No. 1552 W. of 26th. June 1895, it was ordered that the matter be brought forward when the furlough ended.

2. The furlough granted expires in July 1896, but the accountant, wishing to return to duty now, was ordered to appear before the Surgeon 3rd. District, Madras for examination. The Surgeon reports that he is fit to return to duty.

3. In the letter above quoted, the frequency of the applications for leave due to ill-health of this accountant was specially brought to notice and although the medical certificate which supported his last application for leave was for only six months a years furlough applied for was granted.

No 3016 W of 26th November 1895

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

From the Suptg. Engineer, II Circle, No 1718 MS of 10 November 1895

Sanction is accorded to the entertainment of an additional temporary clerk on Rs 15 per mensem, in the Kistna Northern Division, during the remaining portion of the current office year. The Suptg. Engineer will, if necessary, apply for the renewal of sanction during 1896-97.

2. This sanction has been registered as Provincial No of 1895-96, and classified as Establishment Temporary.

probable requirements by taking into consideration past experience and coming works, as any properly organized business of the kind would do. The accounts and returns are constantly behind time and much information which should be tabulated and recorded with a view to forming proper estimates for further requirements is never even asked for, because it is known that the work is too heavy already and is only carried out by constant high pressure work.

IV. I have no hesitation in saying that the pay of an extra clerk on Rs 15, which I would ask for, will, if sanction be accorded, be recouped twice over to Government in the improved administration and consequent economy in the stores of this Lt. I would ask that comparisons be made with the establishments of other Lt. where similar work is carried out and in relation to the quantity of business transactions and I think such comparison must prove that the stores establishment

to various tools and plant, the stock in charge of the Store-keeper at present amounts in value to Rs 86,830.

III. The work above described as might be expected, is not by any means thoroughly or punctually carried on by the establishment. This is not the fault of the establishment, which is very hard worked but results from the facts that the clerical establishment sanctioned is insufficient to do the work the consequence being that the Storekeeper, Mr. Harper has to spend every spare moment doing clerks' work to the detriment of his own more important duties above described. The result is constant delays in arranging for procuring articles required - insufficient inquiry regarding cost of articles, economical means of transport &c. - the frequent running out of some common articles of store in constant demand necessitating urgent orders and accompanying increased cost in freights etc. It is not too much to say that the stores here and have been living, as regards supply of stores, from hand to mouth without looking beyond present requirements or, calculating probable

With regard to

(1) The daily issue of articles to the workshops, there being no subsidiary or suspense workshop Stone, the transactions under this head are necessarily very varied and of great number and the accounting for, pricing & charging such issues to works concerned takes up nearly all the time of the one clerk sanctioned leaving the Stonekeeper to carry on the rest of the clerical work himself to the very great detriment of the supervision of receipts and issues and arrangements for despatch of articles.

The average monthly value of receipts of stones during the past year has been Rs 10,472 and of issues Rs 11,564, the latter being as explained above, made up of very numerous transactions.

(2) ~~The~~ duties of despatcher.

Every article made in the workshops is entrusted to the Stonekeeper for despatch to its destination and he has to make arrangements for carriage of the same by boat, rail, or cart as the case may be, advising the despatch to the indenting officer and being responsible
