OFFICE NOTE No. 3498 P/A

To

W.

A scrutiny of the Provincial Objectionable Item Statement of the 4th. Circle for the month of June 1895 shows a number of items

i. Without Estimate

ii. In excess of Estimate

that remain unremedied, many of which have been outstanding for some time. The marginally noted table brings this out clearly and particular attention is invited to the fact that one item has been outstanding since 1893, and eight since 1894.

2. Attention has been drawn to these irregularities in the Provincial Objectionable Item Statements every month, but effective measures do not appear to have been taken by the officers concerned, and the same items have consequently to be brought forward month after month. Stringent orders of Govt. therefore now appear necessary for the early regularization of all outstanding objections.
