READ the following

188 Resd

From the Supdtg. Engineer I Circle No: 587 G. L. of 18th November 1895

The following sums surrendered by the S. E. I Circle are withdrawn and credited to the Provincial reserve:-

	Rs
(a) Taluk office at Narsapatnam	5,000
(b) Improving and repairing the godowns of the Sea Customs Office at Cocanada	600
(c) Constructing iron railings instead of wooden palisading for the central jail at Rajahmundry	1,600
(d) Civil Buildings, Minor Works, Vizagapatam Dn	1,000
(e) — do — do - Ganjam Division	2,000
(f) Metalling and improving the road from Govindapur to Lohagudi	2,002
(g) Constructing Itchapuram-Jarada road	905
(h) Communications, Minor Works, Ganjam Division	1,000
Total Rs.	14,007

Note

A large sum will probably be required for the Ootacamund Lake Deposits, and the funds at the credit of the Reserve might therefore be retained in the P.W. Dept.

(40—1,000—21-4-94.)

2. The undermentioned allotments are made from the Provincial reserve:-

	Rs
(a) Combined office for the town and the stationary sub-magistrate at Berhampore	1,200
(b) Improvements to the existing sub-jail at Koraput —	500
Total Rs.	1,700

3. The following sums surrendered under Imperial Civil Works, Postal Repairs, are ~~added to the~~ added to the reserve with the Govt. under that head:-

	Rs
(a) Ganjam Division —	800
(b) Godavari Eastern Division —	300
Total Rs.	1,100

4. An additional allotment of Rs. 165 is made to the Godavari Central Division from the reserve under Imperial Civil Works, Postal Repairs.

5. The sum of Rs 4,000 or Rs 4,980 inclusive of the percentage charges surrendered from the grant for the Post Office at Jeypore will be replaced at the disposal of the Govt. of India.

6. The Financial Department will be requested to provide the additional allotment of Rs 140 or Rs 174 inclusive of the charges for Establishment and Tools and Plant required for fitting a new light to the light house obelisk at Calingapatam.

or say 6 months.

---

the same site as the last. This admittedly would not appreciably affect the floods.

III. As it is impossible to express an opinion on any of these without information regarding levels which is not available the proposition I submit is for Survey establishment for preliminary investigations only.

These investigations will probably suffice to indicate if it is advisable to investigate fully any of the above proposals and which is the most promising.

IV. The attached note shows the lines of levels & cross sections I would propose. This however would doubtless be modified during the progress of the work.

Letter from the Executive Engineer, Kistna Northern Dn, to the Supg Engineer, II Circle, d/ 6.10.95, No 425 S.E.

[illegible]

With reference to your No 1583 R.S. d/ 27.10.1895, I herewith submit a proposition statement required for preliminary investigation in connection with proposals which have been put forward in connection with the Budameru.

II. There is nothing on record that any investigations have ever been made to show the feasibility or otherwise of the various proposals which have been made from time to time, which proposals are, I believe,

(1) The diverting of the Budameru into the Kistna some miles above the anicut.

(2) The formation of a large reservoir, the full tank level presumably about the Kistna Highest Flood level, by throwing a bund across the gorge through which the Budameru passes near Bezwada. The reservoir to act as a flood moderator and to surplus into the Kistna.

(3) A low reservoir for irrigation purposes only with a bund on the

---

2. I forward for sanction of Government a Proposition Statement of Establishment required for the preliminary investigation of the Project, together with a copy of letter from the Executive Engineer, Kistna Northern Division, No 425.S.E., dated 6th Instant.

3. The main point to be aimed at is to altogether prevent Budameru flood waters from crossing the line of the Ellore Canal. This can be effected by adopting either of the Schemes referred to by the Executive Engineer in para II (1) and II (2) of his letter. If the latter Scheme is worked out, the Surplus work will have to pass a heavy flood discharge, and it will probably be economical to adopt some such design as that of the falling shutters of the Uppar Odai Dam in the Tinnevelly District.

I have the honor to be,
Sir,

Sir,

With reference to para 1 of G.O. No. 845 I. dated 16th October, 1895, I have the honor to state that, as already reported by this office elsewhere, the diversion of the Budameru River into the Kistna River above the Anicut is certainly the most effective, & seems to be the most feasible, method of controlling floods in the Budameru. There appears some doubt now whether the execution of the project will not involve heavy outlay for raising the embankment of the Nizam's Railway, but this point cannot be determined until preliminary levels & investigations have been made.

Read—the following papers :—

From A. S. RUSSELL, Esq., Officiating Superintending Engineer, II Circle, to the Chief Engineer for Irrigation, dated 11th November 1895, No. 1715 K.S.

With reference to paragraph 1 of G.O. No. 845 I., dated 16th October 1895, I have the honour to state that, as already reported by this office elsewhere, the diversion of the Budameru river into the Kistna river above the anicut is certainly the most effective, and seems to be the most feasible, method of controlling floods in the Budameru. There appears some doubt now whether the execution of the project will not involve heavy outlay for raising the embankment of the Nizam's Railway, but this point cannot be determined until preliminary levels and investigations have been made.

I forward, for sanction of Government, a proposition statement of establishment required for the preliminary investigation of the project, together with a copy of letter from the Executive Engineer, Kistna Northern division, No. 425 S.E., dated 6th instant.

3. The main point to be aimed at is to altogether prevent Budameru flood waters from crossing the line of the Ellore canal. This can be effected by adopting either of the schemes referred to by the Executive Engineer, in paragraph II (1) and II (2) of his letter. If the latter scheme is worked out, the surplus work will have to pass a heavy flood discharge, and it will probably be economical to adopt some such design as that of the falling shutters of the Oopar odai dam in the Tinnevelly district.

ENCLOSURE.

From the Executive Engineer, Kistna Northern Division, to the Superintending Engineer, II Circle, dated 6th November 1895, No. 425 S.E.

With reference to your No. 1583 K.S., dated 27th October 1895, I herewith submit a proposition statement required for preliminary investigation in connection with proposals which have been put forward in connection with the Budameru.

2. There is nothing on record that any investigations have ever been made to show the feasibility or otherwise of the various proposals which have been made from time to time, which proposals are, I believe,—

(1) The diverting of the Budameru into the Kistna some miles above the anicut.
(2) The formation of a large reservoir, the full tank level, presumably about the Kistna highest flood level, by throwing a bund across the gorge through which the Budameru passes near Bezwada. The reservoir to act as a flood moderator and to surplus into the Kistna.
(3) A low reservoir for irrigation purposes only with a bund on the same site as the last. This admittedly would not appreciably affect the floods.

3. As it is impossible to express an opinion on any of these without information regarding levels which is not available, the proposition I submit is for survey establishment for preliminary investigations only.

These investigations will probably suffice to indicate if it is advisable to investigate fully any of the above proposals and which is the most promising.

4. The attached note shows the lines of levels and cross-sections I would propose. This, however, would doubtless be modified during the progress of the work.

BUDAMERU SURVEY.

Lines of levels proposed to be run.

	DAYS.
(1) Levels along Budameru from site of breach 3 miles, Ellore canal, to Velagaleru with cross-sections every ¼ mile, 12 miles	24
(2) From old outlet in Kistna (mentioned by Collector) to the Budameru main channel with cross-sections every ¼ mile, 5 miles ...	10
(3) Countour lines across valley of Budameru at various levels, 6 in number, and each about 6 miles long	50
(4) Along Kistna left bank, Bezwada, to Ibrampatam with cross-section every furlong, 8 miles	8
Connecting with Bench marks on Nizam's Railways	4
	96
Plotting sections, &c.	48
Total working days ...	144
Surveyor—	
Working days	144
Holidays—Sundays, &c., one-fifth	29
Total ...	173 (or, say, 6 months)

No. 68 E.W.

Forwarded to the Chief Engineer, Public Works Department, with the request that sanction may be obtained to the establishment applied for.

CHEPAK,
23rd November 1895.

(Signed) F. W. ASHPITEL,
for Chief Engineer for Irrigation.

ORDER—No. 3049 W., dated 28th November 1895.

Sanction is accorded to the following establishment, required for preliminary investigations in connection with the Budameru stream in the Kistna Northern division:—

2 Surveyors on Rs. 70 each for a period of three months.
10 Lascars on Rs. 6 each for a period of 2½ months.

2. This sanction has been registered as Provincial No. 61 of 1895-96 and classified as Establishment, Temporary.

The accy. telegram from India must apparently be first submitted to W for orders whether Mr Medlicott can be spared, before any reference is made to Mr Medlicott himself as to whether he is willing to accept the special duty in question.

With regard to the concluding sentence in the telegram, nothing is known in the office relative to the transfer of Mr Medlicott's services to the Nizam's Govt. Mr Medlicott is a candidate for the appointment of Ch. Engr Travancore, but the papers on this subject did not go before India.

For orders

Cy 31/10

This refers to a private reference made
to Col. Ottley by me

9145

For orders with reference to H.E. the Gov's remarks.

Mr Medlicott's deputation to Cyprus is only for three months. If he is selected for the post in Travancore, he might still be able to take it up on his return from Cyprus, if the Travancore Govt. would be willing to wait for the short time.

If any reply is to go to His Exy. it is submitted that the G.O. might be issued to Mr Medlicott, & the papers recirculated afterwards.
