Marine (1895) Department.

January to December 95

G.O., No. 3096 W

DATED 2-12-95

[Despatch Abstract.]

Marsapur ferry steamer: Stating that
the percentage to be charged on the
— now being constructed in the
Dowlaishevaram Workshops, should
be on the value of labour, stock and
materials supplied through or by the
Workshops.

Enclosures.

DOWLAISHWERAM, 31st October 1895.

SIR,

I have the honor to request I may be informed what charges should be made on account of Workshop centage in the case of the steamer for the Narsapur ferry now being constructed in the Dowlaishweram shops.

2. I am informed that when the Helen & Dorothy were put together at Dowlaishweram the usual charges were made on account of Workshop centage.

3. I am of opinion that in the case of the steamer now under construction it would be most unfair to charge anything like 25 per cent of the estimate amount seeing that the Workshops have absolutely no responsibility in the matter.

4. The different parts of the steamer were sent down from the Calcutta Dockyard

and an R. I. M. Engineer Officer and a foreman came down to Superintend the construction of the steamer.

5. The Workshops supply labour and tools and Plant required as well as some stock articles. If 10 per cent were charged on the value of the stock articles supplied and 2 per cent on the total amount of the Estimate as a general charge it would I consider be ample.

6. The estimate has to bear the cost of the actual expenses of the Engineer Officer sent to superintend the construction of the steamer.

I have the honor to be,
Sir,

Your most Obedient St.

Edw. A. H. Garrett

Sup^t Eng. 1st Circle.

No 4110 J/A of 22 Nov 95

To W.

The usual percentage upon the ordinary charges of the Shops amounts to Rs. 25 per cent. In this case as the Shops have no responsibility the "profit" percentage might be foregone and a charge of only 18 per cent on the value of ordinary charges for labour and materials levied. This will cover all incidental charges.
