Trincomelly Collector's Office

20th November 1895

From

gcu

A. W. B. Higgins Esquire,

Collector of Trincomelly,

To

The Secretary to the

Commissioners of Land Revenue,

Madras.

Sir,

Adverting to B. P. no. 399 dated 24th September 1894 communicating letter of the Director-General of Telegraphs in regard to the extension of the telegraph system in the Madras Presidency, I have the honor to state that a report was sent from this district suggesting the advisability of opening two telegraph stations at Kalugumalai and Sankaranamarkoil experimentally. As I have no information as to what orders have been passed thereon, and as the local officers again press for the opening of telegraph stations at those places, I request you will be good enough to communicate the Board's orders on the subject. The two telegraph stations proposed would undoubtedly be very useful.

I have the honor to be,

Sir,

Your most obedient servant,

Read the following

Endorsement in the Revenue Dept.
in Proceedings of the Board
of Revenue (L.R.) N^o 5944 Mis
dated 27th November 1895... (H.E. 2003. La/b. Dec^r 95)

It is observed that
w/ 2nd Dec Sankaranainarkoil and
Kalugumalai were included
in the Director General's
list C, printed with G.O.
N^o 2140 W dated 29th Aug:
1894, i.e. stations at which
telegraph offices could
only be opened on a guarantee
from this Government. The
same two stations were
brought forward among
others in the Revenue
Board's Resolution N^o 194

dated 17 June 1895 wherein
 it was remarked that while
 the extension of the telegraph
 system to them would be
 desirable, no guarantee,
 or an assurance that the
 offices would prove financially
 successful could be given.
 The Director General of
 telegraphs was informed
 accordingly in a letter forwarded
 in connection with L.O. No.
 1858W dated 26 July 1895,
 and no useful purpose would
 be gained by again addressing
 him unless the Collector
 can show by statistics that
 the financial prospects of
 telegraph offices at the
 two stations in question are
 more hopeful than formerly
 anticipated.
