ABSTRACT

PRECIS.

Urgent

SIR,

Memo

With reference to your letter No. 4067 C, dated the 17th instant of 1895, I have the honour to inform you that

I hope to reopen the Telegraph and Telephone Connections in the Meteorological Reporter's new residence by the end of the current week.

2). I take this opportunity to point out that had sufficient notice of the intention to remove the Meteorological Reporter's office been given me the extensions to both circuits might have been erected before the removal took place, so that the only delay to communication would have been the hour or so necessary to shift the instruments from the one building to the other.

I am, Sir, in the honor to be,

Sir,

Your most obedient servant,

A. L. W. Palmer
