TO

THE Chief Engineer
P. W. Department

DOWLAISHWERAM, 31 January 1895.

SIR,

Referring to G.O. No. 312 dated 7th Decr 1894 I have the honor to submit the proposition statement called for.

2. The G.O. was referred to Mr. Paul for report but instead of sending a proposition statement for the Godavari Western Dⁿ as at present constituted he has sent one which deals with the Establishments which will be necessary when the present Central Sub Dⁿ has been converted into a separate Division.

3. To save the delay of a further reference to Mr. Paul the accompanying statement has been prepared in my office.

4. One reason for the office work in the Western Division being so heavy is that when the old Central Dⁿ was amalgamated with the Western Dⁿ the records of the two Divisions got hopelessly mixed and in spite of recent attempts to get them into order are

PROCEEDINGS OF THE MADRAS GOVERNMENT.

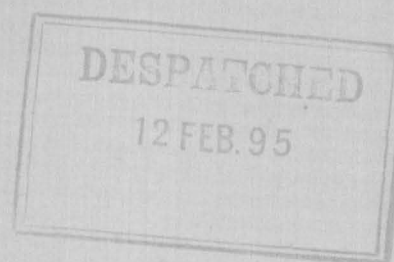

Read the following

Letter from the S.E.I. Circle (H.C. No 2045 G.O. d/31 Jan. '95)

The proposed additions to the clerical staff of the Godavari Western Division are sanctioned.

2. The further proposals promised in regard to the executive staff are awaited.

3. This sanction has been registered as G.O. No. 61 W of 1894-95 and classified as Establishment, Permanent.

at present in a state of indescribable confusion.

5. I do not think the extra Establishment now applied for could be better employed than in classifying & separating the records so that when the Central Dy is formed it will be possible to remove without difficulty all the records relating to it. Moreover the clerks engaged on the work of classification would have gained experience which would be of use to them when transferred to the Central Dy.

6. The Engineering staff of the Western Division has been so considerably strengthened of late that if two more Upper Subordinates were appointed there would be no difficulty on the score establishment in forming the new Central Dy at once.

7. From your note which accompanies the G. O. under reply I understand that the only consideration which interferes with the immediate formation of a third Division in the Godavari Delta is the inability in the present depleted state of the Department to provide the officers & Subordinates who would be required.

8. As this consideration has lost much of its weight by the appointments recently made, and as it can be clearly shown in the proposition statement which I shall submit in a day or two, that at the outside only two more upper Subordinates would be required to provide an efficient staff for the new Division, I trust it may soon be

possible to introduce a measure the necessity for which has been fully admitted.

I have the honor to be,

Sir,

Your most obedient

Wm. D. D.
