

estimate of revenue for
1894-95 under Provincial
and Local Incorporated ~~and~~
Civil Works was based on
the actuals for the first
six months of the year and
those of the corresponding
periods for the three
preceding years, but if
the transactions of a
longer period be considered
there seems no reason
why the estimates should
not be reduced to £125,000
under Provincial and £11,000
under Incorporated Local.

2. Similarly the budget
estimate for 1895-96 under
Provincial may be taken
at £125,000, the amount $\frac{A}{B}$ 359 $\frac{A}{B}$ w. d. 12th Feby. 1895.
of the revised estimate
for the current year, and
that under Incorporated
Local at £7,500.

Your office note No. 450 C. dated

6th. February 1895.

The amounts of the Revised Estimates given in my office note No. 4750 ^D/_B dated 3rd. December 1894 were based upon the actuals of the first six months of the current official year, and those of the corresponding period in the three preceding years; but they may be reduced to Rs. I, 25,000 and Rs. II, 000 respectively, for Provincial and Incorporated Local Civil Works, in consideration of the actuals for the first nine months of the year and those for the corresponding period of the preceding three years.

2. A statement showing how the figures have been arrived at is inclosed.

3. For the Estimate for 1895-96 under Incorporated Local it will perhaps be advisable to take a four years average and set the figure at Rs. 7500.

Provincial and Incorporated Local Civil works
appears to have been placed at too high a figure.

2. I am to request that the Revised
Estimate may be reconsidered and that the
Government of India may be informed at
an early date whether any reduction is
desirable.

3. I am also to invite attention to
the estimate of Revenue ~~from~~ Civil works.
