Letter from the Executive Engineer,
Minnelly Division, to the Superintending
Engineer 6th Circle, No 413 dated 13th February 95.

With reference to your No. 89824 dated
12th February 1895 on G.O. No. 152 W dated 21st January
1895, I have the honor to state that the Police
Superintendent's residence at Palamcottah
has no real compound, as all the land
around it and that in rear of Executive
Engineer's and Police Superintendent's offices
was used as the parade ground when the
regiment was here.

2. When the building was occupied
by the Police Superintendent he made a
small compound, a part of which was
fenced at his cost by milk hedge and
this portion measures 1.33 acres.

3. As the building now proposed is
to be the permanent residence of the
Police Superintendent, it was thought
that the building should have a suitable
compound. The site plan accompanying
the sanctioned estimate shows the boundaries
of the proposed compound which measures
4.10 acres.

4. As settled by the Collector
the
