Superintending Engineer
III Circle

Letter No: 3624 dated 4th February/95
from the Executive Engineer Kumool Dist.
to the Superintending Engineer The Circle.

With reference to your L.O. No: 2515
25-1-95
communicating G.O. No: 2611⁸⁻¹⁻⁹⁵ sanctioning
an Estimate of Rs. 3420 for constructing a
Store Shed for farming tools at Cumbe,
I have the honour to state with reference
to para 3 that the extra watchman is required
now and not after the construction of the new
Building when probably no watchman would
be required.

2. As already stated the sheds in which
the tools are stored, are unsafe; the walls
and roof are rotten and with heavy rain
the sheds may tumble down leaving the tools
exposed, therefore I asked for another
watchman as one man should always be
on the spot night and day.

3. I request therefore that the employment
of a second watchman may be sanctioned
until the tools are stored safely in the new
building when his services would be quite
unnecessary.

With disposal

Yours faithfully,
M. S. S. S. S.

31st January 1895.

Sir,

With reference to my letter dated 14th December
1894, I have the honour to inform you that the
actual number of extra and stronger castings
to be supplied is 8, and not 3 as stated in my
previous letter. The total cost of these 8 castings
will be £3, as already intimated to you.

I have the honour to be, Sir,
Your obedient servant,

J. Tucker
Director General of Stores.

The Secretary to the
Government of Madras,
Public Works Dept.,
Madras.

Sir,

With reference to your letter No.2850 W dated 8th November 1894, I have the honour to enclose for your information, a copy of a report by the Consulting Engineer dated 12th November 1894.

The three extra and stronger castings alluded to in the report are under supply at a cost of £3.

I have the honour to be, Sir,

Your obedient Servant,

J. PARKE

Director General of Stores.

The Secretary to the Govt., of Madras,
Public Works Department,
Madras.

DUPLICATE

COPY OF A REPORT BY THE CONSULTING ENGINEER

DATED 12th NOVEMBER 1894.
=====

This telegram is the result of a letter I wrote to Colonel Pennycuik in which I said that I thought certain Cast Iron plates if made as per drawing received from India would probably get broken in transit but that the drawings were so precise that I did not like to alter them and indeed could not do so for want of a general drawing of the work for which the material was wanted.

The castings I referred to are made - But duplicate castings properly stiffened will only cost £3 and I think both those made and stiffened duplicates as well should be sent. Breakage of either is possible, and duplicates may come in useful. If you will authorise me to do so I will arrange the matter with Head Wrightson.
