GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

General.
Establishment.

READ—the following papers :—

From A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaishwaram, 12th February 1895, No. 2102 G.D.

I have the honour to submit the proposition statement promised in my No. 2045 G.D., dated 31st January 1895.

- 1 Executive Engineer.
- 2 Assistant Engineers.
- 7 Upper Subordinates.

2. The total number of Engineers and Upper Subordinates now employed in the Western delta division is fifteen, but the scale originally sanctioned is as given in the margin.

3. When the Central delta is taken away, the Western delta division will consist of three sub-divisions and it will be observed that the staff proposed differs very slightly from that originally sanctioned for the Western division as at present constituted.

4. The new Central delta division will have two sub-divisions and the staff allowed is considered ample both by Mr. Paul and myself. To provide this staff only two more Upper Subordinates are required.

5. The accompanying statistics are of use in enabling some idea to be formed of the relative importance of the two divisions :—

	Western delta.	Central delta.
Ultimate irrigated area	350,000	130,000
Mileage of navigable canals	219	119
Distributaries	943	429
Establishment—number of service books maintained.	253	91
	RS.	RS.
Expenditure in 1893-94	1,78,293	98,160
Budget grants, 1894-95	1,73,762	78,669

6. From this statement it may appear that the Central delta division will be provided for on a more liberal scale than the Western delta division, but it is anticipated that with a proper establishment there will be a lot of new works and a considerably increased expenditure in the Central delta division.

7. A proposition statement showing the additional clerical establishment required for the formation of a third division in the Gódávri delta is also submitted, and in drawing up this statement the Western delta has been regarded as a 1st-class and the Central delta as a second-class division though in both cases it has been considered advisable to provide establishments on a slightly increased scale.

8. From the proposition statements it will be seen that the extra clerical establishment required, due to the formation of a new division, will cost Rs. 300 per month, and the cost of two additional Upper Subordinates, together with the difference between

the pay of an Assistant Engineer, 1st grade, and an Executive Engineer, 3rd grade, amounts to about Rs. 430 per month.

* Exclusive of the pay of accountant and office contingencies. The total extra cost per month would thus be about Rs. 730* or about Rs. 9,000 per annum.

Office-note from the Examiner, Public Works Accounts, dated 6th March 1895, No. 797 D./E.

ORDER—dated 22nd March 1895, No. 686 W., Public Works.

His Excellency the Governor in Council observes that since the issue of G.O., No. 3129 W., dated 7th December 1894, the executive staff of the divisions of the Gódávári district have been so increased that it will not now be very difficult to provide the further strength required for the formation of a new division. The proposal to divide the Gódávári Western division into two separate divisions as follows is accordingly sanctioned :—

(1) Gódávári Western division—

Sub-divisions—

- (1) Eastern.
- (2) Western.
- (3) Tank and Embankment.

(2) Gódávári Central division—

Sub-divisions—

- No. 1.
- „ 2.

2. The existing as compared with the proposed staff is shown below :—

	Present.	Proposed.
Executive Engineer	1	2
Assistant Engineers	3	2
Upper Subordinates above the grade of overseer	5	5
Overseers	3	5
Temporary Upper Subordinates	3	3

3. It will thus be seen that the only additions required are one Executive Engineer and two overseers, while one Assistant Engineer will be set free. Proposals for such postings as require the sanction of Government will be submitted by the Chief Engineer.

4. The proposition submitted by the Superintending Engineer has been recast; establishments for detached officers and overseers being of a fluctuating character have been eliminated, and the net increase is shown to be Rs. 76-8-0 per mensem. The statement as thus revised is sanctioned, and the sanction registered as Provincial No. 77 W. of 1894-95 and classified as Establishment, Permanent.

5. The Superintending Engineer will submit a map showing clearly the territorial limits of the new charges.

(True Extract.)

1895

To C — For favour of
check as regards —
present scale.

To W.

The column "Present Scale" of
the proposition statement has been check-
ed and found correct.

2. It is pointed out that as the
establishment for detached officers and
overseers is liable to fluctuation ac-
cording to the number of detached of-
ficers and overseers that may be actual-
ly employed from time to time in the
division, it might, it is thought, be
omitted from the statement.

Che 1162
1766

Note

The Superintending Engineer
proposes to divide the Godavari
Western Division into two separate
Divisions, and points out that
owing to the recent increase
in the executive staff the
proposed change will be
easier of attainment than it
would have been previously.

2. As regards the executive
staff, the only additions required
are one Executive Engineer
and two Overseers, while one
Assistant Engineer from the
existing establishment will
be set free. The number of
Sub-Divisions has been increased
by one only, i.e. from 4 to 5.
The following statement shows
the

the position as regards executive staff:-

	Present	Proposed
Divisions	1	2
Sub Divisions	4	5
Executive Engineers	1	2
Assistant Engineers	3	2
Upper Subordinates above the grade of Overseers	5	5
Overseers	3	5
Temporary Upper Subordinates	3	3

3. As regards the office establishment, the proposed changes involve a net increase of Rs 76½ per mensem, i.e. excluding the establishments for the detached officers and overseers which may be ^{eliminated} ~~excluded~~ from the statement owing to their fluctuating character, as explained by the Examiner in para 2 of his office note

on

on the statement.

For rules

In November last
when the question of
dividing the joint
works between Division
and the other was first
raised I found myself
unable, for reasons stated
in his note accompanying
P.O. 2129 H. of 10 Dec.
1894 to recommend the
immediate adoption of
such a measure. Though
considering it desirable in itself,
desirable.

The additional work
of the establishment of the
existing Division has
become such a considerable
that it will not be
a very difficult matter
now to provide the further
strengthening for the
formation of a new Division. The
chief difficulty will be in the
subordinate and
matter of this establishment, as

the cost of the repairs
of the station are few as
given and in the case of
Zinc is said requiring
them well, the cost
at present of the
the charges for the work
being a great
quantity.

It is therefore recommended
that the establishment
of the present new
Division be undertaken
judiciously for such purposes
as require the sanction
of joint with the est-
ablishment in the same

NOTES.

Reference to P. W. D. Code.

Chapter I, Para. 30.

1. All proposals for changes in the scales of permanent establishments must be accompanied by a statement in Part I of this form when the changes relate to the engineer or upper subordinate establishments and in other cases by a statement in Part II of this form.

2. The column headed "present scale" should invariably show the existing sanctioned scale (not the strength of the establishment as it actually stands at the time), and should be verified by the Examiner before the statements are forwarded to the sanctioning authority.

Godavari Central Dist.

Dated the

18 Margs. 189

Executive Engineer,

Division.

Letter from the S.E. I. Circle No. 2102 C.S.D. of 12 February 1895.
 Office note from the C.S.W.A. No. 797 of 6 March.

FOR ORDERS.

In November last —
 when the question of dividing
 the present Godavari Western
 Division into two was first
 mooted the Chief Engineer
 found himself unable, for
 reasons stated in his note
 accompanying C.O. No. 3129 W
 of 7 December 1894 to recommend
 the immediate adoption of
 such a measure, though
 considering it to be, in
 itself, desirable.

2. The additions since made
 to the establishment of the
 existing Divisions have however
 been so considerable that
 it will not be a very
 difficult matter now to
 provide the further strength
 required for the formation
 of a new Division. The
 chief expense will be in the

matter of subordinate and
office establishment, as the
cost of the difference of
pay between an Executive
Engineer and an Assistant
Engineer is more imaginary
than real, the total establish-
ment of the two classes for
the whole Presidency being
a fixed quantity.

3. It is therefore recommended
that the organisation of
the proposed new Division
be sanctioned; proposals
for such postings as require
the sanction of Government
will be submitted in
due course.

FOR ORDERS.

Reformation of the Godavari
Central Division.

686 W

I am much pleased that
this can be done.

15 Mar

No. 686 W. dated 22nd March 1895.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following

From the Suptg. Engineer I leirch. No. 2102 G.D. 12 February 1895
From the Examiner P.W. Accounts No. 797² d. 6 March 1895

1388

His Excellency the Governor
in Council observes that since
the issue of G.O. 3129 W. dated
7th December 1894, the Executive
Staff of the divisions of the
Godavari District have been
so increased that it will not
now be very difficult to provide
the further strength required
for the formation of a new
division. The proposal to
divide the Godavari Western
division into two separate
divisions as follows is ac-
cordingly sanctioned:-

1. Godavari

1. Godavari Western D^y

Sub-divisions

- (1) Eastern.
- (2) Western.
- (3) Tank and Embankment.

2. Godavari Central D^y

Sub-divisions

No 1

No 2

2 The existing as compared with the proposed staff is shown below:

	Present	Proposed
Executive Engineer	1	2
Assistant Engineers	3	2
Upper Subordinates above the grade of Overseer	5	5
Overseers	3	5
Temporary Upper Subordinates	3	3

3. It will thus be seen

that

that the only additions required are 1 Executive Engineer and 2 overseers, while 1 Assistant Engineer will be set free. Proposals for such postings as require the sanction of Government will be submitted by the Chief Engineer.

4. The Proposition Statement submitted by the Suptg. Engineer has been recast; establishments for detached officers and overseers being of a fluctuating character have been eliminated and the net increase is ~~shown~~ shown to be Rs 76½ for mensem. The Statement as thus revised is sanctioned, and the sanction registered as Provincial No 774 of

of 1894-95 and classified
as Establishment Permanent.

5. The Suptg. Engineer
will submit a map showing
clearly the territorial limits
of the new charges.
