READ—the following paper :—

From H. IRWIN, Esq., C.I.E., Consulting Architect to the Government of Madras, to the Chief Engineer, Public Works Department, dated Chepâk, 9th March 1895, No. 3706.

With reference to your memorandum No. 530 C., dated the 12th February 1895, I have the honour to submit a plan and estimate, amounting to Rs. 2,113, for constructing a porte cochère on the west side of the Banqueting Hall and request permission to proceed with the work.

2. His Excellency the Governor has approved of the plan, and the estimate has been countersigned by the Military Secretary to His Excellency.

ORDER—dated 29th March 1895, No. 793 W., Public Works.

With his letter read above, the Consulting Architect submits an estimate, amounting to Rs. 2,113, for constructing a porte cochère to the Banqueting Hall at Madras. In G.O., No. 153 W., dated 21st January 1895, an estimate of Rs. 14,985 was sanctioned for constructing a verandah with terraced roofing around the building. The two estimates aggregate Rs. 17,098 rendering the sanction of the Government of India necessary under paragraph 10, chapter VI, volume II of the Public Works Code. This sanction will accordingly be applied for.

LETTER—from

COLONEL J. PENNYCUICK, R.E.,
Secretary to the Government of Madras,
Public Works Department,

To

THE SECRETARY TO THE GOVERNMENT OF INDIA,
PUBLIC WORKS DEPARTMENT.

SIR,

In forwarding a copy of Proceedings of this Government, No. 793 W., dated 29th March 1895, I am directed to state that an estimate of Rs. 14,985 for constructing a verandah with terraced roofing around the Banqueting Hall at Madras was sanctioned in G.O., No. 153 W., dated 21st January 1895, and the work is in progress with an allotment of Rs. 4,000 in the current year. This work could not be carried out hitherto for want of funds.

2. The inconvenience to guests arriving at or leaving the hall on wet nights having been found to be very great, the construction of a porte cochère to the building was considered by this Government to be necessary and an estimate was accordingly called for; but as the aggregate estimated cost of the whole work to the Banqueting Hall now amounts to Rs. 17,098 and thus exceeds the limit prescribed in paragraph 10, chapter VI, volume II of the Public Works Code, I am directed to request that the sanction of the Government of India to this expenditure may be accorded at an early date.

I have the honour to be,
Sir,
Your most obedient servant,

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

No. OF ENCLOSURES. 4

Subject.

Submitting plan & estimate amounting to Rs 2,113 for constructing a porte cochère on the west side of the Banqueting Hall, Madras

Carried 12/3/95

Keeping with the existing building.

The nature of surface & subsoil has not been reported. The foundations are to be laid 6 feet deep, the lower 3 feet with concrete & the upper one foot together with the superstructure walls built of stock bricks in chunam.

The scantling for the teak wood joists & rolled steel beams are fair, correct & the rates are fair.

The plan is dated & has been approved by H.E. the governor & the estimate has been countersigned by the Military Secretary to the Governor.

Sanction carried 15/3/95

13.III.95

"weights on girder"

Cement — 20' × 7' × ¾ × 120 = 12,600
joists — 15 × 7 × 3" × 5' × 46 = 552
Accidental load 20 × 7 × 120 — = 16,800

Total weight in lbs 29,952
Total in tons 13.37.

Section of girder required.

$R = \frac{13.37 \times \frac{5+10}{2} \times \frac{3}{12}}{\frac{8}{2} \times 10.66 / 5.33} = 38$ sq inches

a section 10" × 5" will suffice against a section of 12" × 6" as stipulated.

NOTE BY TECHNICAL SECTION.

Name of work Constructing a Porte Cochere to the Banqueting Hall, Madras.

Amount of estimate Rs 2113

The plan & estimate amounting to Rs 2113 have been framed with reference to this office memo No. 530 C dated 12th Feby 1895 & provide for constructing a Porte Cochere on the west side of the Banqueting Hall, Madras.

The Porte Cochere will be 30'9" x 20'0" interior dimensions with a timber roof supported on steel beams & section 12" x 6" & teak wood joists 3" x 5". The carriage entrance will be through archways in side walls 12 feet wide & 13 feet high above ground surface. The front face will be pierced with two archways each 10 feet wide. The plastering, cornice & balustrades will be in keepin

The Honorable Pt. Public C.E.

Design for the porte cochere to the Banqueting Hall

H. M. 27/3. R 28/3.

No 793-94W dt 29 March 1895

P. W. D.

Note for the Hon: Dr. Bliss:—

With reference to the Hon: Dr. Bliss's remark on the design for the porte Cochere, it is submitted that the substitution of girders for arches would make the design out of keeping with the rest of the verandah which is all arches, and that lowering the top of the porte Cochère to the level of the verandah would not give sufficient headway. Steps from the roof of the one to that of the other, as the Honorable member suggests, can however be constructed and instructions will accordingly be given to the Consulting Architect when sanctioning the estimate.

Seen

From the Consg. architect to Government

No. 3706 dated 9th March 1895

30

With his letter read above, the Consulting Architect submits an estimate amounting to Rs 2,113 for constructing a Porte Cochère to the Banqueting Hall at Madras. In G. O No. 153 W dated 21st January 1895 an estimate of Rs 14,985 was sanctioned for constructing a Verandah with terraced roofing around the building. The two estimates aggregate Rupees

W. 20 Mar

I pass the Draft, but at the same time I am not quite satisfied with the design. I am perhaps rash in criticising, but it appears to me that if the top of the Porte Cochère is above the level of the Verandah the resulting appearance will be by no means good. The total height of the Porte Cochère might be raised without affecting the appearance with respect to the style of the rest of the building by substituting pillars for the arches at the N. & S. ends. Anyway, if the roof of the Porte Cochère must be 3' above the floor of the Verandah, there should be steps for access from the other entrances than the one in front.
