I beg to invite your attention to the fact that until the receipt of the Superintending Engineer's letter, I was totally unaware of the intentions of Government, as Copies of the Government orders above referred to had not been forwarded to me in the usual course. The result has been that on my recommendation the Director General of Telegraphs in August last sanctioned a certain sum for repairs to the building about to be de

3. Orders to vacate the building were issued by me
on the 1st instant and the Superintending Engineer
II Circle has been informed:-
