General.
Establishment.

READ—the following paper:—

From the Executive Engineer, Kistna Northern Division, to the Superintending Engineer, II Circle, dated 9th August 1894, No. 175 S.E.

In reply to your No. 956 K.S., dated 25th July 1894, I have the honour to enclose a proposition statement for the survey establishment asked for in my No. 113 S.E., dated 14th July 1894, together with a statement showing the work to be done.

The work is almost entirely contouring which, compared to ordinary levelling, is very slow work, and I doubt if a surveyor will do more than a mile and a-half per diem. Allowing him 5 days to get to Atmakur and 5 days to return, it will be seen that it is impossible for him to get through the work in one month, so sanction for two months is applied for.

ENCLOSURE.

STATEMENT of proposition for revision of establishment.

[illegible]

Forwarded to the Chief Engineer for Irrigation with a request that the establishment may be sanctioned at an early date, so that the work may be completed before the north-east monsoon.

2. Both projects relate to the formation of tanks in the Palnád taluk of the Kistna district.

14th August 1894.

(Signed) R. N. H. REID,
for Suptg. Engineer, II Circle.

Forwarded to the Secretary to Government, Public Works Department, for favour of sanction.

This statement is based on
actuals and I have gone into
the matter and am satisfied
that the survey establishment
outturn of work for the time
employed as per this statement
was a fair one.

Payment has been made
in anticipation of sanction
and the services of the es-
tablishment to which this
statement refers dispensed
with from the 1st Feby 1895.
