READ—the following papers :—

From H. E. CLERK, Esq., Executive Engineer, North Arcot Division, to the
Superintending Engineer, IV Circle, dated February 1895, No. 645.

In returning the enclosure to your endorsement No. 37 N.A., dated 4th February 1895, I have the honour to state that I personally do not consider that a special officer is necessary for investigating projects in this district.

2. Enough investigation has already been made to show that none of the projects proposed by Colonel Smart would, in my opinion, be remunerative with the exception of the Morthana project, the investigation of which should, I think, go on.

3. I request that I may be favoured with a copy of Proceedings of Board of Revenue, No. 505, dated 28th November 1894, for record in this office.

No. 70 W.

Copy submitted to the Chief Engineer, Public Works Department, with reference to G.O., dated 1st February 1895, No. 248 W., for information.

2. A copy of the Board's Proceedings under reference may be supplied for record in the Division office.

3. No special officers are required; all we want are surveyors.

18th February 1895.

(Signed) J. HANNAN,
Suptg. Engineer, IV Circle.

From H. E. CLERK, Esq., Executive Engineer, North Arcot Division, to the
Superintending Engineer, IV Circle, dated 15th March 1895, No. 706 S.E.

Adverting to your No. 76 N.A. of 5th instant I have the honour to forward herewith a proposition statement for employment of a surveyor on Rs. 70 and for a draftsman on Rs. 40 per mensem for six months for investigation of the Morthana project in Gudiyattam taluk. The work to be done will consist in checking levels already taken as they are not sufficiently accurate and the bearings of lines of cross sections have not been taken, and also of surveying new lines for distributary channels in the Gudiyattam taluk. I am unable to give the length of these as I have not fixed on a site for the anicut on the river below, whence the new channels will start.
