22ND APRIL 1895, No. 926 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following papers :—

G.O., dated 15th November 1894, Mis. No. 4427, Revenue.

Read—the following Proceedings of the Board of Revenue (Land Revenue), dated 9th October 1894, Mis. No. 5593 :—

Read—the following letter from J. THOMSON, Esq., Acting Collector of Tanjore, to the Secretary to the Commissioners of Land Revenue, dated 24th September 1894, Ref. on C. No. 2824-Ver. :—

In continuation of this office letter, dated 18th June 1894, No. 1372, disposed of in Board's Proceedings, dated the 21st idem, Mis. No. 3428, I have the honour to forward copy of Mr. Todhunter's letter, dated 19th July 1894, Ref. on C. No. 124-Eng., containing his proposals for the improvement of the Taluk Cutcherry at Nannilam.

2. The proposals are in brief—

(*a*) to construct for the Stationary Sub-Magistrate a new court at the north-eastern corner of the building as shown in the enclosed plan ;

(*b*) to add an additional ward to the sub-jail on the north-west, as one of the existing wards will be demolished and the site taken up by the Stationary Sub-Magistrate's Court ;

(*c*) to build a small shed for the masalji in a corner of the new piece of land to be taken up adjoining the present compound on the west ;

(*d*) to close the present main entrance and fix a window in its stead ;

(*e*) to partition off a small portion of the record-room nearest to the proposed court to provide accommodation for the Sub-Magistrate's establishment ; and

(*f*) to extend the sub-jail compound to the west to allow of the construction of a new ward and the masalji's shed.

3. The above proposals appear to have been settled by Messrs. Winterbotham and Todhunter on their joint inspection of the locality and may therefore be approved.

4. Mr. Todhunter has since reported* that acquisition of land equal to the width of the new ward is sufficient. The extent of the land to be so taken up is about 8½ gulis and its approximate cost Rs. 43. After receipt of the sanction of Government to the proposals, steps will be taken for the acquisition.

* *Vide* copy of his letter, dated 12th September 1894, C. No. 124-Eng.

5. An estimate for the improvements proposed has already been prepared by the Public Works Department at a cost of Rs. 2,800 and is submitted for sanction. The work should be carried out by the Public Works Department.

Resolution—dated 9th October 1894, Mis. No. 5593.

Submitted for the sanction of Government.

(True Copy and Extract.)

(Signed) L. M. WYNCH,
Secretary.

Order—dated 15th November 1894, Mis. No. 4427, Revenue.

The estimates are approved and will be transferred to the Public Works Department for sanction.

(True Extract.)

(Signed) R. C. C. CARR,
Under Secy. to Government.

No. 68 C.

Forwarded to the Superintending Engineer, V Circle, for scrutiny and return.

2. The Collector's countersignature to the plan and estimate should be obtained before resubmission.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

10th Jan. 1895.

From J. C. LARMINIE, Esq., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Chepâk, 2nd March 1895, No. 63 W.

Adverting to your endorsement (herewith returned with its enclosures) No. 68 C., dated 10th January 1895, on Mis. G.O., dated 15th November 1894, No. 4427, Revenue Department, I have the honour to resubmit for sanction the enclosed plans and estimate of Rs. 2,660 for improvements to the Taluk office at Nannilam, Tanjore district.

2. The Collector's countersignature has been obtained to the plans and estimate.

From Lieut.-Colonel C. C. RAWSON, R.E., Superintending Engineer, V Circle, to the Chief Engineer, Public Works Department, dated Shatiatope, 5th April 1895, No. 113 W.

With reference to your memorandum No. 1170 C., dated 19th March 1895, I have the honour to report that the surface and sub-soil at site of the proposed additions to the Taluk Cutcherry at Nannilam are both loam.

Note by the Chief Engineer, Public Works Department.

The undersigned considers that the foundations should be of concrete throughout to ground level. On this account the estimate has been increased by Rs. 105.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Chief Engineer, P.W.D.

17th April 1895.

Order—dated 22nd April 1895, No. 926 W., Public Works.

The estimate, amounting to Rs. 2,765 as altered by the Chief Engineer, Public Works Department, for additions and improvements to the Taluk office at Nannilam in the Tanjore district, is sanctioned for execution when funds are available.

2. Attention is drawn to the Chief Engineer's note recorded above.

3. This sanction has been registered as Provincial No. 7 W. of 1895-96 and classified as Civil Buildings, Original Works.

APRIL.

Taluk office, Nannilam

Estimate of Rs. 2,765 for additions and improvements to the —, Tanjore district, sanctioned with remark.

Tanjore Head Asst Collector's office
Negapatam 12th September 1894.

Ref on cur No. 124/Sng of 1894.

From

C. G: Todhunter Esquire,
Ag: Head Assistant Collector of
Tanjore.

To

The Collector of
Tanjore.

Sir,

In returning herewith the plan and Estima for the improvement of the Taluk cutcherry at Nannilam, received with your Reference on current No. 2824/Ver dated 22nd August 1894, I have the honor to report as follows:—

2. There are at present only 4 wards in the Sub jail at Nannilam and they are now marke in the plan in pencil. The space between Ward Nos 2 and 3 is the passage to the sub jail compoun and the room to the east of Ward No. 4 is the police station. In ward No. 4, the warder Keep the coir mats, comblies etc. and this will have to be given up for the use of the police. The

largest

Ward No. 1 · 7 male convicts
Do – 2 · 7 Do undertrial and security prisoners
Do 3 · 5 Female Do
Do 4 · 5 · Do convicts

largest number of prisoners which the Sub Jail can accommodate is 14 males and 10 females – vide margin. I append a statement showing the total number of prisoners admitted during the last 22 months, that is, since the appointment of the Stationary Sub Magistrate, the maximum number imprisoned at any one time in each of these months and the monthly average. It will be seen therefrom that three wards will be insufficient and that a fourth ward is quite indispensable.

3. This will necessitate acquisition of land to the west and while it is being acquired for this purpose a strip as far as the road had best be taken up as the compound is now so small that it only provides 900 feet of space for the prisoners to work in. The cost of the extension will be very trifling.

4. As for the masalji, there is no need to give him anything but a small shed but he must have some place to keep his lamps, oil &c in and it is as well that this should be detached from the record room if possible. There is no space now available for this purpose and therefore I suggested the erection of a small tiled shed in the corner of the new piece of compound to be taken up. It will be observed from the plan that the masalji has a small room of his own in the present building and the Tahsildar informs me that this is the case in other Taluks in which he has served.

I have the honor to be,
&c

---

Tanjore Head Assistant Collector's office
camp: Negapatam - 19th July 1894 -

Ref on cur No. 124/Eng of 1894.

From

C. G. Todhunter Esquire,

Acting Head Assistant Collector of

Tanjore.

To

The Collector of

Tanjore -

Sir,

In obedience to your Reference on current No. 2824/Rev dated 18th June 1894, and in supersession of all previous ~~reports~~ letters on the subject, I have the honor to submit proposals for the improvement of the Taluk cutcherry building at Vannilam on the conditions settled when you inspected the building on the 4th April last. I regret that they have been delayed upto date owing to the illness of the Assistant Engineer who has kindly prepared the plan and estimate. The proposed alterations are briefly as follow: -

Firstly, to construct for the Stationary Sub Magistrate a new court at the north-eastern corner of the building of the same size as that constructed last year on the South-east and on the plan proposed by you. This will set free his present Court for the Tahsildar. The Tahsildar quitting his present place, will leave the hall which extends the whole length of the Eastern side to the Head Accountant and clerks. There will be ample accommodation for them all there and those who are sitting in the railed off portion to the South can then quit it so that it may be restored to its original use as a record room -

Secondly, to add an additional ward to the Sub Jail on the North-west. This will be necessary because the present lock-up occupies a portion of the site which it is proposed to take up for the Sub Magistrate's Court. The Superintendent of Police has consented to an arrangement by which the ward nearest to the Police Station can be used as a lock-up.

Thirdly, to build a small shed for the masalji in a corner of the compound. His present room is also to be demolished to make way for the new court; though it is not shown so, I think

by

by mistake, in the plan - It was considered best to have his room removed away from the main building as he constantly has to do with lamps etc. which are not safe close to the record room.

Fourthly, to close up the present main entrance door which lies in the centre of the building and put a window in its place. At present entry to the office is quite uncontrolled and it is often crowded with people who have no business there. It has been thought best, as the hall on the eastern side is to be used exclusively for the clerks, to close the entrance in the middle of it altogether, thus leaving access to the interior only through the Tahsildar's and Sub Magistrate's rooms and through the Police Station. This will be somewhat irksome to the Tahsildar and Sub Magistrate but it will cause a great abatement of the nuisance and prevent the time of their clerks being wasted behind their backs.

Fifthly, to partition off a small portion of the record room nearest to the new court for the

Sub Magistrate. He will have his clerks and Copyists between this and his own room, and, the Police Station and the Sub Jail being next to him, will have thus as compact an office as can be desired. The Tahsildar can easily spare a portion of the record room as his own will be so largely increased.

Sixthly, to extend the Sub Jail compound to the west to the same distance as the new ward extends and to wall it with brick in mud leaving a door near the latrine for the toti. The necessity for the latter improvement was specially pointed out by you at your inspection.

2. An estimate for all these improvements as well as for some very necessary repairs to the existing building amounting in all to Rs 2,800 is herewith submitted. I trust that, in view of the very great advantages that will accrue from the work, it will not be considered excessive. I am not sure whether, under Government Order No. 1143, Judicial dated 12th May 1894, the work is one that should, under any circumstances be executed by the Department of Public Works. But the Executive Engineer has very kindly had the plan and

estimate

Not available
Copy put up

estimate prepared, and is not, I understand, unwilling to undertake it. It is certainly most desirable that his Department should perform it.

3. I enclose herewith the plan and estimate and the Police Superintendent's letter referred to above. I have not yet been able to ascertain exactly the amount of compensation required for the lands to be taken up and am not certain that there is not some mistake in the plan as the Assistant Engineer appears to have provided for taking up the whole width of the adjacent compound whereas I think a width equal to that of the new ward will be sufficient. I have directed the Tahsildar to ascertain in consultation with the Assistant Engineer exactly what land is required and shall forward his report, as soon as I receive it, to you.

I have the honor to be

Tanjore Hd. Asst Collector's Office
Negapatam.
8th November 1893.

Ref on C. No. 464/Eng.

From C. S. Todhunter Esquire
as Head Assistant Collector of
Tanjore;

To The Collector of
Tanjore.

Sir,

In continuation of para 2 of my Reference on Current No. 464 dated 29th August 1893, I have the honor to draw your attention again to the urgent necessity for an extension or an entire rebuilding of the Taluk Kutcheri at Nannilam.

2. The large Taluq of Nannilam was formed in 1860 by the amalgamation of the 3 Taluks of Nannilam, Peralam and Kodavasal. The Office adopted for the establishment then put in charge of the whole was the one which served formerly for the small Taluk of about 100 square miles. And so far as I can ascertain no additions have been made to it since except that of a wing room for the Stationary Sub Magistrate.

3. A ground plan of the Office as it at present exists is herewith submitted. It will be observed that the land occupied by the whole - inclusive of the Police Station and the Sub Jail compound is

only 12424 5/8 square feet. Of these 6,120 square feet form the Compound and Sub Jail aforesaid. 1530 square feet are occupied by the Treasury and the open space around it and the remainder is left for the Tahsildar, the Sub Magistrate and their two establishments. Of this, the long low room to the west is given up to records. It has long been filled so full that there was barely room to squeeze between the racks and now the records have overflowed into a large portion of the space formerly occupied by the Clerks. The small room in the north-east corner is given up to the Mashalji and some little space near it is occupied by the boxes of stationery, almyrahs, Remittance boxes &c. The new wing room to the south east 540 square feet in extent is occupied by the Stationary Sub Magistrate. It gives very scant accommodation to himself, his Court, Clerks and Copyists. The remainder of the building is occupied by the Tahsildar and his establishment. The Tahsildar has no specified Court room of his own, nor has the Head Accountant. If we allow 540 square feet for the former and 180 square feet for the latter, there will remain a little less than 30 square feet a piece for the Clerks.

4. Neither the Tahsildar nor the Sub

Magistrate

Magistrate has a private room. There is no privy for the Clerks. There is no record room for the Sub Magistrate nor is there a separate place for his Clerks to work in.

5. I think you will see from the above that an extension of the Office is decidedly necessary. If a Taluk is entitled to any extra consideration on the ground of ~~the amount~~ of its revenue, I should say that Nannilam is most certainly entitled to be placed in the A list for 1894-95. If you do not think this I should suggest that the Executive Engineer be asked to prepare estimates for extending the existing office in the following respects:-

1stly, to provide a proper Court room and private room for the Tahsildar

2ndly, to provide a private room for the Sub Magistrate and accommodation for his Clerks and records.

3rdly, to extend the record room to nearly double its present size and to place the Mashaljis' room outside the building where it is less liable to be a source of danger.

4thly, to extend the Subjail Compoun to such a size as will give proper accommodation to the prisoners, hard labor and other, who are confined there.

6. I may state however that the Executive Engineer who has inspected the present building considers that it is not worth adding to.

I have the honor to be &ca

GEN. REG. No. 98[illegible] OF 18
LAND REVENUE

Sir,

Adverting to Board's Reference on General Registe No. 2809 of 1893, dated 14th December 1893 and subsequent reminder, dated 24th May 1894, I have the honour to state that I do not find it easy to submit any satisfactory proposals for the utilization or disposal of the existing Cutcheri.

I examined the building in company with the Head Assistant Collector in April last and we arrived at the conclusion that the addition of a wing room at a cost of about Rs 1,000 to supply a Court for the Stationary Sub Magistrate is practicable and will render the accommodation sufficient for some years to come.

The acquisition of a site for a new Cutcheri wil add a good deal to the cost of the project and during the present financial crisis it is not like that funds will be available for the work. As additional room is immediately required, the best course appears to be to add an inexpensi wing room to the existing building.

I will submit my proposals to the Board as soon as the pressure of Jamabandi is over.

I have the honor to be,
Sir,
Your most obedient servant,

H M Winterbotham
