

No. 837c

Trichinopoly. 17th April 1895.

W. Hughes Esqr

6th CIRCLE.

THE CHIEF ENGINEER,

Public works Department.

ENCLOSURES.

In consequence of the absence from this circle of Mr. H. B. H. H. H., Head Clerk, N. I. Division, there is a series of sub-protem appointments. An additional appointment of Clerk IV class 1st grade [Rs 40-50] has lately been sanctioned by Government, and in consequence of this, an appointment of Clerk IV class 2^d grade has to be filled. The question has arisen whether G.O No. $\frac{2720W}{24.10.98}$ obliges me to appoint a graduate. If you consider it allowable I think it would be only just to confirm the man who has been sub-protem in the grade for the last three years and

fill up lower appointments only
temporarily as Mr. the belly is
expected back next year - E.O

No $\frac{1002W}{10.7.93}$ and $\frac{2720W}{24.10.93}$ have caused

a good deal of dissatisfaction and
I think it well not to go beyond
what those orders absolutely require.

I have the honor to be

Sir

Your most obedient servant.

W. H. Hylke

Supt. Engineer V. M. S.
