Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 11th Feb^y 1895.

No. 759 Mis

READ ^x again ^x Proceedings of the Board of
^x attached Revenue, dated 12th Jan^y 1895, No 140 Mis.

Read also the following letter from the
Deputy Commissioners of Revenue Settlement
Poz^y No III, dated 26th Jan^y 1895, No 44.

In continuation of my letter
No 813 dated 26th December 1894,
I have the honor to inform you
that every endeavour has been
made without success to obtain
a house boat for my use. The
Collector also has been kind
enough to make enquiries and he
has informed me that no boat
can be hired at any rate at this

Each officer in the District has a house boat, which he requires for his own duties and there are no spare boats, either Government or private, for sale or for hire. In these circumstances I beg to request that the Board will be pleased to sanction at least Rs 2000 for the construction of a new boat.

2. The boat will be required for at least 3 years, both in this and the Krishna Districts, and within this period Government will get, as rent from the officer using it, about Rs 1200. With reference to Board's Proceedings No. 140 dated 12th instant, I beg to report that in the opinion of the local Engineers and others after the period of these three years the boat may be sold for not less than Rs 1000.

The Government

requested that arrangements may be made to obtain at a very early date the sanction of Government, if necessary, to allot 1000 Rs this year before March and another 1000 in the next year's budget. The Local Fund Engineer promises to get the boat constructed for me within four months.

Resolution

Submitted for the orders of Government.

2. It will not be possible for the Deputy Commissioner to carry out his field inspection properly, if he is not provided with a boat and as it has not been found possible to hire a suitable boat the Board requests sanction for constructing a new boat at an estimated cost of Rs 2000.

One-half of the amount will be required during the current year and the

this can be met from savings in the revised estimate under 3 Land Revenue, Revenue Settlement."

3. The Deputy Commissioners will pay Rs 2 per diem for each day on which he uses the boat or say Rs 40, a month on the average. When the boat is sold at the end of about three years, or when the kistna resettlement is over, it may probably fetch about half its original cost.

Proceedings of the Board of Revenue

(Revenue Settlement, Land Records and Agriculture.)

Dated 12th January 1895.
No. 140 This

READ the following letter from the Deputy Commissioners of Revenue Settlement Party No. III, dated 26th December/94, No. 813:-

I have the honor to request that a sum of Rs 2,500 may be sanctioned for the construction of a 1st class Barge boat at Dowlaishwaram Work shops for my use during the resettlement of the Godavari and Krishna Districts.

2. Until yesterday I was under the impression that the Government Boat in use by Mr. Maltby, Deputy Superintendent of Survey, and constructed for him some time ago at the Bezawada Workshop

would be available about the middle
of April next, but I now learn
that Mr. Maltby will require
the boat for work here till the
end of 1895. I have recently been
travelling in extreme discomfort
in a 2nd class Range Boat only intended
for D. P. W. Subordinates, and I
cannot continue to do so during
the hot season and rainy weather.
Moreover, the Executive Engineer
informs me that he may have
to recall this 2nd class boat at
any moment.

3. As the boat will take 5 months
to construct, I request the Board
will be good enough to sanction
my proposal at an early date.

4. With reference to Board's Proceedings
No 7189 Dis. dated 27th November last
I regret to say, I find it impossible
to obtain or hire a suitable boat
— either Government or private —
and

and a Rahadari boat is not
suitable.

Resolution

The Deputy Commissioner is requested
to enquire and report whether there
is any prospect of disposing of
the boat for a reasonable price
on the completion of the resettlement.
Possibly the Salt and Abkari
Department might take it.

Before the boat can be ready,
half the time required for
classifying the Delta lands
will have expired, and unless
there is a prospect of selling
the boat for at least half-price,
the Board cannot sanction its
construction.

To W.

The cost of the boat is not a Public Works charge and will, if constructed by the Dowlaishwaram Workshops be debited to the Civil Department (i.e. the Revenue Settlement Department). In his second letter however the Dy. Commissioner of Revenue Settlement states that the Local Fund Engineer promises to construct the boat within 4 months and it probably is his intention to have the boat constructed through Local Funds and not P.W. Agency.

REVENUE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following
Proceedings of the Board of Revenue

Revenue Settlement Land Records and agriculture
dated 10th April 1895 No 1868 mis. on the following
telegram from the Superintendent of Revenue Survey
dated 21st March 1895:—

"Maltby's boat is not available. letter follows"
Read also Proceedings of the Madras Government
Revenue Department, dated 18th March 1895 No 1179.
Read again the following reference thereon to the
Deputy Commissioners of Revenue Settlement No III
Party dated 23rd March 95:—
Communicated to the Deputy Commissioners of
Revenue Settlement for early report.
2 The Board understands that Mr Maltby's boat
is not available

Read also the following letter from the Deputy
Commissioners of Revenue Settlement No III Party
dated 28th March 1895 No 224.

Adverting to the Board's
Reference dated the 23rd current on Government
Register No 305 and General Register No 1552/1895,
I have the honour to state that the Local Fund
Engineer informs me that in consequence of
the loss of his workshop Superintendent, he
cannot undertake the construction of the boat.
I therefore request that a first class house
boat may be constructed for me at the
Dowlashwaram workshops at an early date.

Resolution

Submitted to Government with
the request that a first class house-boat may
be ordered to be constructed at the
Dowlashwaram workshops with the least

least possible delay
