

Letter from the Executive Engineer
Kistna Eastern Division, to the
Superintending Engineer, 2nd Circle,
No. 2159, dated 15th August 1895.

I have the honour to request
that, if you have no objection,
you will be so good as to obtain
Sanction if or my spending three
weeks from the middle of September
next on duty in inspecting the
works of the Godavari Delta.

2. I have hitherto had no
opportunity of seeing these works
and I think it will be advantageous
to Government as well as to my-
self to compare the arrangements
in that Delta with those in the
Kistna especially with regard
to regulation of water and dis-
posal of drainage.

3. I have mentioned 3 weeks,
but I should be glad to have
permission to extend it to a
month if found sufficient.

A.s.

As there is not much work going
on at that time of year, I think
my Sub Division Officer can be
safely trusted to keep things
going satisfactorily and I
shall have my tappal sent
to me as usual for disposal.

4. As you are aware I propose
to accompany Mr. Malet in this
inspection.

No 1098 MS

Forwarded to the Chief
Engineer, Public Works Department,
for favour of orders, in con-
tinuation of this office No 1058 MS
13.8.95

2. The Superintending Engineer
recommends that the request of
Mr. C. A. Smith be granted.
W. B. Bannister
Major, R.E.
Superintending Engineer,

Proceedings of the Board of Revenue

(Land Revenue).

Dated 26th July 1895.

No. 3730 Miscellaneous.

READ the following letter from K. C. Manavedan Raja Esquire,
Acting Collector of Bellary, dated 17th July 1895
No. 2056 to the Secretary to the Commissioners
of Board of Revenue, Land Revenue, Madras.

At present there is no room for the Assistant
Collector in the Collector's office. One of the upstairs
rooms is occupied by the Head Quarter Deputy
Collector and the other by the District Forest
officer. The Hall in the centre is intended for
the Collector, while his private room is adjacent to
it on the north. It would be well, if the Treasury
Deputy Collector is given accommodation in the
new Treasury building for which plans and
estimates were sent to the Board on 9th May last
together with the Superintending Engineer's (2nd circle)
letter dated 28th April 1895, No. 76 for transmission
to Government for sanction.
