

Artesian boring

Cms 6198

Now D 303

For orders.

A file relating to the Artesian boring in the Kortalayar Valley is submitted.

With regard to the sheet of ascending water struck at 42 feet please see the Ch. Engr's note printed with G.O. No. 3934 W.D. 17.12.89 of Mr. de Closet's report in P.O. No. 1213 W.D. A 7.5.89.

Mr. de Closet was before permitted to make an 8" trial boring to this sheet of water, but it is not very clear what the results were. From the S.E.'s letter No. 830 of 7.5.89 it appears that the operations were closed & the plant removed after

No. 2165 W.D. 30 August 1895

Read the following:—

From A. P. de Closet Esq. C.E. Pondicherry of 9 August 1895.

FOR ORDERS.

The question appears to have been carefully considered in 1888 and 1889, and by P.O. No. 1213 W.D. A dated 7th March it was decided to ^{not} do the boring.

I cannot believe that any results commensurate with the expenditure would be obtained by renewing operations and therefore consider that no further action should be taken.

PUBLIC WORKS DEPARTMENT

N^o 2165 W of 30th August 1895

PROCEEDINGS OF THE MADRAS GOVERNMENT

From Monsieur A. P. de Closets, C.E. Pondicherry of 9th August 1895

Read the following

It is observed that the question was carefully considered in 1888 and 1889, and that by G.O. 1213 W dated 7th May 1889 it was decided to abandon the boring. His Excellency the Governor in Council sees no reason to sanction a renewal of operations.
