RESOLUTION—dated 16th August 1895, No. 21, Press.

Communicated to all Collectors in charge of Wards' estates.

2. An extract from Government Order, No. 1137 W., dated 29th April 1889, is appended to these Proceedings.

(True Copy and Extract.)

Secretary.

To all Collectors in charge of Wards' estates.

Copy to the Collectors of other districts, except Madras.

" " Accountant-General.

" " Secretary to Government, Public Works Department,
through the Secretary to Government, Revenue Department.

APPENDIX.

EXTRACT (paragraph 2) from Government Order, No. 1137 W., dated 29th April 1889.

2. The following rules will now be brought into force:—

I. The percentage charged for the examination of estimates shall be $2\frac{1}{2}$ per cent. It shall be struck as follows:—

(a) *Original estimates* or those examined for the first time on the amount of the estimates as submitted to the Superintending Engineer.

(b) *Revised estimates*.—There shall be no fresh charge when the alteration is due to change of quantities or rates and not of design. In other cases the full percentage shall be charged on the amount of items altered, as appearing in the revised estimate submitted to the Superintending Engineer.

II. The charge shall be made and recovered on the completion of the examination, irrespective of subsequent disposal of the estimate.

III. A note showing particulars of the estimate examined and of the charge to be recovered shall be sent by the Superintending Engineer to the Examiner, Public Works Accounts, who will furnish a consolidated return quarterly to the Secretary to Government, Public Works Department, Buildings and Roads Branch, for transmission to the Local and Municipal Department and recovery of the amount due.

IV. No charge for scrutiny of estimates is to be made when Local Funds pay the ordinary percentage for establishment, &c., for works executed by the Public Works Department.

Exd. W. J. Lewis.

Resolution—dated 9th May 1895, Mis. No. 876.

The question now referred to the Court by Government was recently raised by the Collector of Vizagapatam, and the Court ordered that the Superintending Engineer should be asked to arrange for advice being given by the Executive Engineer if this could be done without detriment to the public service. It was understood that under section 130-1 of chapter I of the Government of India Public Works Code this advice would be given *gratis*.

2. From the papers now forwarded by Government, it appears that the scrutiny of estimates will be conducted in the office of the Superintending Engineer, and that for this purpose extra establishment must be entertained. In these circumstances, the Court is prepared to accede to the application of the rules laid down in Government Order, dated 29th April 1889, No. 1137 W.

(True Copy and Extract.)

(Signed) R. C. C. CARR,
Acting Secretary.

PROCEEDINGS OF THE COURT OF WARDS.

READ—again the following Proceedings of the Court of Wards, dated 9th May 1895, Mis. No. 876 :—

Read—the following letter from A. H. GARRETT, Esq., Superintending Engineer, I Circle, to the Chief Engineer, Public Works Department, dated Dowlaisheram, 12th April 1895, No. 48-Gl. :—

I have the honour to inform you that estimates for works in estates under the control of the Court of Wards are being sent to me by Collectors for scrutiny.

2. This procedure is quite new and on receipt of one of these estimates from the Collector, Górávari, I requested to know the authority under which I could be asked to scrutinize the estimate; also whether the Court of Wards was prepared to pay the percentage charged for the scrutiny of Local Fund estimates.

3. In reply, I was referred to the Public Works Code, volume I, chapter 1, article 130, where it is laid down that estates under the management of the Court of Wards are entitled to the gratuitous services of officers of the Public Works Department when these can be given without detriment to the public service. The local Government has however to decide whether this condition is fulfilled; also to what officer application for assistance should be made.

4. There are in this circle nine estates under the management of the Court of Wards as entered in the margin. Although I have no means of forming an idea of the number of estimates which are likely to be sent for scrutiny, it is, I think, a fair presumption that the work to be undertaken would require the appointment of an extra draftsman, especially when it is remembered that the estimates are nearly certain to be sent up in a very imperfect shape.

5. If the scrutiny was undertaken by Executive Engineers, the only division in which the present establishment would have to be increased is the Vizagapatam Division.

6. It would, I think, be the best arrangement for all the estimates to be sent to the Superintending Engineer. This will entail a very considerable amount of extra work in my office, and I think there should be a percentage charge as in the case of Local Fund estimates.

No. 52-D.

Referred to the Revenue Department for favour of information whether the Court of Wards is prepared to accede to the application of the rules in Government Order, No. 1137 W., dated 29th April 1889, to the case of estimates for estate works which require scrutiny by officers of the Public Works Department.

2. It is clear that the Superintending Engineer, I Circle, cannot undertake the work without extra establishment.

(Signed) J. PENNYCUICK, Colonel, R.E.,
Secretary to Govt., P.W.D.

24th April 1895.

Endorsement No. 1674.

Referred to the Court of Wards for report.

OOTACAMUND,
26th April 1895.

(Signed) G. S. FORBES,
Acting Secy. to Government.

To the Court of Wards, with copy of Government Order,
No. 1137 W., dated 29th April 1889 (to be returned).
