JULY.

Sanctioning the execution, by the Public Works Department, of the contribution work of constructing a — in the bund of the Valudalambedu small tank in Arni river minor basin, Chingleput district.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

No. 656 I., 16TH JULY 1897.

GOVERNMENT OF MADRAS.

PUBLIC WORKS DEPARTMENT.

Irrigation.

READ—the following paper:—

No. 954 T.

Note by the Chief Engineer for Irrigation, Tank Restoration Scheme.

An estimate of Rs. 990 for repairing and improving Nos. 9 and 9/A Valudalambedu large and small tanks in Arni river minor basin, Ponnéri taluk, Chingleput district, was sanctioned in Register No. 42 T. of 1894-95, and this estimate included provision for constructing an earthenware pipe sluice in the bund of the small tank. The ryots holding lands under the tank requested that the amount provided in the estimate for earthenware pipe sluice may be paid to them, and that they may be permitted to build a masonry sluice in lieu thereof. As it was not considered advisable to leave the construction of the new sluice to the ryots, the Superintending Engineer was requested to revise the estimate, allowing for a masonry sluice in lieu of the pot sluice, so that the work may be carried out by this department after recovering the difference in cost from the ryots concerned. The revised estimate, prepared accordingly, has now been sanctioned. In these circumstances, sanction of Government is requested, under paragraph 79, Chapter 9, Volume I, Public Works Code, to the execution of the work by this department. The Superintending Engineer will arrange, in communication with the Collector of the district, to recover the contribution due from the ryots, before putting the work in hand.

OOTACAMUND,
2nd July 1897.

(Signed) F. J. WILSON,
for Chief Engineer for Irrigation, T.R.S.

To the Joint Secretary to Government,
Public Works Department, Irrigation Branch.

ORDER—No. 656 I., dated 16th July 1897.

The execution by the Public Works Department of the work referred to, is sanctioned. The Superintending Engineer will see that the work is put in hand after the recovery of the contribution.
