Read—also the following papers :—

Proceedings of the Board of Revenue (Revenue Settlement, Land Records and Agriculture), Mis. No. 5410, dated 2nd November 1896.

Read—Memorandum from the Chief Engineer for Irrigation, dated 30th October 1896, No. 3818 C.

Resolution—Mis. No. 5410, dated 2nd November 1896.

Recorded.

2. It will be pointed out to the Chief Engineer that the statement now forwarded is nearly three years' old, and does not show where the stocks of tools are at present stored. Neither does it show how far the very large deficiencies in the stocks of hammers, mamatties, pick-axes and rammers in Ganjám and Nellore and of hammers, mamatties and rammers in the Deccan districts have been made good during the last three years; nor what steps have been taken to provide an adequate supply of cash-chests. The Board considers that it is urgently necessary that the prescribed stock for the Deccan should be brought up at once, and in this connection the Board would draw the Chief Engineer's attention to Board's Proceedings, No. 5299, dated 28th October 1896, to which no reply has been received.

Transferred to the Chief Engineer, Public Works Department, for disposal, in continuation of this office Nos. 80 E.W. and 347, dated 29th and 24th October 1896, respectively.

(Signed) F. J. WILSON,
for Chief Engineer for Irrigation.

3rd November 1896.

Order—No. 3186 W., dated 6th November 1896.

His Excellency the Governor in Council observes that in the order first read above, the Government prescribed a scale of tools to be kept in stock in each Public Works Circle for use on famine-relief works. As, however, the expense of moving surplus tools so as to work up to the prescribed scale would be considerable, and much of the expense might ultimately be found to have been unnecessary, it was decided that, except in the case of actual famine, no large expense was to be incurred in the removal of tools. The time has, however, now arrived for completing stocks to full sanctioned strength under all heads for the Deccan districts. The Superintending Engineer, III Circle, will accordingly, with this view, indent at once on neighbouring districts shown by G.O., No. 3159 W., dated 6th December 1893, to contain surplus stocks. These indents will be complied with at once by the officers concerned.

2. The wooden cash-chests and rammers, shown by paragraph 3 of G.O., No. 3116 W., dated 2nd December 1893, to have been deficient, have since been obtained and are in stock at the Public Works Stores, Madras. They can be obtained on indent.

3. The Superintending Engineer, III Circle, will report when these orders have been fully complied with.

(True Extract.)

(Signed) D. McNEIL CAMPBELL, Colonel, R.E.,
Secretary to Government.

His Excellency the Governor in Council observes that, in the order first read above, the Government prescribed a scale of tools to be kept in stocks in each Public Works Circle for use on Famine Relief Works. As, however, the expense of moving surplus tools so as to work up to the prescribed scale would be considerable, and much of the expense might ultimately be found to have been unnecessary, it was decided that except in the case of actual famine no large expense was to be incurred in the removal of tools. The time has, however, not arrived for completing stocks to full sanctioned strength under all heads for the Deccan districts. The Supdg Engineer III Circle will accordingly, with this view, indent at once on neighbouring districts shewn by G.O. No 3159 W dated 6 December 1893 to contain surplus stocks. These indents will be complied with at once by the officers concerned.

2. The wooden cash chests and panniers, shewn by para 3 of G.O. No 3116 W dated 2d Decr 1893 to have been deficient, have since been obtained and are in stock at the Public Works Stores, Madras. They can be obtained on indent.

3. The Supdg Engineer III Circle will report when these orders have been fully complied with.

P. W. DEPARTMENT.

READ the following:—

Proceedings of the Board of Revenue (Rev. Sett, Land Records & Agriculture) No. 5410 Mis d/ 2nd Novr 1896

Endorsement by the Chief Engineer for Irrigation No. 82 E.W. dated 3rd November 1896

FOR ORDERS.

The Board are of opinion that the prescribed stock of famine tools for the Deccan should be brought up to scale at once. The statement attached to G.O. 3159 W dated 6th December 1893 shows where the tools were in 1893. A reference to G.O. 3116 W dated 2nd December 1893 will show that the Govt deprecated large expense on the movement of surplus tools except on the actual occurrence of famine, and that the prescribed stocks were, otherwise, to be worked

43—500-22-1-96.

to "gradually", and at the "discretion" of Supdg. Engineers.

The question now is whether the time has arrived for completing stocks to full sanctioned strength under all heads for the Deccan Districts; orders on this point are solicited.

The cash chests referred to by the Board, as well as the deficient rammers mentioned in para 3 of G.O. 3116 W dated 2nd Decr 1893, have been provided, and are now in the P.W. Stores at Madras.
