Your office note No. 897 C. dated
15th. February 1896.

Returned with the following re-
marks-

2. The capital cost of the building should be Rs. 5669 instead of Rs. 5617 additional capital outlay having been incurred in 1893-94. The 4 per cent in column 10 would then amount to Rs. 227.
3. The actual average cost of repairs entered in column 13 of the data statement appears to have been arrived at by dividing the actual cost for 6 years ending with 1894-95 as recorded in the Capital and Revenue Accounts by eight; while the cost incurred in 1887-88 and 1888-89 should also have been taken into consideration to make up the total eight years outlay required by G.O. No. 1367 W. dated 22nd. May 1889. The provision on this account should therefore be Rs. 480 as shown in the margin.

Cost of repairs including percentage
on account of Establishment &
Tools and Plant in 1887-88..Rs. 7
do 1888-89.....Rs. 1054
do 1889-90 to
1894-95 as per Capital and
Revenue Accounts.....Rs. 2778
Total Rs. 3839

Average for 1 year = 3839/8 or 480

4. If the statement be corrected as above indicated, the rent of the building would then be Rs. 59 per mensem as shown in pencil.
