2. These works have been rendered necessary by the transfer to Perambur of the Locomotive Workshops at Podanur. The extension to the erecting shop is much needed and should if possible be put in hand during the

the current Official year. The extension of the shops involves the dismantlement of the existing tool stores and Foreman's office and it is therefore necessary to replace them by new buildings.

3. An extract of para 20 from Board's letter No. 920 dated 21st June 1895 approving of the above work is enclosed for your information.

Sir,

With reference to G. O. No. 117 R dated 15th instant, I have the honor to quote for your information the following extract from a letter from the Locomotive Superintendent:-

"The Foreman's office and Tool stores are shewn, in the drawing sent forward, as located in the two bottom bays of the building and, as it is intended that they shall be permanent buildings, there is no intention whatever to remove them when any further extensions of this shop is contemplated. A further extension of this shop to the south could not, without difficulty, be effected, and moreover any further

accommodation

accommodation for the erection of Engines is provided for by the proposed conversion of the present Boiler Shop into a second Erecting Shop, and its extension towards the north upon the site of the present Lathe Shop.

The extension now sanctioned forms part of and is in accord with the final general Scheme."
