L.S.O. Note
Please report in condition of cultivation under side channel. I have had no complaints for a month.

L. S. O. Note
20.10.95
Ex. Engineer

To be returned

Letter from Conductor C. Smith, District Division Officer, Erode to the Executive Engineer, Coimbatore Division, dated Coimbatore, 16th November 1895, No. 776.

With reference to your endorsement on Government of India letter herewith returned, I beg to report that I have inspected the whole of cultivation under the side channel and with exception of the portions noted below, the whole of the land has been cultivated and the crops (on this day) are in a most flourishing condition.

1st 1/2 mile about 1 acre of land not planted. This is high land and intended for khar crops only.

2nd 20/2 mile about 1 acre not cultivated. This could have been irrigated from Shice No. 10. The land is owned by a rich ryot who wishes to make out that an additional Shice is necessary, which is not the case.

3rd 20/2 mile about 1/4 acre not planted. Could

Could have been irrigated by Ruice
No 11.

4th 20th mile about $\frac{3}{4}$ acre not planted

This is high ground, and could not
be well irrigated from the side channel
at its present level. The owner intends
lowering the piece of land by removing
6 inches of the top soil next season.

5th 22nd mile about an acre not
planted owing to the land being at a
high level. Arrangements can be made
to supply water for this piece next
year. And this is the only place where
there is just ground for complaint.

2. There is ample water for all
lands now under cultivation. The ryots,
I understand, except better crops than
hitherto, owing to the continual and
ample supply of water. In former years
they were only given the water by turns.

3. In my opinion, the ryots
who sent such a false telegram to
the Government of India should be
heavily fined.

No 4681 dated 25th November 1895

Encl: 2

Copy - forwarded to the As-
sistant Engineer, 4th Circle, with
reference to his endorsement No 608. C. I.
of 18th October 1895, herewith returned
2.

The undersigned has taken
a great deal of trouble to give the
ryots under this channel a full supply,
and he considers they have no ground
of complaint.
