Resolution

urgent

PUBLIC WORKS DEPARTMENT.
(Marine)

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following

Letter from the Chairman, Harbour
Trust Board, Madras No 366 dated 27th
April 1896.

I have the honour to acknowledge
the receipt of S.O. No 1171 W Public Works
dated 2nd April 1896, authorising the
Consulting Architect to complete the
building intended for a public Warehouse
at Madras, and to request that Govern-
ment will postpone the completion
of the building in question until such
time as the Harbour Improvement
Scheme has been finally settled.

2. A copy of the resolution passed
by the Board at its meeting of the
24th Instant is enclosed for your
information.

Order thereon No 311 Marine d/6th May 1896.

His Excellency the Governor in
Council desires that the Harbour
Trust Board will, at an early date,
state the grounds on which their
Resolution

Resolution is based; there being nothing before Government to show in what manner the harbour improvements scheme will interfere with the construction of the public Warehouse. Meanwhile, the Consulting Architect will be directed in the Public Works Department to hold the Warehouse work in abeyance.

To.
The Chairman,
Harbour Trust Board
Public Works Dept

Letter from the Executive Engineer, District Northern Division to the Superintending Engineer, II Circle No. 48 S.E., dated 21st April 1896.

With reference to your letter No. 89 K.D., dated 9th April, 1896, on Chief Engineer's memo No. 180 D.C. of the 2nd idem, remarking that it is not understood why the completion of church plans could not be done with the assistance of the temporary draftsman already allowed, I have the honor to inform you that the draftsman would not have been asked for, but for the suggestion contained in Chief Engineer's memo No. 1034 C of 22nd July 96, but had he not been employed, the submission of the plans and estimates for the church would have been delayed, as at this time of the year estimates for all repairs to works and floating plant, repairs to Tanks, and

and original works received from all sides have to be attended to, not to mention the arrears that had to be cleared off. The Chief Engineer's memo No. 1034 C of 22nd Feby 96 was issued apparently to avert such a delay by the employment of extra men and hence the application.

The application was made for 3 months that not only the church but all arrears and extra work involved by the breaching of the tanks in the Berpada Taluq might be worked off and the office brought up to date.

Forwarded to the Chief Engineer, P.W. Department for favorable consideration with reference to memo No. 1808 C of 2nd April, 1896.

W. B. Addisby

Superintending Engr.
II Circle.

Chp 4201
Saul 153 W

The explanation given for the entertainment of an extra draftsman in the District Northern D^y is still very vague; a detailed statement showing the amount of the drawing work to be done should have been furnished by the Engrs. Engineer to justify the appointment of the extra man, but nothing of the kind has been received. Further while passing the watchmen establishment of the II Circle observed that the tendency of the S.E. seemed to be extravagant as regards establishment. For orders.

AMF
8.5.96

W for orders. Me

Engr. Engr. states that the extra draftsman is asked for in accordance with this memo No. 1034 C of 22.2.96, & draft order mentioning an application is therefore submitted.

INDEXED

No. 15-80

High Court of Judicature,
Madras 23rd April 1896.

From

R. H. Shipley, Esquire,
Acting Registrar of the
High Court of Judicature,
Appellate side,
Madras.

To

The Honorable Mr. F. J. Price, C. S. J.,
Chief Secretary to Government,
Fort Saint George.

Honorable Sir,

I am directed to forward for the early
sanction of H. E. the Governor in Council, the Estimates
for the repair and improvement of the District
Municipal Court at Roddatur.

The building leaks seriously, and the walls
are sodden with the damp. The initial mistake
was that a Mangalore tiled roof was put on the
building and no boarded ceiling was provided.
The results are two fold: leakage and insufferable
heat. The repairs and improvement are in the
opinion of the High Court very necessary,

and

and should, if possible, be carried out during
the Recess.

I have the honor to be,
Honorable Sir,

Your most obedient Servant,

A. H. Shetty
Acting Registrar.
Appellate side.

No 1532 W of 16th May 1896.
Public Works Department.

Current No. 4222
Letter No. 935
Dated 29th April 1896
From the Judicial Department

NOTE BY TECHNICAL SECTION.

Name of work Repair to the District Municipality
Court house at Proddatur, Cuddapah
District.

Amount of estimate Rs 1270.

This estimate provides for repairing or improving the roof of the District Municipality Court house at Proddatur in the Cuddapah District.

The existing roof of the building is reported to leak much & in consequence the walls become damp moreover the heat in the building is stated to be insupportable owing to no boarded ceiling being provided under the Mangalore tile roof. The estimate therefore provides for ceiling the roof with $\frac{1}{2}$ " pine planks, painted on the inner surface with 2 coats of zinc white paint & for retiling the roof where the tiles have been displaced &c.

Every letter, whether printed or in manuscript, should be docketed and abstracted on the back; and the abstract should state clearly the purport of the letter and not merely its title subject.

Enclosures and statements also, whether sent with letters, or merely under cover, should be numbered, docketed and abstracted. The headings of statements should be written in full to prevent mistakes. (G. O. 8th April 1893, No. 289, Public.)

The rates are fair.

The estimate has not been
sent in to the S.E.'s Office, it
has however been approved in
the Judicial Dept. with the re-
mark that the sanction of Govt.
to prepare the estimate was
not at first obtained.
