PROCEEDINGS OF THE BOARD OF REVENUE
(REVENUE SETTLEMENT, LAND RECORDS AND AGRICULTURE).

READ—the following letter from HERBERT BRADLEY, Esq., Collector of Coimbatore, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 30th March 1896, Disposal No. 1018-Rev.:—

With reference to your Proceedings, No. 5 (Settlement, &c.), dated 9th January last, I have the honour to forward herewith the programme of famine-relief works for 1896–97 in the forms A, B and C for the Coimbatore district. It will be noted that the proposals relating to Polláchi taluk do not provide labour for 20 per cent. of the population of that taluk as required in Board's Proceedings, No. 411 (Settlement, &c.), dated 7th June 1892. The Tahsildar's attention has been drawn to this point and he has been ordered to see that his proposals for 1897–98 aggregate sums which will provide labour for the required percentage of the population.

RESOLUTION—dated 20th April 1896, No. 68.

The abstract of the programme of famine-relief works for 1896–97 received from the Collector of Coimbatore will be submitted for the information of Government.

2. The programme provides for the construction of two new irrigation works to cost 6·54 lakhs * and repairs of existing works at a cost of 4·44 lakhs; for the construction of forest works, 0·15 lakh; for 578 miles of new roads, nearly 3·20 lakhs and repairs to old roads, 20·01 lakhs; works calculated to improve the supply of drinking water to cost 1·83 lakhs and other miscellaneous works costing 13·22 lakhs. The last item includes a sum of 2·99 lakhs likely to be advanced under the Land Improvement Loans Act. The aggregate provision comes to Rs. 49,39,076; and the works are estimated to be sufficient to provide employment for three months in a period of distress for nearly 33 per cent. of the total population of the district according to the census of 1891. The provision made is ample in all taluks, except Polláchi, where, as in the previous year, it slightly falls short of the prescribed minimum; but the Collector states that the Tahsildar has been instructed to enlarge the provision made in this taluk.

* Kalingarayen extensions and improvements, 6·5 lakhs.

3. Estimates are stated to be ready for works to cost 20·4 lakhs or 44 per cent. of the total provision, exclusive of the land improvement works for which no estimates need be prepared.

4. It is observed that the total provision under large works in the programme under review is nearly the same as in the previous year's programme, but that there has been a great decrease under the head of sanctioned works. This should be explained fully. If the present classification is correct, the instructions given in the concluding portion of paragraph 2 of the Government of India letter printed in Board's Proceedings, No. 360, dated 6th September 1894, should receive early attention, and the information therein referred to should be furnished at an early date.

5. At the end of statement A, the Collector has provided a sum of Rs. 25,000 for the improvement of water-supply to the Coimbatore town. This is an additional work to be made available for famine relief in the event of necessity, and information should therefore be furnished as to what progress has been made in regard to its investigation.

6. In Board's Proceedings, Mis. No. 4286, dated 14th August 1895, it was ordered that the provision for land improvement works should also be shown in columns 21 and 23 of statement C. This has not been attended to. The necessary alterations have been made in the appendix to these Proceedings. The Collector is requested to carry out similar alterations in his office copy of form C, and to avoid such omissions in future.

7. (*a*) Rupees 3,500 is provided in form C for a new irrigation work in the Karur taluk. This amount is also included in the total provision for the repair work in the Karur works in statement B which is intended to show the proposed expenditure for the repair of the *existing* works only and not for *new* works. This discrepancy should be explained.

(*b*) The total number of irrigation works in and out of repair in the district as per statement B is entered as 272 and 33, respectively, whilst the corresponding numbers of such works as per No. 15 Jamabandi statement for fasli 1304, submitted by the Collector, are shown to be 225 and 21. This also needs explanation.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
" the Collector of Coimbatore.

Exd. Shaik Karim.

Famine-relief works.—Reviewing the programme of — for 1896–97 submitted by the Collector of Coimbatore.

PROCEEDINGS OF THE BOARD OF REVENUE

(Revenue Settlement, Land Records and Agriculture).

Read—the following letter from HERBERT BRADLEY, Esq., Collector of Coimbatore, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 30th March 1896, Disposal No. 1018-Rev.:—

With reference to your Proceedings, No. 5 (Settlement, &c.), dated 9th January last, I have the honour to forward herewith the programme of famine-relief works for 1896–97 in the forms A, B and C for the Coimbatore district. It will be noted that the proposals relating to Polláchi taluk do not provide labour for 20 per cent. of the population of that taluk as required in Board's Proceedings, No. 411 (Settlement, &c.), dated 7th June 1892. The Tahsildar's attention has been drawn to this point and he has been ordered to see that his proposals for 1897–98 aggregate sums which will provide labour for the required percentage of the population.

Resolution—dated 20th April 1896, No. 68.

The abstract of the programme of famine-relief works for 1896–97 received from the Collector of Coimbatore will be submitted for the information of Government.

2. The programme provides for the construction of two new irrigation works to cost 6·54 lakhs * and repairs of existing works at a cost of 4·44 lakhs; for the construction of forest works, 0·15 lakh; for 578 miles of new roads, nearly 3·20 lakhs and repairs to old roads, 20·01 lakhs; works calculated to improve the supply of drinking water to cost 1·83 lakhs and other miscellaneous works costing 13·22 lakhs. The last item includes a sum of 2·99 lakhs likely to be advanced under the Land Improvement Loans Act. The aggregate provision comes to Rs. 49,39,076; and the works are estimated to be sufficient to provide employment for three months in a period of distress for nearly 33 per cent. of the total population of the district according to the census of 1891. The provision made is ample in all taluks, except Polláchi, where, as in the previous year, it slightly falls short of the prescribed minimum; but the Collector states that the Tahsildar has been instructed to enlarge the provision made in this taluk.

* Kalingaroyen extensions and improvements, 6·5 lakhs.

3. Estimates are stated to be ready for works to cost 20·4 lakhs or 44 per cent. of the total provision, exclusive of the land improvement works for which no estimates need be prepared.

4. It is observed that the total provision under large works in the programme under review is nearly the same as in the previous year's programme, but that there has been a great decrease under the head of sanctioned works. This should be explained fully. If the present classification is correct, the instructions given in the concluding portion of paragraph 2 of the Government of India letter printed in Board's Proceedings, No. 360, dated 6th September 1894, should receive early attention, and the information therein referred to should be furnished at an early date.

5. At the end of statement A, the Collector has provided a sum of Rs. 25,000 for the improvement of water-supply to the Coimbatore town. This is an additional work to be made available for famine relief in the event of necessity, and information should therefore be furnished as to what progress has been made in regard to its investigation.

6. In Board's Proceedings, Mis. No. 4286, dated 14th August 1895, it was ordered that the provision for land improvement works should also be shown in columns 21 and 23 of statement C. This has not been attended to. The necessary alterations have been made in the appendix to these Proceedings. The Collector is requested to carry out similar alterations in his office copy of form C, and to avoid such omissions in future.

7. (*a*) Rupees 3,500 is provided in form C for a new irrigation work in the Karur taluk. This amount is also included in the total provision for the repair of the P.W.D. works in statement B which is intended to show the proposed expenditure for the repair of the *existing* works only and not for *new* works. This discrepancy should be explained.

(*b*) The total number of irrigation works in and out of repair in the district as per statement B is entered as 272 and 33, respectively, whilst the corresponding numbers of such works as per No. 15 Jamabandi statement for fasli 1304, submitted by the Collector, are shown to be 225 and 21. This also needs explanation.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
" the Collector of Coimbatore.

Exd. Shaik Karim.

Famine-relief works.—Reviewing the programme of — for 1896-97 submitted by the Collector of Coimbatore.

PROCEEDINGS OF THE BOARD OF REVENUE

(Revenue Settlement, Land Records and Agriculture).

Read—the following letter from HERBERT BRADLEY, Esq., Collector of Coimbatore, to the Secretary to the Commissioner of Revenue Settlement, Land Records and Agriculture, dated 30th March 1896, Disposal No. 1018-Rev.:—

With reference to your Proceedings, No. 5 (Settlement, &c.), dated 9th January last, I have the honour to forward herewith the programme of famine-relief works for 1896-97 in the forms A, B and C for the Coimbatore district. It will be noted that the proposals relating to Polláchi taluk do not provide labour for 20 per cent. of the population of that taluk as required in Board's Proceedings, No. 411 (Settlement, &c.), dated 7th June 1892. The Tahsildar's attention has been drawn to this point and he has been ordered to see that his proposals for 1897-98 aggregate sums which will provide labour for the required percentage of the population.

Resolution—dated 20th April 1896, No. 68.

The abstract of the programme of famine-relief works for 1896-97 received from the Collector of Coimbatore will be submitted for the information of Government.

2. The programme provides for the construction of two new irrigation works to cost 6·54 lakhs * and repairs of existing works at a cost of 4·44 lakhs; for the construction of forest works, 0·15 lakh; for 578 miles of new roads, nearly 3·20 lakhs and repairs to old roads, 20·01 lakhs; works calculated to improve the supply of drinking water to cost 1·83 lakhs and other miscellaneous works costing 13·22 lakhs. The last item includes a sum of 2·99 lakhs likely to be advanced under the Land Improvement Loans Act. The aggregate provision comes to Rs. 49,39,076; and the works are estimated to be sufficient to provide employment for three months in a period of distress for nearly 33 per cent. of the total population of the district according to the census of 1891. The provision made is ample in all taluks, except Polláchi, where, as in the previous year, it slightly falls short of the prescribed minimum; but the Collector states that the Tahsildar has been instructed to enlarge the provision made in this taluk.

* Kalingaroyen extensions and improvements, 6·5 lakhs.

3. Estimates are stated to be ready for works to cost 20·4 lakhs or 44 per cent. of the total provision, exclusive of the land improvement works for which no estimates need be prepared.

4. It is observed that the total provision under large works in the programme under review is nearly the same as in the previous year's programme, but that there has been a great decrease under the head of sanctioned works. This should be explained fully. If the present classification is correct, the instructions given in the concluding portion of paragraph 2 of the Government of India letter printed in Board's Proceedings, No. 360, dated 6th September 1894, should receive early attention, and the information therein referred to should be furnished at an early date.

5. At the end of statement A, the Collector has provided a sum of Rs. 25,000 for the improvement of water-supply to the Coimbatore town. This is an additional work to be made available for famine relief in the event of necessity, and information should therefore be furnished as to what progress has been made in regard to its investigation.

6. In Board's Proceedings, Mis. No. 4286, dated 14th August 1895, it was ordered that the provision for land improvement works should also be shown in columns 21 and 23 of statement C. This has not been attended to. The necessary alterations have been made in the appendix to these Proceedings. The Collector is requested to carry out similar alterations in his office copy of form C, and to avoid such omissions in future.

7. (*a*) Rupees 3,500 is provided in form C for a new irrigation work in the Karur taluk. This amount is also included in the total provision for the repair of the P.W.D. works in statement B which is intended to show the proposed expenditure for the repair of the *existing* works only and not for *new* works. This discrepancy should be explained.

(*b*) The total number of irrigation works in and out of repair in the district as per statement B is entered as 272 and 33, respectively, whilst the corresponding numbers of such works as per No. 15 Jamabandi statement for fasli 1304, submitted by the Collector, are shown to be 225 and 21. This also needs explanation.

(True Copy and Extract.)

(Signed) P. RAJARATNA MUDALIAR,
Secretary.

To the Secretary to Government, Revenue Department.
,, the Collector of Coimbatore.

Exd. Shaik Karim.
